

Sitting Bull is about to surrender his whole camp to the government.

Gen. Howard has been placed in charge of the West Point military school—Schofield removed.

Remarks on exchange: If Hancock had been elected does anybody believe the Democratic papers would now be urging a civil service reform law?

Thompson, Secretary of the Navy, has resigned. The Secretary of War will take charge of the Navy affairs during the balance of this administration.

The President has approved the bill authorizing the secretary of the interior to dispose of part of the Fort Dodge military reservation to actual settlers under the provisions of the homestead laws.

Kelley, of Pennsylvania, the oldest member of the House, in length of service, has announced himself a candidate for Speaker of the forty-seventh Congress. Judge Kelly will make a strong race.

Inter-Ocean: Temperance workers can well take knowledge of the fact that liquor of all kinds, including wines, are of late seldom seen upon the tables or sideboards at any of the fashionable receptions. Cultured people have come to the conclusion that wine is not an essential of hospitality.

Senator Bayard, during the late political campaign, in one of his speeches, where he thought it would not be reported, lied about Senator Conkling; and now, when Conkling takes him to task about it, Bayard is trying to get out of it. We used to think Bayard was an honorable exception to the average Democratic statesman; but we guess they are all alike.

The Lincoln Globe swears that Church Howe has no friends, that he will not get a vote for Speaker, nor a vote for Senator, that he has no chance for even a place on committees, and that he is generally and badly used up; and yet it daily gives him more attention than any other man in the State. Such inconsistency leads one to suspect the Globe's sanity or honesty.

Representative McCord, of Iowa, introduced in the House a bill to regulate commerce by railroad between States. It provides, among other things, for arbitrary schedules of rates for the transportation of freight and passengers, and prohibits, under penalty, all combinations or pools to defeat competition, rebates, discriminations, or failures to furnish facilities to other intersecting or connecting roads. The demand of the times is for some such a law.

Senators have been introduced in the Senate and House, by the representatives of Colorado, for the retirement of small legal tender notes; and providing that in place of legal tender notes of denominations less than five dollars, which may be held in the treasury when hereafter presented for redemption, the secretary of the treasury shall each month substitute notes of the same character, but of higher denominations, to the amount—as nearly as practicable—of the standard silver dollars coined during that month, and that no more legal tender notes of lower denomination than five dollars shall be printed.

The Crete Standard expresses the apparently candid opinion that railroads are "the worst enemy the people of Nebraska have to contend with." It is strange how people will differ, even from the same standpoint of observation. What would Crete have been without her railroads. The Standard will slander to think of it. And Lincoln, Kearney, Hastings, and all the nice towns along the B. & M. and U. P., and the vast settlements throughout the western portion of the State; and the homesteads, and pre-emptions, and cheap lands, the settlement, the growth, the utilization of which, were made possible only by railroads. Why the railroads breathe into Nebraska the breath of life, and she became a living commonwealth, her whole system pulsating, by reason of the ramification of her iron veins, with the vigor of industry and commerce. Yet, weak, unreasoning individuals will scold, and croak about passenger fares, and freight tariffs, and the "coal famine," and frighten the ignorant with the cry of "monopoly," and ungratefully declare that the enterprise and capital which redeemed their very homes from buffalo walls and the prairie dogs, are "the worst enemies of Nebraska." Give us more of "the enemy to contend with," says THE ADVERTISER, in the interest of the people.

The witnesses in the Olive case have all been spliced out of the way, and now since the \$10,000 state appropriation is used it is not probable that the attorney general will take very much interest in the matter. A murderer with \$20,000 will never hang in Nebraska. If he has \$40,000 he gets very little punishment, and if he has \$60,000 he is turned free.—Lincoln Globe.

If there is any sense in the closing paragraph of the above, it means that the Judges of the Supreme Court of Nebraska in making up their opinion which granted Olive a new trial, "Olive's sixty thousand dollars was the motive power that moved them to that decision. We lack words to express the height and depth and length and breadth of our contempt for the miserable hypocandriac that conveys to the public ear such an insinuation; charging its indirectness makes it the more cowardly—our purest men with corruption of the worst character. What does the Globe editor know about the law and judiciary applicable to the Olive case? Nothing of course. But a flippant publication is thrown out as if the persons to be affected were politicians and such a crime is committed against the good name and dignity of the State.

