

THE ADVERTISER

THURSDAY, DEC. 25, 1879.

Sharon will visit the Senate this winter.

One hundred more colored folks located in Indiana last week.

Congress adjourned on the 19th inst., to reassemble January 6th.

Senator Eaton has introduced a bill for the formation of a "Tariff Commission."

Michael Jenkins, was killed by falling coal in a coal mine at Pottsville Pa., on the 19th.

The Presbyterian Synod of Long Island have again sustained Rev. Talmage, by a two-thirds vote.

A coach in Boulder Canon, on the 16th, was blown over an embankment of 70 feet, and the driver J. A. D. Dwyer was killed.

The Director of the Mint estimates the total production of the Leadville district at \$30,000,000 since the discovery of carbonates two years ago.

It is thought that Lieut. General Sheridan will accompany General Grant on his trip to Cuba and Mexico. That's about as good a pair as there is in the deck.

The State Treasurer, of Nebraska, had in his vaults on last inst., \$349,772.30. Of this \$144,000 is school money, and the balance belongs to Boss Stout.

The U. S. Senate, 17th inst., confirmed R. B. Harrington Receiver of the Beatrice land office; and A. D. Buckworth Register of the land office at North Platte.

Hon. R. E. Little, a prominent lawyer and politician of Louisville, Ky., was shot and killed on the 19th inst., in an affray with his brother-in-law, J. H. Arnold.

The Kansas City Journal says a leading railroad man recently expressed the opinion that the K. C., St. Joe & C. B. road will be long before the C. B. & Q.

The legislature of Virginia has elected Gen. Mahan to the U. S. Senate to succeed present incumbent Withers. Of course they did for that makes another brigadier.

Prominent wealthy Republicans of New Orleans, have organized a joint stock company for starting in that city a stalwart Republican paper to be called the Ledger. Ex-Gov. Hahn is to be the editor-in-chief.

Senator Don Cameron, has been chosen Chairman of the Republican National committee. And Chicago is the place for holding the next National Convention; and the 3d day of June the time.

Gov. Pitkin, of Colorado, tells the New York Graphic that "The present market value of the mines at Leadville alone exceed the assessed valuation of the entire State in any former year." Leadville is but three years old.

Plattsburgh Enterprise: The fish commission are taking every advantage given them to further that important industry in the state. A generous legislature would be a blessing to the state at large if it would further this interest.

J. O. Shipman, of Henderson precinct, realized about \$600 on the sale of wheat from 50 acres of ground besides saving enough for plenty of bread and seed.—York Republican.

That is a fair sample of farming in the interior of Nebraska—on the once great American desert.

Seward Reporter: A Crete firm proposes to put up this sign on the first of the year: "No trust! No trust is best! To trust is hell. No trust, no bust, no hell!" It must be a place where corn-juice lightening is sold, because there is so many "busts" and "hells" in it.

Notwithstanding the large majority of Republicans elected to the legislature in Maine, the Democratic Governor and board of Censors, it is ascertained, will throw out a sufficient number of Republicans as to thwart the will of the majority of the people and place the minority in power.

Gov. Vance has commissioned Hon. R. W. Furness, Hon. D. H. Wheeler, and Hon. J. Sterling Morton, as delegates to represent Nebraska at the meeting called for the purpose of organizing a national agricultural society. Delegates from all the states will meet in New York City, January 10th.

The Democrats having disfranchised a majority of the citizen voters of the Southern States, they have commenced on the North by disfranchising Maine. This thing must stop and stop at once or the exercise of the elective franchise will soon be a supremely farcical performance all over the United States. The Republicans of Maine should not submit to the outrage and humiliation, and if there is no law to preserve justice and the franchise, force should be used. The Democracy should be now made to understand that while they have trodden under foot the rights of the defenseless and nonresisting blacks of the South, their damnable methods will not—not even once—be submitted to by the stalwart Saxons of the Northeast. It falls to the lot of Maine, the Home of Blaine, favorite of the Republic, to make a precedent, salutary in its effects, and patriotic in its results.

Editor Nebraska Advertiser.

Some weeks ago I respectfully asked several questions concerning political matters and wished to have them answered in order that there might be a general interchange of views now, when there is no political canvass pending to heat men's blood and warp their judgment. Some person over the signature of Fairview has written two letters claiming to be answers to my first question, but I cannot see that either of them do so. Fairview however makes some admissions that I would like to notice. He claims that this country should be ruled as a captain rules a ship on the ocean, or as a general rules an army. These persons' rule is absolute, without any written law. Their orders, no matter how unjust, must be obeyed, under the penalty of death or disobedience. Fairview also fears an "uprising of the laboring classes," "tis so with despots everywhere, they fear the people. He seems to think the government is of more value than the people, that the people were made for the government, instead of the government being made for the people. Fairview does not argue the doctrine of State rights, but condemns it in general terms.

