

THE ADVERTISER

THURSDAY, MARCH 25, 1880.

Iowa is sold for Blaine—nearly.

The Chicago Times holds a David Davis flag.

Nebraska contains 75,956 square miles, and 46,639,800 acres.

Missouri Democrats will probably instruct for Seymour for President.

New York, March 22.—Oil rates have been advanced to sixty cents for April.

A bill removing the political disabilities of Roger A. Pryor has passed the Senate.

The strikers of the union cigar makers of Chicago have yielded and gone to work.

The Morton faction of the Nebraska Democrats scooped the Calhoun branch in Otoe county.

The Connecticut senate has rejected the bill giving women the right to vote on the license question.

Chairman Dawes has called for a meeting of the State Republican Central Committee, at Lincoln, April 18th.

It now appears that Tillen, seeing his chances hopeless, will content himself by naming a man—Samuel J. Randall.

Omaha Republican: The Germans who fought mit Sigel will be delighted to hear that the noble old soldier is for Grant.

Great distress still continues in the famine districts of Ireland, many having nothing to eat but a little corn meal from contributions.

Omaha Republican: Vifquain, the Don Quixote of Nebraska journalism, is after Dr. Miller with a mud-machine propelled by a windmill.

Omaha News: Mr. Nance's senatorial boom may not be necessary to him this year, but it will be a very handy thing to lay away for the future.

An A. & N. engine killed a child at Falls City. A verdict was recently rendered in Judge Weaver's court assessing the company \$2,000 for the accident.

The Lincoln Globe says the delegation from that city to the Democratic State convention, selected a day or two ago, is Vifquain all over, which means anti-Miller-Tilden.

State Journal: U. S. Marshal Daily retires from office on the 3d of April. He has made an efficient and obliging officer, and leaves the department with the best wishes of a legion of warm friends.

Another agitator named Gannon, companion of Kearney's at San Francisco, has been sentenced to six months in the workhouse and to pay \$1,000 fine. They have officials in San Francisco who seem to have plenty of backbone.

CHICAGO, March 22.—The delegation from Kane county to Springfield stands eight for Blaine and five for Grant. The Grant men are Evans, Powell, Wolcott, Mayhorne and Baylin. They claim also Carlele, but his town selected him as a Blaine man.

The Lincoln Democrat, with pretended great respect for the abilities of ex-Senator Hitchcock, says that when he was defeated by "such a man as Alvin Saunders" the Republican party became paralyzed. That may be so, but still it hustles around with sufficient vigor to get away with the Democracy by twenty thousand majority.

Lincoln Globe: O'Pelt is experiencing some difficulty in getting the new Arlington ready for opening. His furniture is not arriving as rapidly as he wishes, the trouble being that the house from which he bought is also fitting up a new hotel in St. Joe in about the same style as the Arlington, and finds difficulty in keeping up with its orders.

Omaha News: Blaine has secured the solid Indiana delegation, thirty strong. Each member of it states Indiana also gets eight votes from Rhode Island. Neither of these States gave him a vote in 1876. The Blaine roll up to date musters 57, exclusive of the help he is sure to obtain from Pennsylvania and New York.

The list of entries for the stake races to be run at the June meeting of the St. Louis Jockey Club is published. One hundred and seventy horses, representing fifty-six stables, are entered for the citizens' stake. An extra race for all ages for probably two thousand dollars, the entries for which will close May 1st, will no doubt attract enough more horses to make the aggregate two hundred.

Inter Ocean: Governor Palmer, in his speech, says: "I am now prepared to unite with the great Democratic party." Was it Garcelon and Maine that brought you over, Governor? Was it Washburn and Donnelly, Governor? Was it the called session of Congress, or the majority at this session, whose vote has been so conspicuous, or declarations made by traveling agents, or purposes of fraud, "Don't try them."

