Is wonderfully simple and admirably perfect in its threshing and separating qualities. Saves all the grain, and cleans it ready for market. Runs easily, is constructed durably, is finished beautifully, is the most economical, least expensive, and most satisfactory machine in the market. Will handle wet grain as well as dry. Has no equal in threshing flax and timothy, threshing and cleaning both as well and nearly as rapidly as wheat, and requires no change except the sieves. Has more square feet of separating and cleaning surface than any other machine made, and can not be overloaded. Is both over and under-blast. Our CLOVER HULLING ATTACHMENT is now and very desirable. Does the work more rapidly and better than an exclusively Hulling Machine.

TELEGRAPHIC SUMMARY Nation, and the State in particular.

The Weekly Nebraska State Journal is not only the largest Weekly published in the West, but it contains much more reading matter, in proportion to its size, than can be found in any of its contemporaries on this side of the Missouri, and commends itself to every Nebraskan as the Nate paper, to be taken in addition to the local papers of the several counities, for its general and State news.

Republican in politics, it discusses public affairs, not from a partisan, but from a broad, national stand point, criticising public men and measures upon their merita, independent of factionalism or prejudice. No better medium of the news that is wanted in Nebraska for the enlightment of the heads of the family, or for a liberal education of the rising generation, can be found than the State Journal.

Impure Bi-Carb Soda is of a elightly dirty white color. It may appear white, examined by itself, but a COMPARISON WITH CHURCH & CO.'S "ARM AND HAMMER" BRAND will show the difference. See that your Baking Soda is white and PURE, as should be ALL SIMILAR SUBSTANCES used for food.

A simple but severa test of the comparative value of different brands of Soda is to dissolve a dessert spoonful of each kind with about a pint of water (not preferred) in clear glasses, stirring until all is thoroughly dissolved. The delaterious insoluble matter in the inferior Soda will be shown after settling some twenty minutes or sooner, by the milky appearance of the colution and the quantity of floating flocky matter ac-

Be sure and ask for Church & Co.'s Soda and see that their name is on the package and you will get the purest and whitest made. The use of this with sour milk, in preference to Baking Powder, saves twenty times its cost. See one pound package for valuable informa-SHOW THIS TO YOUR BROCER.