The fact that we have State governments, makes it self-evident that there must be State rights and State duties. Take this instance: A "stalwart" friend of mine told me some weeks ago of a certain man living near Howard in this country, who has a United States license to retail intoxicating liquors, this man claimed that the U. S. license was all the authority he needed to keep a whiskey and beer saloon; now if the doctrine of State rights is a treasonable doctrine; if the State has no rights, then the State of Nebraska has no right to interfere with that man, or punish him for keeping a saloon, nor to punish any man for keeping a saloon. I think sir, that the Republican leaders stopped over, last fall, in their universal denunciations of State rights.

You and I, recollect what took place from 1850 to 1860 when the pro slavery party was in power in National affairs. We can never forget the numerous aggressions of both Congress and the Presidents on the rights of the States and the liberties of the people. We can never forget the infamous slave law which was made by Congress as obnoxious as possible, hoping that the people of the Free Soil States would resist its enforcement, in order that those States could be declared in rebellion. We can never forget how United States troops were paraded in Boston, artillery placed in battery to sweep the streets, and other things done to provoke a collision with the people. There was no riot, and the Governor of Massachusetts protested against all this parade of troops as unnecessary and offensive, but all was of no avail; there were many similar scenes enacted in various parts of the country. Old as I am, my blood boils when I think of the usurpations of the Federal power during those years.

I also recollect how the Republican States passed laws to counteract the aggressions of the central government, and had it not been for their vigorous action, slavery and slave laws would have spread all over this land. The slave hunters would now be a common sight on the Prairies of Nebraska. We would have lost our liberty and our civilization also, and have been taken back to the barbarism of slavery. Fortunately there was enough States, whose people had courage to lawfully resist the usurpations of the Central government, until the people of other States became aroused for their liberties, and then the proslavery party went out of power.

But alas! only a few years have passed, and now those who are leaders of the so-called Republican party are denouncing State rights and clamoring for a strong Central government that will be under the control of one man, who will rule this Nation as a general rules an army. I take it for granted that Fairview expresses the views of most of your party, for during the canvass last fall there was a general charge by your Editors and Orators, from the Atlantic to the Pacific, that State rights was a treasonable doctrine that led to secession.

Mr. Polok is happy only in the newspapers. Our next thought was to let him air his ideas through our columns and take our usual course of silence regarding him, not apprehending much danger from his promulgations; but Mr. Polok's peculiar style of plainly putting the most absurd propositions, seems to call for a review of the foregoing article.

So far as "Fairview," or his ideas, are concerned, he can take care of himself. In his comparison of the Government to a ship, a fair construction of his application is, that the laws of Louisiana, and the laws of every other State, should be crushed at the Union altar; that insurrection, just as usual, should be crushed at all hazards and the transgressors punished. Every reasoning person, full of course, agree with Fairview, for without discipline on the ship or in the army, or law and its enforcement in civil rule, there must of necessity be chaos, anarchy, confusion, and social and moral death.

Mr. Polok thinks "the Republican leaders stopped over last fall in their universal denunciation of State rights." Mr. Polok has the unrestricted privilege of thinking just as he pleases.

DEMOCRATIC ELECTIONEERING IN LOUISIANA.

Grand Success!

NEW ORLEANS, December 12.—The Carol Parish conservative Democratic organ, says David Armstrong, a colored man living with his family on the Morancy place near Milken's Bend, Madison Parish, was taken out of his house Sunday night last, preceding the election, by twenty-five or thirty armed men. Over twenty shots were fired and heard by persons on the place. Pools of blood and sheets covered with blood were found near the bank of the river the next morning, but no trace whatever of Armstrong, who is reported to us as an industrious, paying tenant on the Morancy place, making good crops every year. Since writing the above a report has been brought to town that the body of Armstrong, was fished out of the river three days ago and interred.

Still Gnawing a File.

The Hastings Advertiser says that the Republicans "now tries to play on what it assumes to be the weakness of Prof. Aughey, and win him over to participate in the Republican's crusade by representing that he is set on the man for chancellor." The Republican is not aware that Professor Aughey is the victim of any weakness; he is physically, mentally and morally a man for the position he holds, or for any position in the university, a strong man, and this is why the Republican endorsed the suggestion by several other state papers of his name.

As to any effort being needed to win Professor Aughey over, "those who know Samuel Aughey know that any such effort is superfluous and unnecessary. He is "there." Omaha Republican.

We cordially endorse the above, ever since we are not personally acquainted with Prof. Aughey, but we like his reputation for minding his own business.

The Leadville Herald says: "At no time in the history of Leadville has there been so much ore on hand awaiting treatment as at the present. All of the smelters have their ovens filled, while at many of the mines it has accumulated till it has become in the way and troublesome. If matters so continue long, more smelting facilities must be afforded. The difficulty at present is the small supply of coke on hand and the difficulty and expense of procuring it. The shipment of coke has been stopped since the 1st of last week, and still not as much was shipped as has been produced."

Queen of the Oven.

A biscuit made with Dr. Price's Cream Baking Powder is certainly the queen of the oven. So light, so tender, so delicious. After breakfasting on biscuits made with Dr. Price's Cream Baking Powder, what man would contemplate suicide, or grumble because his wife asked him for money?

The news comes from Indiana that if Grant is not a candidate the republican delegation will be split. Blaine is the man, and we think that Nebraska will instruct for Blaine without an if.