Nebraska Advertiser

BROWNVILLE, NEBRASKA, THURSDAY, DECEMBER 23, 1880. VOL. 25.—NO. 27.

ESTABLISHED 1856. Oldest Paper in the State.

THE REPUBLICAN UNION OF MISSOURI colored men have issued the following call for a National convention: The negroes have reached a significant juncture in citizenship. The hour has come for advancement in that citizenship. Our vote is an indispensable factor. It can grant triumph or secure defeat. It should receive the respect due its power. Whatever is less than citizenship is peonage and serfdom. With our party in power our advancement should be assured. Wise counsel and prompt action is required. In an entire section the new amendments were practically abrogated; labor is threatened; life and property insecure; terrorism prostrates the American people. With a view to the importance of these great questions and opportunity to make representation in the new Congress, the republican union of Missouri urgently call upon the patriotic and public spirited negro men of the United States to assemble in council at Washington City, March 3d, 1881.

The Journal, this morning publishes its diagram of the senatorial position, and we regret to notice that it gives to Church Howe the severest cut he has yet received. The Journal's diagram is after the form of a hog, and poor despised Church Howe has but the tail. Whilst the diagram may and no doubt does represent exactly his position in the race he deserves better treatment at the hands of that paper.—Lincoln Globe.

We looked at that diagram, and the Globe is correct, except as its interpretation thereof. The erudite Gere wouldn't be caught making a mistake about a hog's tail; and there is no one knows better than he that the tail of an animal is its only member that "fourishes," and that it is proverbial that the tail often wags the balance of the hog. Bull's for Gere, if he is good for anything it is in making Senatorial diagrams.

The ADVERTISER is not advocating the election of Judge Dundy, to the Senate as some of the papers are stating. It is not advocating anybody, especially. There is not a candidate mentioned whose election would give us. We some time ago said we believed Dundy was the coming man, and we still think so; and while we would be well satisfied with his election, either Padlock, or Nance, or Mason, or Vay Wick, or—well, that's enough—and we don't care which one has the longest pole. They all are stalwarts, we believe.

The scheming for Gov. Nance to be U. S. senator at the expense of Senator Padlock is cropping out every day. Republics are not the only things under the sun which are ungrateful. The scheme for Nance is the whole plan, away as follows: If the real truth was known, and it dared to be spoken, wouldn't the masses of the people of the state be better pleased with Nance for senator.—Lincoln Globe.

The Globe knows around enough to have a sniffer of a very large rat long before this. "Young America" is inscribed on the winning banner.

Church Howe, that "mess" back celestial from the tropics from Nemaha is now editing the Brownville Advertiser.—Lincoln Globe.

O, no, gentlemen of the Globe, Wash Fairbrother is editor of THE ADVERTISER, and he doesn't need any help to keep you fellows on the rugged edge. Your Nemaha informant has lied to you again, or else you lie from habit, and sheer desperation.

Gum arabic dissolved in whisky will keep the hair curled in damp weather.—Exchange.

A little sugar dissolved in it has a similar effect on the legs.—John B. Gough.

A HORRIBLE FATE. St. Louis, Dec. 14.—A special from Independence, Mo., last night says that Mrs. James Jones, wife of a wealthy farmer, was trying to fill a kerosene lamp with kerosene, when both lamp and can exploded, causing the almost instant death of her two children, aged respectively six years and ten months. Mrs. Jones was burned so terribly that she died in a few hours.

ANOTHER EXPLOSION. BRADFORD, PA., Dec. 14.—A fire in Clean-to-night destroyed the Buffalo house, and the Exchange restaurant and three other buildings, besides Merritt's block occupied by several firms and six families. It is reported that one woman and two children were burned. The fire was caused by the explosion of a lamp in the Buffalo house. Loss, \$15,000; insurance, \$10,000.

INCREASED REVENUE. WASHINGTON, Dec. 14.—In the year 1879 the gain to revenue resulting from increased manufacturing of sugar was \$303,267; and in 1880, \$1,239,872.

