An old settler was laid low in Nemaha City during the wind and rain storm Friday evening. It was a cottonwood tree, on the residence premises of Peter Kirker, planted by Dr. Whittinger 21 years ago.

It was something over two feet across the butt. The largest stock and handsomest variety of cook stoves and ranges to be found in Nemaha County, with all the latest improvements, consisting of the different patterns of the Early Breakfast, Charter Oak and several other varieties, are now offered at lower prices than any stove dealer dare sell, with a wagon load of trimmings, by Stevenson & Cross.

LECTURE.

Friday Eve. 6th PROF. G. E. CHURCH in the Opera House.

Subject of Lecture: Berlin and Her Schools. Proceeds of the lecture will be applied to the benefit of the

BROWNVILLE LIBRARY AND READING ROOM. Let every lady and gentleman, together with all the students,

Turn Out to Hear the Professor, and give him one of those brilliant, intelligent, appreciative audiences for which our city is noted. Admission 25c. Children 10c.

Dr. E. D. Arnold Makes a specialty of diseases of the Eye, Ear, Nose and Throat. Kid and list gloves at Lowman's.

In the native groves and forests in this section of the country the insect which entomologists call the Cicada, commonly known as the 17-year locust, abounds at present in great numbers, and their shrill song or sound is constantly heard throughout the day.

While they swarm in spots, among the trees and bushes generally, sucking the juices of the leaves and depositing their eggs in the tender young branches, their favorite is the Hickory. In comparison with the locust, or migratory grasshopper, they are dissimilar and perfectly harmless, doing no harm to crops or in any other way, excepting among the tenderest growths of the forest, from which the tree soon recovers after their departure.

We do not think they will ever harm young orchards, as some fear, but will confine themselves to the wild woods. The male cicada alone possesses the organs of sound perfectly developed. These are in no way connected with the mouth or throat, but may be described as a rounded expansion, on the under side of the abdomen, which is very complicated, consisting of a set of membranes and fibres connected with powerful muscles. The sounds may be produced after the insect is dead, by pulling the fibres and letting them escape.

Calico at Lowman's. "And while our Brownville friends have to some extent been accommodated, I believe the present arrangements is satisfactory to the bulk of the people living upon the other portions of the line." - J. Sterling Morton. Mr. Morton's "smoothing it over" causes only a sneer of contempt down this way, for, as an old citizen remarked, "O, Morton is paid by the company for his thin apology, and for this he would speak favorably for this or anything else the company might do."

Percails at Lowman's. We have noticed about as many drunken men on our streets within the last two or three weeks - since we have had only a beer saloon in town - as when we had whisky saloons. This fact is hard against the beer advocates. The beer made and drunk these progressive times is about as intoxicating as whisky, is just as poisonous and twice as nasty.

Chevoit at Lowman's. Masonic. Special communication of Nemaha Valley Lodge No. 4, A. F. & A. M., Saturday evening June 7th. Work in the Fellow Craft Degree. Visiting brethren invited. By order of the W. M. B. F. SODER, Secy.

Men's Clothing at Lowman's. We have heard from and talked with a great many people from every part of the country, and the sentiment is universally in favor of celebrating the Fourth this year at Brownville.

Clothing at Lowman's. Closing exercises of the commencement of the Normal School, Peru, will take place Thursday evening, June 19th. Arctic soda at Nickell's, renovates the whole system and keeps you cool.

Teas 20c and up at J. L. McGee's. Prof. Church at Opera House Friday evening. Arctic soda, healthiest drink in the world, at Nickell's.

Large line of parasols and fans at J. L. McGee's. Root beer at Nickell's.

LONDON ITEMS.

"In the fourth watch of the night, Jesus went unto them, walking on the sea. And when the disciples saw him walking on the sea, they were troubled, saying, It is a spirit."