If you have a friend who is troubled with a cough or cold, tell him to try Dr. Marshall's Lung Syrup. He will thank you for your advice. Price 25 cents, 50 cents and \$1 a bottle. Sold by A. W. Nickel.

Doctors may Disagree.

As to the best methods and remedies for the cure of constipation and disordered liver and kidneys. Just those that have used Kidney Wort agree that this is by far the best medicine known. Its action is prompt, thorough and lasting. Don't take pills, and other medicines that poison the system, but by using Kidney Wort restore the natural action of all the organs.

To Make Gill-Edged Butter.

Every dairy of business has to get the price for his butter. It can be done only by having it perfect in quality and appearance. When the color comes light it is necessary to add a little of Wells, Richardson & Co's Perfected Butter Color to keep it up to the June standard. Many well known butter makers recommend our patent color, and we have much to say for it. It gives the most perfect color. Use Kidney-Wort and rejoice in health. One package makes six quarts of medline.

Gen. Grant received a magnificent reception in Philadelphia last week.

—Time is money, but health is happiness. If you have a bad cold or cough, use Dr. Marshall's Lung Syrup, it will cure you. Price 25 cents, 50 cents and \$1 a bottle. Sold by A. W. Nickel.

We do Not Wonder.

We do not wonder that housewives who have been accustomed to use Dr. Price's Special Flavoring Extracts should turn in disgust from the trash often sold under the name of Flavoring Extracts, which stuff smells and tastes like turpentine. Dr. Price's Flavoring Extracts have the taste and odor of the fresh fruits.

At The GROCERY PROVISION STORE OF T. L. JONES

is the place to get Groceries, Provisions, Confections, Fine Cigars, Toilet Soap, Canned Goods, Fresh Butter, Etc., Etc., Etc.

NEMAHA CITY.

—A Merry Christmas!

—For sale, Block No. 20 in Nemaha City. Enquire of Philip Crother. —Fancy locating a Marine Hospital next door to a distillery. Nebraska City ought to be erased and Nemaha City inserted in that bill.

The Steam Elevator building is to be raised several feet and a stone foundation inserted. It now rests on a pile foundation.

—We venture the prediction that a workable coal mine will be discovered in this county within the coming year. —Now that the Missouri is bridged, people come from all points of the compass to get their stores. Farmers, living only nine miles from Falls City, doing their trading here. —Within the past month hogs have fetched \$4.00, corn 25c and wheat \$1.05 per bushel in our market.

—In 1878 Nemaha county received \$7,144.51, and in 1879, \$6,443.82 as her portion of the State School Fund. Divided among 3,141 children in 75 districts in 1878, and 3,830 children and 74 districts in 1879.

—Crotler and Frost are prepared to bore wells with a twelve inch auger and line them with pottery tubing, as cheap as the cheapest.

—They sell more goods here than they do in Humboldt. "More teams on the street than you'll see in Falls City." "Nemaha is livelier than Brownville," are common expressions on our streets.

—More work for the wagon-maker! Three runaway teams in three days. J. B. Fisher was so unfortunate as to have his wagon badly wrecked. Nemaha City has a wagon shop that can take in and reconstruct all your small-wheeled wagons.

—The best work on the wheel in Nemaha City is done by the ablest workmen in Nebraska, occasionally shows the light of his countenance in Nemaha City.

—The hardest thing in the world for a young woman to do, is to look unconcerned the first time she comes out in an engagement ring. —The Good Templars intend having an oyster supper ere long. The new chairs, so generously donated by Dr. Andrews, are so comfortable that it is desired to complete the seating capacity of the hall with more chairs of the same kind. As the hall is generally used for a public hall, it is hoped and expected that the general public will assist in the matter.

—Through the kindness of W. A. Swaringer, the efficient station agent, and by the way, one of the ablest telegraph operators, we are enabled to give the number of car loads of various commodities shipped to and from Nemaha City from Dec. 17th, 1878, to the day the agent took charge, up to Dec. 17th, 1879. There has been shipped, away of wheat 158, hogs 132, cattle 23, corn 312 barrel, brick 3, rye 1, wood 1. Total, 646 car loads. Shipped to Nemaha City, lumber 61, etc. 5, lime, salt, coal, etc. Total, 74 car loads. In all, 720 car loads in the year. Ninety-two over an average of two every working day.

—When the railroad that is coming from the south reaches Nemaha City, and the gap to Beatrice is closed, as no doubt it will be in the coming year, and a connection is made with the road approaching from Villisca, Iowa, either across a bridge over, or through a tunnel under the "Big Muddy," then the fact of having no city taxes to pay, nor city debt to lift, will enable our healthy, growing little city to rapidly gain in power and influence, on her rivals. It takes time to make known the advantages of our thriving town. The other day the telegraph operator at Mecon, Mo., did not know whether a dispatch would reach us, because we were, not on his list as a telegraph station.

TITUS BROS

DEALERS IN DRY GOODS, GROCERIES, READYMADE CLOTHING, NOTIONS, Etc., Etc., Etc.

Nemaha City, Nebraska,

Will sell goods as cheap as any house in Southeastern Nebraska.