A RAVISHER LYNCHEd. CINCINNATI, December 13.—The Commercial Brazil, Indian territory, special says Geo. Scott, a half-breed Indian and negro, was lynched last night by a party of masked men, who took him from the jail where he was confined for an outrage on Mrs. Allison, the wife of his employer.

A REWARD FOR MURDERERS. SPRINGFIELD, Ills., December 14.—The governor has offered a reward of \$200 for the arrest of the unknown murderer of Thos. J. Dill, who was killed in his bed December 10th at his home in Colono township, Henry county.

CONFIRMED. WASHINGTON, Dec. 15.—The Senate unanimously confirmed the following nominations: Col. Wm. B. Hazen, chief signal officer, with rank of brigadier general, and Col. Nelson A. Miles, to be brigadier general.

DIDN'T WANT TO FIGHT. CHARLESTON, S. C., Dec. 14.—Senator Hampton, in reply to a letter from Right Rev. Dr. Howe, Protestant Episcopal bishop of South Carolina, touching upon his recent correspondence with Secretary Sherman, says: "You are entirely right in the construction you placed upon my note to Mr. Sherman. That was written as I passed through Charlottesville, and I naturally gave my proper address. It never occurred to me for a moment that any one would construe my language as giving or inviting a challenge."

SAD AFFAIR. SAN FRANCISCO, Cal., Dec. 14.—In Oakland, last night, Miss Elizabeth Tyler, aged 18 years, was shot dead at the gate of her residence by the accidental discharge of a pistol in the hands of her affianced, John Seotchler, son of a well-known commercial merchant of this city.

STEP FORWARD. LOUISVILLE, Dec. 16.—At a meeting of the city council tonight a petition, numerous signed by white and colored citizens, asking the council to appoint negroes upon the police force and fire department, was presented by the president of the lower board. Some of the white persons who signed the petition were Judge W. J. Jackson, Judge J. Hop Price, Hon. Jas. Godshaw, Sheriff S. S. Hamilton, ex-County Jailor W. F. Russell—all Democrats. A negro never held a municipal office in Louisville.

Campaign Work. John B. Finch left the city to-day for a campaign trip that part of the state containing Clay, Nemaha, Franklin, Adams, Kearney, Hall and Howard counties.

This field embracing these counties has been well worked up and they are anxiously awaiting the arrival of a leader to assist them in putting in the closing work of the campaign. We have no special means of knowing Mr. Finch's plan of prosecuting the work on this particular trip, but do know that he is the most thorough worker, and the best organizer of the forces in the cause of temperance of any of the great temperance advocates in this country.

The telling work he did in Kansas through the past summer illustrates the truth of his statement, and when we consider that he was working in a neighboring state, not his own, we can judge better of what will eventually be the result of his work in Nebraska.—Lincoln Globe.

Signs of a Moral Revival in South Carolina. Beaufort, (S. C.) Crescent (Dem.) There is one thing to be said of the democracy of Beaufort county, that unfortunately cannot be said of some others, and that is, they have not yet learned to count one democratic vote as five and five republican votes as one. Nor have we yet adopted the system by which ballots are substituted in the boxes for those which were originally placed there. Upon these little matters we are sadly deficient. For ourselves we would rather be elected with years of republican misrule, trusting to the justice of our cause finally asserting itself than to steal an election.

A protective tariff stands at the elbow of every laboring man in this country, and he would not have it taken away from him without a better wage, and to a more independent condition, and to a higher development of his faculties. It is the refuge of his weakness, and the work for his strength. Above all other classes of voters, protection commends itself to the serious consideration and the unflinching support of the colored man, because it is the moral enemy of human bondage in every form.—Inter Ocean.

The truth is Mr. Bayard appears to have got himself in a bad fix. Evidently he made the speech thinking no reporters were present, and when cornered he wriggles and equivocates—it not worse—the lowest and meanest democratic shuffler in or out of public life. They are all the same.—New York Commercial Advertiser.

General Grant believes that the Nicaragua canal, when in operation, will pay 5 per cent on an investment of \$80,000,000.