The storm king put a veto on the picnic. Don't forget the Red Ribbon Club next Friday night. Much sympathy, Bro. Shurtliff, for your bereavement. Be patient, "keep the commandments," so that you "may have a right to the tree of life, and pass through the gates into the city" and meet all your loved ones again.

Last Friday afternoon the heavens were opened, and the rain fell in torrents. Now the grain is revived, and now the farmer must bestir him, or the weeds will get the start of him in the fast growing corn. The proposed picnic will be June 14th.

The very fact of the existence of an individual, let it be negro, Indian, or "heathen Chinese," proves that individuals have rights which all other men ought to respect, and if they do not, retribution fearful will be the consequence. Will the "civilized white men" ever reach the position in morals, with all their boasted intelligence and religion, as to "do unto others as they would have others do unto them"?

The London farmers are carrying a great many bushels of wheat into Brownville, doing their part in raising material for "bread for the eater." The recent heavy rains prevented the mails from getting through this route last Saturday, did not get through till Sunday, although the present mail carrier, Mr. Emery, is a faithful, energetic man in his business.

A Great Literary Work. A work that every lover of good literature wants at constant command, because while it is superlatively attractive and interesting in itself, it is also a key and index to all other good English literature, enabling one to see and judge for himself what authors and books are most desirable for him to read - such is the new Aeneas edition of Chamber's Cyclopaedia of English Literature. In its nearly 3,500 pages it gives biographies of all noted British and American authors from earliest times to the present, with choice and characteristic selections from their writings, thus being a concentration of the best production of modern intellect. It is published in eight hands and beautiful 16mo volumes, at prices so low as to seem really astonishing to most book buyers, viz.: in paper, complete, \$2.00; cloth, \$3.00; half morocco, \$4.75; half morocco, the four volume edition \$3.75. From these low rates a discount of 10 per cent. is allowed to those ordering before June 1, and a further discount of 10 per cent. when ordered in clubs of five or more. It is not sold by dealers or agents, but only to buyers direct, by the publishers, the American Book Exchange, 55 Beakman street, New York, who will send specimen pages, &c., free, on request.

Rush so great that J. L. McGee has had no time to write Locals. Call and see him he has the boss stock. Parasols and fans at Dolan's. Pocket knives at Nickell's, every one warranted.

Ylang-Ylang. The Ylang-Ylang flower is produced by a large tree, and its odor is the most delicious perfume. Price prepares his Ylang-Ylang Extract from the otto of these flowers, and it is a charming perfume, having a fragrance unlike any other handkerchief perfumes.

Barbed wire constantly on hand at F. P. Tenney's, Sheridan, Neb. 50c. Billiousness or constipation is a sign of a diseased Liver. Cure them both with Bromoline. Sold by A. W. Nickell.

Lemon. It is from the rind of the Messina lemon that Dr. Price prepares his special Flavoring Extract of Lemon. While other Lemon Extracts in a little time have the taste and odor of turpentine, Dr. Price's for any length of time retains its intense lemony taste.

The most remarkable results ever effected by a fever and ague remedy, are produced by Febrin. Try it. Sold by A. W. Nickell. Rewarded. Steel Prices, the manufacturers of Dr. Price's Cream Baking Powder, are rewarded by the reputation of manufacturing good articles. It is a shameful confession to make that many people are willing to use adulterated articles because of a small reduction in price.

For a good Buffalo custom hand-made boot, go to Pat. Cline's. Hams at J. L. McGee's. A CARD. To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, Bible House, New York City. 1893.

CONSUMPTION CURED. An old physician, retired from practice, having found that many of his patients, suffering from the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in his own family, and in many cases, has felt it his duty to make it known to his suffering fellow-men. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail in self-addressed envelope, enclosing this paper. W. Wood, 120 Power Street, Rochester, New York.

Received, a large line of Ladies' French kid, button and side lace, shoes at Robison's. Bain, Studabaker and Nebraska wagons. STEVENSON & CROSS.
