THE ADVERTISER

THURSDAY, SEPT. 10, 1875. Publishers' Notices. THE ADVERTISER is on sale at the Drug and Book Store of A. W. NICKEL.

Authorized Agents. THIS BOOK is our authorized agent at Omaha City to receive and remit for monies due us.

THE REBEL ARCHIVES. Secretary McCrery Sits Down Upon the Legislature of North Carolina and Mississippi and Writes a Poetic Letter, Saying that He is Neither Authorized Nor Disposed to Furnish Them the Evidence by Which the Government Expects to Defeat Rebel War Claims.

Special Telegram to the Inter Ocean. WASHINGTON, Sept. 6.—Attention was called in these despatches, some time since, to a controversy that was going on between Governor Vance, of North Carolina, and the Secretary of War, in relation to the possession of the archives of that State, which were captured by General Sherman, at Raleigh, in 1864, and are now held, with other archives of the rebellion, at the War Department.

ITEMS OF INTEREST. The Scientific American gives the following novel plan for checking bleeding at the nose: "The best remedy for bleeding at the nose, as given by Dr. Gleason in one of his lectures, is in the vigorous motion of the jaws, as in the act of mastication.

WAR DEPARTMENT. To Hon. J. B. Vance, Governor of the State of North Carolina. Sir: I have examined the question of returning the books of the Executive Department of North Carolina, as presented by a resolution of the General Assembly of that State, and in reply have respectfully to inform you that I do not feel either authorized or disposed to deliver the originals of these records to the State of North Carolina.

Business Cards. S. HOLLADAY, A. Physician, Surgeon, Obstetrician, graduated in 1861. Office, 114 Main Street, Brownville, Neb.

L. L. HULBURD, ATTORNEY AT LAW and Justice of the Peace in Court House Building, Brownville, Neb.

J. A. OSBORN, ATTORNEY AT LAW. Office, over Theodore Hill & Co's store, Brownville, Neb.

Very naturally Governor Vance found but little satisfaction in this letter, and has, from all appearances, postponed any further attempts to obtain possession of these documents until a Democratic administration comes into power.

At the suggestion of Governor Vance the Legislature of Mississippi followed the lead of North Carolina, and passed a similar resolution. W. H. McAdie, of Vicksburg, the hero of the notorious "McAdie test case," made his appearance in Washington a few days ago, and presented his authority as agent of the State of Mississippi, under this resolution, to take possession of all rebel documents captured in that State.

Is Mr. Thurman honest? Is he the sort of a man to lead the friends of a greenback currency? What can be thought of one who, after spending years in denouncing the favorite money of the people as unconstitutional, now turns about and lauds it to the skies, swearing that there is no question of its legality or safety?

The Democrats of South Carolina wound up their platform by saying: "Upon this paramount issue we cordially invite the co-operation of every Democrat and Republican who is in earnest and willing in this crisis of our State to unite with us in this great work."

A cargo of cats was recently shipped over the Canada Southern Railway for the West. They are to be turned loose on the borders of rats which are destroying the granaries in many sections.

The census of Washington is just completed, and shows a population of 131,000, 43,000 of whom are colored. There were found twenty-two colored persons over one hundred years old, one being reported as old as 110.

Calamities have overtaken the inhabitants of the old world as well as the new. Last week a storm swept over Hungary, from the wreck of which over five hundred corpses were recovered, and this week is made memorable by the going down of the Princess Alice with her five hundred women and children.

Some of the New Orleans physicians contend that the scourge that is devastating the Southern cities is not yellow fever, but the African plague. They cite as supporting this theory, the fact that mortality is in this time excessive among children and negroes, whereas yellow fever has rarely if ever been known to prove fatal among either of these classes.

Mr. Hayt, of Carroll, Iowa, is shipping a refrigerator car-load of butter weekly from that town to Hamburg, Germany, and London, England. It is packed, after being worked and sealed, in firkins. He buys of the farmers, and divides into first and second class. He has regular engagements in Europe. This shows what our dairymen can do in an individual capacity, and should be an encouragement to all interested in the business.

What is Gibraltar? The rocky promontory which constitutes Gibraltar projects into the sea a distance of about three miles, with a width of one-half to three-quarters of a mile. On the eastern side of the Mediterranean, on the west the spacious bay of Gibraltar, and on the south the strait of the same name.

The Butler-Kearney Interview. Benny Butler and Denny Kearney have interviewed each other to the following effect: Kearney—Bin, are ye a murderin' thafe of the wurruld, or are ye a political thrayman?

Here is a warning for the young men who are in the habit of lighting matches on their thumb nails. A young man of Paris, on entering the carriage for a railway ride to Lyons, lit a match by scratching it with his thumb nail. A piece of the incandescent phosphorus penetrated under the nail and made a slight burn.

A good man will be doing good wherever he is. His trade is a compound of charity and justice. The best atonement for evil deeds is to set about the performance of worthy ones.

Sanford's Radical Cure For Catarrh. Instantly relieves and permanently cures the most obstinate cases of Catarrh of the bladder, urethra, prostate, and testes, and all the various forms of Catarrh of the bladder, urethra, prostate, and testes.

Collins' Voltaic Plaster. An Electro-Galvanic Battery combined with a powerful medicinal plaster, forming the best Plaster for pains and sores in the World of Medicine.

Stanley Explorers. A full history of his explorations in Africa and the interior of the continent, with a full and complete description of the country, its people, and its resources.

Dr. A. G. Olin's. A full and complete history of his explorations in Africa and the interior of the continent, with a full and complete description of the country, its people, and its resources.
