"OUR DANGER"—What is it? Go hear Gen. Roberts.

At the recent teachers' convention at Lincoln about 200 school teachers were present.

Prof. Ed. Lippitt will have some good vocal music, for the occasion of Gen. Roberts' lecture.

Hon. T. W. Tipton will lecture in the M. E. Church at Highland, Saturday evening, 9th inst.

Every temperance gentleman and lady in the country should hear Gen. Roberts next Tuesday evening.

Ed. James Connoran will preach in the Christian Church, this city, next Sunday. All are invited; seats free.

We had quite a snow storm last Friday, and frost Saturday morning, but it was light, and did no damage to the fruit buds.

Elder Cartwright, of the Christian Church, has been holding a series of meetings in Lincoln for the past week, during which time seven conversions have taken place.

The temperance people from Nemaha, Aspinwall, and the adjacent country around Brownville should turn out next Tuesday evening, to hear Gen. Roberts, so that they may have a rousing house, as heretofore.

Admission tickets to Gen. Roberts' lecture are on sale by Dole, at McPherson's store, Wils. E. Majors at the Clerk's office and at Nickell's drug store. Price of tickets 25 cents, children under 10 years ten cents. No extra charge for reserved seats.

The County Commissioners of Nemaha county will hold a session on Board of Equalization commencing on the third Monday of April, and continuing three days. All persons feeling aggrieved by the assessors should appear and their complaints will be heard, and the County Commissioners expressly request all tax payers to see that their assessment is properly returned. J. H. PERKY.

A special communication of Nemaha Valley Lodge, No. A. F. & A. M. is hereby called for Friday evening April 12th, for the purpose of receiving an official visit from the Custodian of this District, by order of the R. W. G. M. A full attendance is desired, as matters of interest and importance will be considered. By order W. M. B. F. SODNER, Secy.

Doc. Presson, who published a paper at Tecumseh just prior to establishment of the Chief, is now in jail at Keokuk, Iowa, for forging names to pension papers. It was believed in Tecumseh that the office of the Gazette, which was burned, was fired by Presson. After he left Tecumseh, he preached for the M. E. church while and had a circuit up the river in Nebraska somewhere, but was "shut up" by the church for some meanness. The Doc. is a very bad egg, sure.

We made a brief visit the other day to the splendid fruit farm of ex-Gov. Furnas, and found the Gov. in striped overalls and buckskin jacket. It was quite a "cool day" right into business, doing "a good day's thing in a minute." We were pleased to find him in excellent health. If there is any reward for "signs" and the appearance of things he will not be disappointed. It was a beautiful sight, those thousands and thousands of fruit trees of all varieties, in full bloom. The Gov. has put out over 40,000 grafts and grape cuttings this spring, and if the seasons are at all auspicious he will harvest not less than 20,000 bushels of fruit.

"OUR DANGER"—The State Journal speaking of this lecture says: "Gen. Geo. H. Roberts, who has been preparing a lecture during the winter months, has completed the same, and will start on a lecturing tour through the western part of the State next week. His theme is 'Our Danger,' and from that standpoint he shows in beautiful language the dangers which in his judgment threaten the perpetuity of the Republic, from lust of gold, intemperance, ignorance, etc. The General has received invitations from prominent bodies throughout the state to deliver his lecture, and we bespeak for the General crowded houses wherever he goes. As an orator, he has but few superiors in the country."

We had not the pleasure of hearing Ed. Cartwright's temperance speech Monday evening, but we learned that his remarks were well received. On Tuesday evening we listened with pleasure to the lecture of Rev. Wilson of the M. E. church. We have not space in our columns to give a synopsis even of what he said; but we never heard a brief temperance lecture that better suited our ideas of the ways and means of doing away with the liquor traffic. On the main points the speaker's positions were in accord with our views such as we have often advocated in our columns, and such as we have been constrained for by the radicals and imprudent. Persuade the old men not to drink, and educate the youth not to drink, and saloons will close for want of customers.

There is no earthly born more precious than good health, and it becomes its possessor to endeavor to retain it.
