**Harvesting Machines** 

The Randolph Header

and MOWERS,

Brownville, Neb.

Is not a Vibrator nor an Apron Machine. Is wonderfully simple and admirably perfect in its threshing and separating qualities. Saves all the grain, and cleans it ready for market. Runs easily, is constructed durably, is finished beautifully, is the most economical, least expensive, and most satisfactory machine in the market. Will handle wet grain as well as dry. Has no equal in threshing flax and timothy, threshing and cleaning both as well and nearly as rapidly as wheat, and requires no change except the sieves. Has wore square fest of separating and cleaning surface than any other machine made, and can not be certicated. Is both over- and under-blast. Our CLOVER HULLING ATTACHMENT is new and very desirable. Does the work more rapidly and better than an exclusively Hulling Machine.

SEPARATORS of the various sizes fitted for Steam or Horse Power, as desired.

An Improved Pitts Power, an Improved Woodbury Power, and the Elward Equalizing Power, all mounted on four wheels, are manufactured by us, and are not surpassed by any in the market. We are also prepared to furnish first-class.
Portable Engines with our Separators.