MISCELLANEOUS NEWS. The Roman Catholic population of the United States is estimated to be 6,143,222. In the population of New York there are 25,000 more females than males. Recently in N. C. a man was fined \$50 for attempting to kiss a neighbor's wife.

Edward Rynshardt, Staten Island, has been sentenced to be hanged Jan. 14th, for murdering his wife. On the 14th inst. the steamship Republic brought \$245,500, and the steamship Argel \$582,000 British gold bars and coin from Europe.

The Bruce Chief, Medicine Bull, was recently shot and probably mortally wounded by the accidental discharge of a pistol. At Burksville, Ky., last week two brothers named Pierce quarreled, and the younger shot his brother dead. At the city election in Boston, 14th inst., Mayor Prince, Democrat, was re-elected. The city council is largely Republican.

Edgar Stanton, of Illinois, has been nominated by the President for Consul General at St. Petersburg. John Kelly has been in the habit of disbursing \$50,000,000 each year, and most of it went into the hands of his Tammany followers. No wonder he's mad.

Burglars stole \$3,000 worth of silks from the dry goods store of T. K. Best, at Freeport, Ill., one night recently. The House has passed the pension bill appropriating \$50,000,000 for the next fiscal year.

The San Francisco Board of Trade has telegraphed to Senator Booth asking him and the California delegation to assist in pushing the Nicaragua Canal project. Senator Hoar has presented in the Senate a woman's suffrage petition, containing arguments which he considered unanswerable.

The National board of Trade has adopted, for transmission to Congress, the draft of an act to prevent food adulteration. Dr. Albert G. F. Goersson, Philadelphia, has been sentenced to be hanged for murdering his wife.

Santa Fe, N. M., the oldest city in the country, is rejecting over the recent introduction of gas-light. Herman and Howard Harif, brothers, have been sentenced to imprisonment for life, for murder, at Youngstown, Ohio.

The first American city to light its streets wholly by electricity is Ogden, Utah. Now that John Kelly is down all the little Democratic newspapers rush forward to give him a kick. Eugene Connelly, aged 50, was found dead on the stoop of his home in Water street, N. Y. having been frozen to death while intoxicated.

The New York Herald takes comfort in the fact that "New York is the mother of Vice Presidents." The Major Generals of the army in the order of their rank are as follows: Hancock, Schofield, McDowell. The Brigadiers in like order are Pope, Howard, Ferry, Augur, Crook, Miles.

W. H. H. Brainard, a journalist of considerable merit, died at Deadwood last week, aged 40. Joseph Brown & Bros., wholesale dry goods merchants of New York, have failed, with liabilities of \$92,000. On the 12th inst. Chas. A. Burt, a prominent brewer of Albany, N. Y., killed his mistress and then himself.

Seidenberg & Co., the well-known cigar manufacturers of New York and Key West, have failed with liabilities of \$500,000. Congress has granted a pension of \$1,200 per annum to the widow of the late President Tyler. George Parrott, alias Big-nosed George, one of the worst road agents that ever infested the western country, will be hanged next April, if he lives, or doesn't escape by pardon or otherwise.

Punch Jones a bad one of Lafayette Ind., was shot by an officer recently. John Cunningham a freight conductor at Nashville, was killed by the cars, 16th inst.

The Same Old Story. Chambers' Journal. The Oxford graduate was showing his sister over his rooms in college, when some one knocked at the door. Supposing that it was one of his friends, and not wishing to be chafed, he hid her behind the curtains, and admitted an elderly gentleman, who apologized profusely for his intrusion, and excused himself by saying it was many years since he had been at Oxford, and he could not leave without paying a visit to his dear old college, and the rooms which he had occupied as a student.

A DOCTOR'S DEVOTION. A Heroic Incident of the Diphtheria Epidemic—A Physician Sacrifices His Own Life to Save a Child.

From the New York Sun. Two weeks ago Dr. Sanford, of Greenpoint, L. I., a suburb of Brooklyn, was called to the bedside of a child who was suffering with diphtheria. It was a very malignant case, and Dr. Sanford watched the child day and night. At last the child passed away, and the doctor was so overcome by grief that he died in a few hours.