Pawnee Enterprise: The Brownville Advertiser, remarking on our error, made a few weeks ago, as to the time when Judge Dundy was candidate for Senator, says: "Our esteemed cotemporary is not as well posted as it might be. Judge Dundy was candidate for U. S. Senator at the first election of Senator—in 1856, when the change was made from a Territorial to a State form of government, warmly contesting with Mr. Tipton for the votes of the South Platte Representatives. Judge Dundy came near being chosen at that time, but the delegates from the South Platte being permitted to choose their man, took Mr. Tipton instead of the Judge, thus making a cruel mistake which they have never got over being sorry for."

We acknowledge the mistake, not so much of ourselves as of one whom we considered authority. It necessarily takes some time for one to become acquainted with the whole history of intricate politics in such a State as Nebraska; hence our blunders. But after all it does not alter the merits of the question discussed at that time, nor its merits now. The Advertiser believes that Dundy's rejection in 1856 was a "cruel mistake." If in 1876 he is a candidate it will be another "cruel mistake," worse than the first, to defeat him. We sincerely hope the Judge will enter the race.

WASHINGTON, March 21.—Senators McDonald and Vorhees, Indiana Democratic representatives, and one Indiana Democrat resident in Washington, held a meeting last evening and organized a club to help on the Hendricks boom. Representative Cobb was chosen as President, and headquarters will soon be opened and a literary bureau put in operation. His friends profess to entertain considerable hope that he may get the nomination at Cincinnati, basing it largely upon the fact that he is the second choice of so many Democrats, especially in the South. Vorhees encouraged the brethren by a statement that Horatio Seymour has recently said that "Tilden is the man who ought to be nominated, and there is no question but he could carry New York State."

The following is a solid argument: Reports are continually put into circulation by the friends of license, which are believed by whiskey men, and some so-called temperance men, to the effect that prohibition in Maine has been a failure. The facts are, in 1820 there were 2,000 open bars, 400 taverns where liquors were sold, and nearly every grocery sold it, and the sales approximated \$12,000,000, but now no open bar, no tavern or grocery keeps it for sale, and the entire estimated sales do not reach half a million. What is exceedingly important is this: In that State, where a prohibitory law has been long and successfully tried, the people are so well satisfied with it, and public sentiment is so strongly in its favor that both the great political parties are compelled to approve and support the law.

Inter Ocean: Washington dispatches indicate that the Senate Committee on Indian Affairs is not disposed to ratify the anonymous agreement made by Secretary Schurz with the Utes, members of the committee do not seem to find it easy to forget the massacre and the nameless atrocities perpetrated upon the female captives, as the Secretary seems to have done. They insist that there shall be some sort of reparation for this, and will move such modification of the agreement as will deduce from the Indians' annuities a large sum to be paid to Miss Meeker and the other women.

Several prominent Democratic papers South and East favor Chief Justice Field for the Presidency. He is liked by the Democrats for his political judicial opinions which strongly discriminate in favor of the South as opposed to the North, and against all reconstruction laws made for the enforcement of the 14th and 15th amendments to the constitution. Field would paralyze those amendments entirely if he had the power to do it.

Neb. City News: From a private letter received to-day by a gentleman in this city, we are informed that Hon. E. S. Dundy, of Falls City, will be a hard man to defeat in the Senatorial race to come off next winter. Knowing the Judge as well as we do, we agree that when he puts on his senatorial war paint he means business.

John Kelly, the Tammany leader, recently said to a Tribune reporter: "Under no circumstances will Tammany consent to support Tilden as the nominee for the presidency, and it has the sympathy and support of many Democrats throughout the State. Tammany will send a delegation to Cincinnati opposed to Tilden."

WASHINGTON, March 18.—A dangerous \$20 U. S. Treasury note has made its appearance in the West. It is of the series of 1875, letter C, and printed on imitation fibre paper. The shading under the words "United States" is darker than in the genuine note, but the general appearance of the bill is good.

