NATIONAL THANKSGIVING.

President's Proclamation.

At no period in their history since the United States became a nation, has this people had so abundant and so universal reasons for joy and gratitude at the favor of Almighty God, and been subject to so profound obligation to give thanks for his loving kindness, and humbly to implore his continued care and protection.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the City of Washington on the 1st day of November, in the year of our Lord eighteen hundred and eighty, and of the independence of the United States the one hundred and fifth.

WILLIAM M. EVARTS, Secretary of State.

Nine inches of snow was reported at Blanco, Texas, 5th inst.

U. S. Grant, jr., was recently married to the only daughter of Senator Chaffee of Colorado.

The Democrats are very mad because they can't steal the North as well as the South. They chaw a file.

Had there been a free vote and fair count Garfield would have carried the South about as solid as he carried the North.

"The people believe in the nationality of the government.—U. S. Grant. That's so, General—we just heard 'em say so."

The Panama canal scheme is suspended for the meeting of the American Congress to see if it is unfavorable to the enterprise.

The net Republican gain in some of the large cities is as follows: New York, 12,593; Chicago, 9,632; Brooklyn, 7,721; Philadelphia, 5,607.

Democrats may bulldoze negroes and stuff ballot boxes to change the will of the people of the South, but in the North they can't do it. They have different material to "buck" against.

If there were more Democrats than Republicans in the Union army why didn't they elect Hancock, also a Democratic soldier. Their vote added to the whole of rebellion couldn't do it.

A dilettante man is uv few days and very full of himself. He goes forth to the polls smilin in the morning, and returneth at night uv wounds and bruises and petrifying sores.

The Democratic party is too short at both ends.—P. T. Nash.

Church Howe was the lowest man on the Republican ticket, and got beat by only 100 majority.—Lincoln Globe.

The Globe is mistaken, as usual. He was not the lowest man on the Republican ticket, and his majority over Plasters, the highest man on the Democratic ticket, is two hundred and six.

It now looks as if Hancock had carried California, by a plurality of less than 100, excepting one elector. Judge Terry the man who murdered Senator Broderick many years ago, is so badly scratched that he is surely defeated. This would give Garfield one vote from that State and Hancock five.

Whilst New York is in an ecstasy of idiotic snobbery over the arrival of Sara Bernhardt, the Parisian actress, the Chicago Inter Ocean unceremoniously interrupts the fawning chorus by exclaiming—"Yes, Sara is a wonderful woman, and has succeeded in raising a family of children without the assistance of a husband."

Those whose business it is, according to the law, to certify the returns from the State of New York to the President of the Senate, are the State officers. These officers are Republican, and that certificate will show that Garfield and Arthur received the 25 electoral votes of the State; so they will be counted and so the Vice President will announce. And this is the way the matter is going; and whose ever resists will stand in the attitude of rebel and traitor.

It is reported in the eastern papers that Gen. Hancock has informed Barham that he does not sympathize with his movement to contest the expressed will of the voters of New York, and that he would not consent to be a "technical President." That is a very sensible position for the General to take; for whether he consents or not, he will not be any kind of a President this time. There will be no electoral commission as there was four years ago at Democratic demand. The Vice President will announce the electoral vote as it has been counted, according to the old way, and then the Democrats can abide by that decision or rebel, just as they please, and as they did in 1860. Garfield and Arthur will be President and Vice President, all the same.

ELECTION ITEMS.

Kentucky has one Republican Congressman this time. White beat Turner, 1500 majority, in the 9th district. That is a gain.

The Wisconsin Senate will have 25 Republicans and 8 Democrats. House 77 Republicans, 25 Democrats. Majority on joint ballot 69.

Pettigrew, Republican, is elected Delegate in Congress from Wyoming. In the St. Joe, Mo., congressional district, Nicholas Ford, g. b. Republican, beat Jim Craig, 150 majority. Craig will contest.

Hancock's majority in Nevada is estimated at 600. Hancock's vote in Delaware is 15,783; Garfield's 14,150.

Garfield's majority in Minnesota is about 40,000. The Legislature stands: Senate, Republicans 35, Democrats 10; House, Republicans 85, Democrats 15; Independents and Greenbackers 10.

Rev. J. H. Smith who defeated Chittenden in the Brooklyn, N. Y. congressional district, says he is a Republican. Garfield's majority in Pennsylvania is about 37,500.