Dr. Sanford, who had his knife in hand, immediately made an opening in the windpipe, through which, with a small rubber tube, he drew out with his own mouth the poisonous fluid. The act of conducting such an operation is regarded by all surgeons as extremely hazardous to the operator. Three French surgeons are known to have lost their lives in the same way.

Young Dr. Sanford, the son of a distinguished surgeon of Brooklyn, was the only American victim, as far as known, prior to the case of Dr. Sanford. A short time after the operation, the poison which had inoculated Dr. Sanford by the operation, was so active as to be known that he was suffering from diphtheria, all the allopathic doctors in Greenpoint offered their services. Two or three were with him continually. The patient had all ways been very delicate, and this was against him. If by strong nourishment he could be kept alive for a certain number of days, it was known that the crisis would be passed, and he would recover.

Speaking of diphtheria, Dr. Van Gieson said: "I have studied this disease for more than thirty years, and I have read many volumes devoted to it, and I have had a great many cases of diphtheria in my practice. Sometimes I have said to myself: 'Well, at last I know what diphtheria is.' But if you were to ask me now to describe the pathology of this disease, I should answer, 'I give it up.' Fortunately, however, we are able to treat it successfully in a great many cases. My method of treatment is to inject into the throat a solution of potassium permanganate. There are physicians who assert that they have never lost a case of diphtheria. Those physicians are either humbugs or else they have never had many cases of diphtheria. I have sometimes treated as many as thirty cases successfully, and then I have lost half a dozen, one right after the other. It is a disease that has different degrees of malignancy. One year its attacks may be very mild, and the next year it may kill every one who becomes infected with it. As for the present epidemic of diphtheria, I am afraid that we have only seen the beginning of it. When a diphtheria patient, I can generally make up my mind whether he can be saved or not. But the treatment is the same for all—food and stimulants."

It is stated that in his next message Governor Cornell of New York, will earnestly second the proposal that ex-President should have a seat as Senators at large in the United States Senate. Senator Conkling is understood to be opposed to this, and to the Government's views on the subject will doubtless emphasize those of the Senator.

In a cave near Silver Cliff, Col., two human skeletons were found. Two human skeletons were there, too, but they were in such a state of decay that they were not recognizable. In spite of the restrictions on account of the pleuro-pneumonia, the shipment of live stock of Great Britain continues to increase largely. It is also stated that a company with \$1,500,000 has been formed in London for carrying dressed meat from America in the Great Eastern fitted up with refrigerators. The business of supplying England with beef will probably be a permanent one.

Fifty-eight national banks were organized during the past year; five failed, and twenty-one went into voluntary liquidation. The News, San Antonio special states that Gen. E. O. C. Ord, until notified of his retirement from the command of the department of Texas and active service in the army, held his office at headquarters, and ordered Adjutant General Vincent to report to Gen. Sheridan until the commander appears. As his son-in-law, Gen. Trevino, has been appointed minister of war of Mexico, it is rumored that country will be the future home of Gen. Ord.

A Steamboat just launched on the Mississippi, has so much name that it is difficult to see how she can carry a cargo. She is called Lucius Quintus Curtius Lamar, in honor of the Senator.—Inter Ocean.

Very Droll to Think of. If not above being taught by a man, we Dobbin's Electric Soap next wash day. Used without any wash boiler or rubbing board, and washed fifty times, and I never saw a stain. It seems very droll to think of a quiet, orderly two hours' light work on wash day, with no heat and no steam, or smell of the washing through the house instead of a long day's hard work; but hundreds of thousands of women from Nova Scotia to Texas have proved for themselves that it is done by using Dobbin's Electric Soap. It is the best and most economical of washes you will use according to directions, that are as simple as to seem almost ridiculous and so easy that a girl of 12 years can do a large wash without being tired. It positive will not injure the finest fabric, has been before the public for fifteen years, and its sale doubles every year. If your grocer has not got it, he will get it, as wholesale grocers do not carry it. L. C. CHAMBERLAIN & Co., Philadelphia.

City Hotel, LEVI JOHNSON, PROPRIETOR, NEMAHA CITY, NEB. Centrally located; good fare, and no trouble spared to make guests comfortable. Good barns for horses and carriages. Charges Reasonable.