It appears that Governor Garcelon, of Maine, is a defaulter in several thousand dollars. And that is one reason why he was so anxious to be succeeded by Democratic officials—to cover up his dishonesty. That is a fair sample of a Democratic government.

Nebraska Farmer: Look out for new-fangled wheat—\$2.00 per pound—"hull-less oats," and "tree round" worth \$10.00 each. All these advertisements, or declarations made by traveling agents, are purposes of fraud. "Don't try them."

The York Tribune is trying the experiment of leasing a tri-weekly: an experiment that will not prove a bonanza to the laudably ambitious publisher, unless the people of York are an odd kind. The first number of the tri-weekly Tribune is splendid.

Easter Day.

Next Sunday, 25th, will be Easter Sunday. The following, prepared for our columns, will give many, who have celebrated Easter from their childhood days, a clearer conception of the meaning of the occasion than they have ever had before:

Easter, the festival of the resurrection of Jesus Christ, derives probably its Teutonic name from the festival of the Goddess Ostara or Eastre—which seems to have been the personification of the morning, or the opening of the year—which the Saxons of old went to celebrate occurring about the same season of the Christian festival.

In the ancient church, the celebration of Easter lasted eight days. After the 11th century it was limited to three, and in later times generally to two. It was formerly the favorite time of performing the rites of baptism.

The courts of justice were closed, and dispersed to the poor and needy, and, at that season slaves received their freedom. As the austerities of Lent were over, the people gave themselves up to enjoyment, hence the day was called Dominica gaudii, Sunday of joy.

On Easter day the people saluted each other with a kiss exclaiming surrexit, (He is risen); to which the reply was Vere surrexit, (He is risen indeed).

The chief solemnity always consisted of the celebration of the Lord's supper. The proper time for the celebration of Easter has occasioned no little controversy. In the 2d century a dispute arose on this point between the Eastern and Western Churches. The great mass of Eastern Christians celebrated Easter on the 14th day of the first Jewish month or moon, considering it to be equivalent to the Jewish Passover. The Western Churches celebrated it on the Sunday after the fourteenth day, holding that it was the commemoration of the resurrection of Jesus. The Council of Nice decided in favor of the Western usage.

The most characteristic Easter rite, and the one most widely diffused is the use of eggs. They are usually stained various colors and people mutually make presents of them. In some parts of Scotland, it used to be the custom for young people to go out early "Fareth Sunday" and search for "ail-fowled" eggs for breakfast, and it was thought lucky to find them. The practice is not confined to Christians; the Jews used eggs in the feast of the Passover, and we are told that the Persians when they keep the festival of the solar new year (in March) mutually present each other with colored eggs. From the Christian point of view, this "Feast of Eggs" has been usually considered as emblematic of the resurrection and of a future life.

Reports from Snake River, W. T., say many cattle are dying there on account of the extreme severity of the weather. Fifty-seven iron mills recently stopped operations in Pennsylvania, rather than submit to a demand of employers for higher wages.

Joe J. Field, in jail at Winchester, Ill., charged with murdering Jas. Hodge, was shot to death on the night of the 16th inst., by a party of masked men, who had compelled the jailer to deliver the keys of the jail to them to enable them to enter.

Mrs. Julia Bremer, Madison, Ind., hanged herself, 17th inst. At Aurora, Ill., on the morning of the 17th inst., Mrs. W. Baldwin was found in bed, dead, with her throat cut; and by her side her unconscious husband, with stabs in the neck, arms and abdomen, though he will probably recover. They had been married but three weeks.

J. B. De Boon was hanged at Pontiac, Ill., 17th inst., for murdering Miss Ella Martin. He attempted to outrun the girl when she was going home from church, and because she resisted desperately, he kicked and beat her, from the effects of which she died.

A brakeman named Kelly was killed at Bushnell, Ill., 18th inst., by falling between the cars. Edward Sprang, turnkey of the city prison, Springfield, Ill., was dangerously shot by some would-be assassin, last week.