Iowa is about 70,000 majority Republican. The prohibition clause in the Kansas constitution has been adopted by from ten thousand to fifteen thousand majority.

Indiana's majority for Garfield is near 8,000. Only a slight gain over the October election. New Jersey gives Hancock a majority of 2,000.

The seventh district of Missouri, elects Judge Rice, g. b., to congress over Col. Phillips present incumbent. That's a good thing.

Alabama sends a solid Democratic delegation to Congress. W. R. Moore, Republican, is elected to congress from 10th Tennessee district.

Gen. Hawley, Republican, will succeed Eaton, Democratic, in the U. S. Senate from Connecticut. Good enough.

Garfield's majority over Hancock in Massachusetts is about 53,000. It is claimed in the 11th Tennessee congressional district that Pettibone, Republican, is elected by 1,000 majority over Layton, Democratic. Another gain.

Iowa's congressional delegation is solid Republican this time. A gain of one from the g. b.'s. Col. Van Horn, Republican, is elected to congress from the Kansas City, Mo., district. Clear gain—good enough.

Garfield's majority in New Hampshire was about 4,500. Garfield's majority in Minnesota is 46,848. Solid Republican delegation to Congress.

The New York Democratic leaders have issued a circular protesting against casting the electoral vote of that State for Garfield and Arthur, on account of alleged frauds, and saying that steps for investigation have been taken. No democrat with less cheek than a Barnum mule says anything about fraud. For if the Republicans should also go to protesting, and investigating the frauds of the Democracy, three-fourths of the Southern States would cast their electoral votes for Garfield and Arthur. Investigations have never prospered the Democratic party. Kicking against the expressed will of the people has always brought them to grief. And so will be again if they go on in this matter.

The following table, showing the number of votes to which each State is entitled, will be found convenient for reference in political speculations:

The New York Sun, which seldom says a good word about it, has a short editorial entitled "One thing that New York does," in which it says: "She contributes a gentleman to the ticket over the triumph of which the Republicans are hurrahing. General Arthur gave a great part of the strength to the ticket in this State. He had been a satisfactory and popular collector of the port, and everybody knows him to be a gentleman."

STATE MATTERS.

Lancaster cast 4,931 votes at the recent election.

Republican: Balcombe beat Countant and now Countant knows that it is to be "kicked to death by a mule."

The Omaha Republican acknowledges that "Rosewater and Balcombe are patriots after all; they have left their party for their party's good."

One night last week, says the Republican, a sneak thief made a successful raid through the sleeping rooms of the St. James hotel.

The land league in Loughrea has issued an address, concluding as follows: "The solemn hour strikes upon the dial of time. The tear-blotched history of your long-suffering country flies before you."

George Glass was shot dead last night by George Watson or Fred French. It is alleged that Glass hurrahed for Davis and in the altercation which followed Glass shot Watson in the leg and it is supposed Watson returned the fire, killing Glass.

Little Rock, Arkansas, November 5.—An Ozark dispatch says, that on top of White Oak mountain, two miles north of Ozark, stonemasons' tools or less have been rising from the ground and falling like hail, driving families out of the fields, and that great excitement prevails.

Washington, November 5.—Postmaster General Maynard to-day received a letter from C. C. Kerr, a member of the legislature in the Ottoman central criminal court in the case of the three men implicated in the murder of the Rev. Mr. Parsons, American missionary. The accused persons, a contractor of the Ottoman empire, to death, and the other two to fifteen years' imprisonment with hard labor.

New York, Nov. 4.—A special from Washington says: "General Mahone, of Virginia, is reported to have telegraphed to this city that he will not enter into any caucus with the Democrats, but will vote on all public matters according to the dictates of his independent judgment. It is claimed that he will most generally act with the Republicans."

New Orleans, Nov. 2.—A dispatch has been received from Jackson, Miss., stating that they left Jackson on the 29th ultimo to distribute Republican election tickets and show that Deason was a proper candidate for Congress. On the 30th they reached Dry Grove, and on the 31st they were taken by a mob of nine armed men, who stated they had been appointed to escort Estelle and Kerr and see that they made no Radical speeches nor distributed any tickets. They were escorted to a train and required to return to Jackson.

