Rural New Yorker: To kill the larvae of the peach borer, that may be at work on the peach, and to prevent egg-laying, apply to the trunks during July and August the following compound: To ten gallons of soft soap add as much hot water; then stir in half a pint of crude carbolic acid and let it stand over night; next add three times its bulk of water, and it is ready for use.

We would like for republican editors to read the old "Federalist." They would therein find out how ridiculous they make themselves by denying any constitutional rights to the states.—Lincoln Democrat.

Republican editors do not deny "any constitutional rights to the states." They claim, however, that citizens owe first allegiance to the Nation, and that National officers have

Border Desperadoes.

Omaha Republican. Mr. John B. Faray, special agent of the postoffice department returned from the Black Hills by the Sidney route last week, and brings information that seems to indicate the whereabouts of Gillen and Armstrong who escaped week before last from Plum Creek jail. He says that himself and party were met ten miles south of Red Cloud agency by a party of three masked men. They had road agents look rifles, a quantity of ammunition, a side of bacon and their horses.

From the general appearance of the men, the party robbed believe the masked desperadoes, to be Barney J. Gillen, and Barney Armstrong, two of the Olive gang, and Jack Nolan Sidney murderer, who escaped from the same jail last April. One of the party is strong in the affirmation that he distinctly recognized Gillen by his beard and voice, notwithstanding his disguise.

Persons from Plum Creek aver that Gillen and Armstrong proceeded immediately to Olive's ranch, where they were supplied with horses, money, arms and ammunition. They also set jailer Almy's horse back, with a five dollar bill to pay for the use. They sent word to the officers that they would never be taken alive, and asked them to call and see them.

Another opinion is that the trio who committed the depredation named above were on their way to Fort McKinney to join the defiant band of 200 outlaws who infest that portion of the mountain.

The condition of the frontier, overman as it is by desperadoes, had enough. The powers that be are helpless. The military cannot be used since the passage of the posse comitatus act, and the latest action of congress so cripples the United States marshals that they can do nothing. Vigilance committees and mob law will inevitably be resorted to under the circumstances.

How They Grow.

Nebraska will have half a million people, and Kansas a million people when the United States census is taken next June. The crops in both States have been excellent this year.

The wheat harvest is now going on, and is a very heavy one. Corn never has been looked as well as it does now. There will be no failure of any crop.

Both States are gaining many new miles of railroad, thus opening new counties and regions of country not before penetrated by rail, and the growth of the past, wonderful as it has been, will be greatly surpassed by the accession made during the coming five years.

Kansas is populous now as Illinois was in 1850, when she had 846,034 inhabitants. Illinois had then been in the Union thirty-two years. Kansas has been a State only eighteen years.

Nebraska has a larger population now than Indiana had in 1830, the inhabitants of Indiana then numbering 343,031. She had been a Territory since 1809, and came into the Union in 1816. Nebraska did not become a State until March 1, 1867—twelve years ago.

It is only by making comparisons with the greatest and best States in the Union that we can gain some idea of the unprecedented growth of our sister States across the river.—St. Joe Herald.

London, July 8.—Kate Webster has been found guilty of the murder of her mistress, Mrs. Thomas, at Richmond, and sentenced to death. It was ascertained Mrs. Thomas' body was boiled and thrown into the Thames and the head destroyed by burning.

Washington, July 9.—A special agent of the postoffice department arrested in New Mexico a mail robber belonging to a gang of Texas highwaymen. The judge granted an order of removal to Texas for trial, but the United States marshal had no money to pay the necessary expense. He telegraphed the marshal of Texas but the latter was in the same condition. A postoffice agent thereupon started for Texas with the prisoner, the stage company carrying him on trust and the agent providing provisions for the 800 miles journey and guarding the desperado night and day himself.

Washington, July 9.—The Department of Justice is receiving many letters from the United States marshals asking for advice in the premises, seeing that Congress has made no appropriation for the department and that they are to do the best they can, believing that Congress will pass a deficiency bill in December.

NEBRASKA ADVERTISER

A GENEROUS OFFER.

We address the following to the intelligent people of Nemaha county, and especially to the Republicans, and ask their careful and generous consideration of what we say and propose.

Believing that this is an auspicious time to solicit subscribers, and that the circulation of

THE ADVERTISER

ought to be and can be greatly increased, at this time, if due effort is made, we now offer, to new subscribers,

THE ADVERTISER to November 15th, 1880, for \$2.00 in Advance.

This offer we extend to present subscribers whose time expires while this proposition holds good.

THE ADVERTISER has just entered upon its TWENTY-FOURTH year. It will continue, as in the past, to use its best efforts to be the best county paper, irrespective of locality, magnanimously wishing for and working for the success of all; never tolerating the injudicious and selfish idea that it is necessary to crush one locality to build up another.

Whilst all matter must be subordinate, or secondary to this local feature, THE ADVERTISER will continue to be deservedly popular in the families of the people, on account of its choice literary matter, and its fearless and positive style of advocating what it believed to be best, socially, morally and politically.

Why is this a good time to subscribe, and why extend the inducement to subscribe to November 1880? The Presidential campaign of 1880 will soon be open—in truth we may say, the "Confederate Brigadiers" of Congress having forced it, it is upon us now; whisperings are already heard in the rural fields of local politics; politicians and office-seekers have already begun to play their cards; hence every intelligent, wide-awake person who feels an interest in the movements being made, and to be made, on the political chess-boards, national, State, and local, should take THE ADVERTISER, which, it is conceded by all, to be stalwart, independent, consistent. Having NO AXES TO GRIND, nor cliques or rings to nourish and foster, it is

Fearless and Free in Opinion,

strikes to hurt, seldom wears gloves in doing its work, and never uses words to conceal its ideas.

By computing the time, the importance of our offer to new subscribers will be readily seen, and that if taken advantage of at once, they may receive our paper SIXTEEN MONTHS FOR TWO DOLLARS—the yearly subscription price—a rate less than \$1.50 a year.