A young man near Council Bluffs, named P. H. Smithson, because the girl he loved went back on him, put a shot gun under his chin and blew his head off.

Harry Blair was caught at Van Wert, Ohio, the other day, with a kit of tools for making counterfeit money. The police judge of San Francisco, 16th inst., sentenced that bitherakite Dennis Kearney to serve a term of six months' imprisonment in the house of correction, and to pay a fine of \$1,000. He had been arrested for threatening life and inciting his followers to riot.

At San Antonio, Texas, recently, two men named Connell and Eckert, who had just fixed up an old feud which had existed between them, went to a saloon bar to take a drink. Before they got through drinking the feed broke out afresh, and Connell shot and killed Eckert. Whisky is a poor medicine to cure quarrels with.

Clarence Davis, a pretty commercial burner, is now languishing behind the iron bars in Chicago, for bigamy, or polygamy, rather, as he has probably two dozen wives scattered around through the States.

It doesn't cost much to shake up an editor down in Nebraska City. A landlord down there a day or two ago mopped the floor with the States Zeitung man and got off with a fine of \$1 and costs.—Lincoln Globe.

THE WHISKY SELLER'S WORK.

Terrible Tragedy.

ST. LOUIS, March 18.—A most horrible tragedy occurred early this morning in the suburbs of the city. Conrad Hieman, who lives on the corner of Broadway and Wright street, with his wife and six children, has been drinking heavily sometime past, and last night had an attack of delirium tremens. This morning, while the wife was preparing breakfast, Hieman called for her from an adjoining room, and as she entered the room, assaulted her with a large knife, driving the blade through the lungs of the infant in Mrs. Hieman's arms. He then struck another blow, burying the knife in the heart of his wife, killing her almost instantly. A brother of Hieman attempted to seize the maniac murderer, and received a severe stab in the back, disabling him. Hieman then broke away and ran towards the river.

Hieman was arrested, a raving, incoherent maniac, begging protection from pursuing demons.

There are some men just now in Brownville, over-anxious to hear again the above kind of work. But what do they care who has delirium tremens, or how many wives and children are destroyed, if they but can sell whisky for money. They would send a whole community to despair, death and hell for the money in doing the business.

There are some men just now in Brownville, over-anxious to hear again the above kind of work. But what do they care who has delirium tremens, or how many wives and children are destroyed, if they but can sell whisky for money. They would send a whole community to despair, death and hell for the money in doing the business.

Garcelon's Gang.

AUGUSTA, Me., March 18.—The legislative commission inquiring into the conduct of ex-Gov. Garcelon and the council have made a report. It states Garcelon, while evincing a willingness to disclose everything, was loath to disclose a willful act, and failed to give a satisfactory reason for his course. When the evidence was laid before him, he ceased longer to defend the counting out, and passionately declared his own innocence, and declared that a Judas among the council had done the villainy. Public funds have been withdrawn from the treasury by Governor Garcelon and his council without warrant of law, and have been applied to unauthorized purposes and for unlawful ends. A large sum of money belonging to the State remains in the hands of Garcelon and other officials of last year, which should be recovered back into the treasury. The recklessness of management disclosed in the transaction of last year tends to destroy public credit, and introduces practices which, if unrebuked, will prove fatal to the future prosperity and progress of the State.

Meeting of the State Central Committee.

The members of the Republican State Central Committee are hereby called to meet at the Commercial hotel in Lincoln on Thursday, the 8th day of April, 1880, at 2 o'clock p. m., for the purpose of completing the organization of the committee and transacting such other business as may properly come before the same.

JAMES W. DAWES, Chairman.

Dr. Miller talks with a large and intelligent audience when he has anything to say.—Granger.

So does the clown at the circus.

Judge Sinnott, of the Marine court, New York, is to be impeached for habitual drunkenness.