New York, Nov. 3.—The General Convention of the Methodist Episcopal Society of the Methodist Episcopal Church to-day appropriated \$26,000 for missions in Mexico, with a contingent fund in addition of \$14,614. A \$30,000 appropriation for the Japanese missions was also made.

Washington, Nov. 5.—The Republicans will control the House of Representatives in the coming year, according to the figures just made up at the Republican Congressional-rooms from the latest dispatches show a Republican majority of not more than three, and possibly one. In this, however, only Republicans are counted, the Greenbackers being classed as opposition.

Columbia, S. C., Nov. 5.—The Daily Register to-day in its leading editorial says: "Now, with Garfield in the Presidential chair, for whom Republicans have claimed so much in the way of ability and statesmanship, we shall see what we shall see. One thing is certain, if he is half the man he is claimed to be—if he is only half a statesman, in the true sense of the word—he will hold his own and be his own success in the world."

As strange as it may be there is a Democratic party in Harlan county—the Sentinel. It announced the election news with the following headlines: "Gone to the devil. That's what's the matter with the Democratic majority we so confidently looked for. Another Ohio President. Large Republican gains all over, and it beats New York how hell went." That editor ought to sober up and go to Sunday school again.

Hancock's vote in Harlan county was 237, Garfield's 678.

Garfield's majority in Fillmore county, over Hancock is 792. Weaver received 190 votes. Nance's majority is 978, Valentine's, 905.

An Antelope county farmer has planted this season thirty-two bushels of walnuts, six of butternuts, six of ash seed, and eight of box elder on his timber claim.

CHARLESTON NEWS AND COURIER. CHARLESTON, S. C., Nov. 4.—The News and Courier concludes its leading article on the result as follows: "We do not propose to imagine that the American people wish that any State should again be ruled by a Scott, a Moses, or a Bullock. The truth was that the control that was necessary and even indispensable in local affairs carried with it considerable influence in National affairs. With the help of two Northern States the South could elect the President and be master of the government. We know, or think we know, that the power would have been exercised wisely. But the Congress was not ready to be ruled, even to their own advantage, by the conquered. Nor would the South have been, if Grant instead of Lee had surrendered his army fifteen years since. Besides this intent feeling there was the mighty influence of the bankers, merchants, and shopkeepers who had no particular objection to the Democracy coming into place, except that it involved a change of some sort, and they wished no change of any sort. Money is cheap. Every department of trade is flourishing. It is true that the currency is in an unstable condition; but a cool-headed person not in debt would not expect from a party which professed itself to be the friends of National affairs, and De La Matras a better dollar than would be furnished by Clittenden, Morton, and Sherman, and wemay add that with eyes wide open to all its faults, the white people north of the Potomac, and others equally as well known, it is not a new remedy by any means, having been tested again and again with most satisfactory results. Mr. Scott, the proprietor and manufacturer, had been largely engaged in various countries, and the frequency and fatality of the diseases that carried away his stock, induced him to a searching analysis of the causes which led to this undesirable condition, and prompted him to experiment with various remedies, which finally resulted in the production of his standard remedy, that is generally acknowledged to be par excellence the best in the market. \* \* \* We are not in the habit of recommending or endorsing the production of any medicine, but we do know, that the trade readers will know, but we must make an honorable exception in this instance, as healthy hogs produce healthy pork, and healthy pork sustains unimpaired a healthy organization. It is a subject which concerns the entire human race, and one that must eventually be considered in the legislative halls of our National Congress. \* \* \* This work has more than ordinary interest for the farmer and can be had in book form by sending 25 cents to Mr. Scott, at his office, 366 Wabash avenue, this city. —Chicago Grain and Provision Review.

DR. THOMAS, the celebrated Methodist preacher, who has caused such a sensation amongst the brethren, recently visited this city, and delivered a course of lectures on his heretic doctrines as follows: "John Wesley believed in a hell of literal fire, or material fire. He says there is no such thing as immaterial fire, and in answer to the objection that such a material fire would destroy any body on which it might act, he says that God has mercifully given us an example that such is not the case—in the asbestos, a kind of flax that no heat could consume. And then he says that if it is not material fire it is something worse. Such a thought makes the idea of God impossible. We cannot, with such a picture before us as millions of His children—who whom He called into being—suffering forever the agonies of such a hell, think of Him as good; for to think of any being less than absolute perfection, or that might be better, is not to think of God at all.
