Carolina was enough! Did not want
to raise my family in such an atmo-
sphere, and with southern sentiments,
surroundings, etc., etc. I will send
my way back to Nebraska after
awhile!"

last week for the purpose of seeing a
famous cancer doctor. Mr. B. believes
he has a cancer growing between his
mouth and chin. We sincerely wish
our esteemed old friend will succeed
in having the horrible thing removed.

and another chair added. His old
shop by the bank is closed. Hawkins
now has the best and neatest looking
tonorial establishment we have ever
seen in this city, and deserves the
patronage of everybody, for his taste
and enterprise.

—While visiting the farm of Hon.
C. M. Hayden, Douglas precinct, Sat-
urday, he showed us a hedge sprout
of one years growth which measured
over twelve feet. Mr. H. says he
found one sprout which measured
fourteen feet and one inch. That
hedge plant grew over one inch per
day during the entire growing sea-
son.

—Mr. Wm. Tidrow, of Aspinwall,
called at our office Monday and gave
us the following Aspinwall news:
Mr. Wiesenreder is removing his
stock of goods to Barada, Richardson
county. Mr. Tidrow will open a
variety stock of goods immediately.
There has been found on the town
site of Aspinwall a three foot vein of
coal, was discovered one day last
week by a man by the name of Bick-
el. The vein is on the river bank,
about high water mark.

—On Thursday, last week by invita-
tion of W. H. Hoover we took a
buggy ride. Billy said: "Jump in
Wah," and we jumped in without
any previous knowledge of what he
was going to do with us. He whirled
us away down to Nemaha City. On
the way down Billy informed us that
he was going down to show some men
the country. Then we realized that
we were "in for it" for all day, and
reconciled ourselves to being kidnapped
at the city when Mr. Warren, su-
perintendent of the Chicago Elevator
Company, who was at Nemaha seeing
the magnificent elevator being built
there and ordering some additional
features to make it one of the most
complete structures of the kind. Mr.
Warren, whom we soon found to be
quite a genial gentleman, conducted
his visitors all through and over the
building, from bottom to top, explain-
ing elaborately the workings of the
complicated machinery; and if we
didn't understand all about it, it
wasn't Mr. Warren's fault. After an
excellent dinner at the Hoover
House, Mr. Hoover, Mr. Warren,
THE ADVERTISER man, and a corre-
spondent of the State Journal named
Allen, stepped into our "rig" and
away we went down south across the
iron bridge, on through that rich por-
tion of our county, to the Richardson
county line, and west several miles,
then north, seeing the beautiful farms
of McCallias, Shubert, Shockey, Capt.
Henderson, the Fishers, Thos. Hig-
gins, Rudolph Rieby, the Ar-
gents, Nesbit, and many others that
we cannot name. We did not get
west as far as we intended to go, the
approach of evening admonishing us
to turn our horses' heads homeward,
and thus our friends were deprived
the view of the splendid lauds and
farms of Bedford and Benton pre-
cincts. But they saw enough to de-
light them, and cause them to ex-
claim "what a beautiful and fertile
country." We saw many hundreds
of acres of fall sown wheat, and it
was remarked that we did not see
all our drive a poor piece of fall wheat
but on the contrary, every field looked
as if promising a good yield at har-
vest time. We also saw many pieces
of spring wheat just beginning to

show a little green, in good condition

now, but it is yet too early to certain-
ly predict what the harvest will be.

We arrived back to Nemaha about
dark, and our afternoon travels hav-
ing favored us with ravenous appet-
ites, we stopped again at the Hoover
House and partook of the good things
which make the table of that popular
house so favorably spoken of every-
where. We were delighted with our
ride, with our company, and in seeing
the promising condition of the rural
districts, for when they prosper we
all prosper.

—Rock Port Journal: It seems
now to be a settled fact that the K.
C. St. Joe & C. B. R. R. will this
season build a branch from their main
line to some point on the St. Louis &
Council Bluffs road, now in process
of construction. Where this branch
will be located has not yet been de-
termined upon, but it will doubtless
be built through Atchison county, in-
tersecting the St. L. & C. B. R. R. at
or near a point in the northeastern
portion of the county. What the citi-
zens of Rock Port have in view is the
building of this branch from Col. P.
A. Thompson's switch through Rock
Port to Clarinda, Iowa, crossing the
St. L. & C. B. R. R. near the north
western county line. It may be
thought advisable to build via College
Springs, in which event the town-
ship in which that town is situated
would, no doubt, contribute liberally
to the enterprise. The route from
Col. Thompson's to Clarinda is in our
opinion the most feasible of all routes
as it would benefit a greater number
of people and the increase in traffic
would be far greater than on any other
route yet named.

—On Wednesday evening of last week
Rock Port had a rousing meeting in
furtherance of the above railroad pro-
ject, and enthusiastically adopted the
following resolutions:

Resolved, That we, the people of
Rock Port and vicinity, hereby pledge
ourselves to give the right of way and
do the entire grading for a railroad
from a point on the K. C., St. Joe &
C. B. R. R. near Col. Thompson's, to a
point on Rock Creek in Watson's
field, south of Rock Port, and also to
assist as much as possible in aiding in
the construction of such railroad in
an easterly direction from Rock Port
to a point somewhere near the north
east corner of Atchison county.

Resolved, That a committee of
be appointed to solicit subscriptions
to aid in the construction of a railroad
from a point at or near Col. Thomp-
son's by way of Rock Port, to a point
near the northeast corner of Atchison
county, and to prepare the proper
methods and conditions as to how such
subscriptions shall be made and paid.

man's.**

The new map of Nemaha county
is now being delivered to subscribers
by Mr. Mickle, of the Bird & Mickle
Map Company who have for some
time been at work on the map. Mr.
Mickle called and presented a copy to
THE ADVERTISER, and upon casual
examination we find it correct. This
map is splendidly gotten up and
every office, business house, business
