Honored and Blessed.

When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were skeptical; but proof of its merits by actual trial has dispelled all doubt, and today the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

PODUNK, August 9, 1881.

God so loved the world that he gave his only begotten son to die that we might live.

We are glad to hear that the little son of Mr. and Mrs. Johnny Brown, who has been very low with whooping cough, is better.

Some in this part are trying to get near the fire just such a time every day. Guess it is the chills.

Work has begun on the M. P. road. Rev. Mr. Reedes preached in front of Brown's store last Saturday evening and Sunday morning, to the railroaders and people generally.

Mr. J. M. Campbell, a very pleasant and agreeable merchant, has laid a nice stone walk in front of his lots. Just what our city needs. Some more do the same.

Two new buildings gone up lately. Lumber on the ground for another.

By the way, Mr. Campbell says he is going to take THE ADVERTISER, so he can get the Podunk items. He will do it, too.

Quite an accident happened yesterday. I will give particulars next week.

Yours truly, C. H. E.

Be Wise and Happy.

If you will stop all your extravagant and wrong notions in doctoring yourself and families with expensive doctors or humbug cures, that do harm always, and use only nature's simple remedies for all your ailments, you will be wise, well and happy, and save great expense. The greatest remedy for this, the great, wise and good will tell you, is Hop Bitters—rely on it. See another column.

President Garfield recently received a box of pickled peaches from Columbus, Georgia.

The uncle of the Younger brothers, who is trying to secure their release from the Penitentiary, promises if they are released they will quit the country. Exchange.

Yes, they would leave the country and rejoin the James boys.

Miss Ella Cook, of California, has challenged Miss L'zzie Williams, of Kansas, for the contest of the long distance riding, and the latter has accepted. The contest is to come off on the Kansas City Exposition course during the Exposition, September 14th.

A bill has been introduced and will pass the legislature to suppress Mormonism in Georgia. It provides that any person convicted of teaching such principles or endeavoring to decoy emigrants to Utah shall be fined not less than \$1,000, or shall suffer imprisonment for one year, or both, in the discretion of the court.

Last winter's legislature passed a law which requires every person to cut all weeds growing in the highway adjoining his property. The law went into effect June 1st. Our farmers should have the weeds around their farms mowed immediately.—Nemaha Times.

Most of the farmers keep such laws about like the old fellow in Indiana kept tavern.

Paul Vandervoort has aspirations to succeed Congressman Valentine, and is setting up pins to carry the day.—Secord Reporter.

The Reporter, although extravagant in its assertions, usually, and seldom applies the test of truth and reason to its effusions, announces a very well qualified and staunch Republican for that position. Paul Vandervoort is true as steel wherever you find him.

Mr. Schurz would deny that Utica matter only he hasn't got the time. He is very busy running the New York Evening Post, and every minute is worth money. But we are glad that he takes the time to look after household matters. It shows that, with noble philanthropy and self-forgetfulness, he prefers helping the tired and hurried denizens of the kitchen to setting himself right before the public. The following exhibits the nature of the work he is engaged upon, the extract being taken from the last Post which has come to hand:

When the wash-boiler is put on the stove take off the griddles only; the other part will help to sustain the weight of the clothes, and the boiler bottom will last a long time.

When we consider that many a poor woman has been lifting off the entire top of the stove to put the boiler on, and that they would have gone on in this ruinous work for years but for Mr. Schurz's kindly warning, something of the character of this and his mission may be comprehended. No wonder Millias Frank, of New Haven, says: "I have a great admiration for America's greatest statesman, C. Schurz."—Inter Ocean.

A Washington dispatch in the London Standard says President Garfield recently said: "I am going to get well to beat Conkling." Of course everybody on this side knows that such a remark attributed to our enfeebled President is a contemptible falsehood. It is said upon good authority, however, that when he heard of the end of the New York contest, the President remarked, "I am glad it is over. I pity Conkling, and wish I could give him some foreign mission." There is more probability that that would express the feeling of the President toward Mr. Conkling.

The oldest man in the world is believed to have been discovered in New Grenada. At a recent meeting of Physicians in Bogota, Dr. Hernandez described a visit he paid to a man named Miguel Solis, a half-breed farmer living in the foot-hills of Sierra Mesilla, and who is represented as being one hundred and eighty years old. The old man's neighbors are of the opinion that he is even older, grey-headed men saying that they remember Miguel as a reputed centenarian when they were boys. The old man is hale and hearty, and describes his long life to the fact that he never was drunk and never overfed. He eats but one meal a day, and fasts on the first and middle of each month, eating nothing, but drinking all the water he can swallow.

Robert Hottinger, aged 18 and his sweetheart, Katie Hild, of Chicago, being bitterly opposed in their love, by their parents, concluded that if they were not permitted to live together they would die together; and with this in view each took a large dose of morphine. The young man died, but Katie will recover.

A legal murder was committed at Syracuse, N. Y. Friday last. N. O. Greenfield being hanged for the murder of his wife. There is a strong probability that the man was innocent.

Officer O'Brien, of Chicago, was shot and killed last week by Tom Cahill, whom he was trying to arrest. Cahill received a mortal wound and his mother was also wounded.

NEMAHA CITY.

The political pot begins to simmer, slightly, down this way.

There is no particular boom in Nemaha at present, yet we are growing and every few days a new roof shows itself that covers a family. There is nothing mushroom like about Nemaha.

Rabe Elliott continues to buy the farmers' hogs and pay the best prices going.

Nemaha will be a money order office commencing 15th inst.

Two brick yards—one by Mr. Taylor, and one by Mr. Moses Banks—have kilns about ready to fire. Who is going to put up a big brick business block this season—echo answers "who."

Bob Norvell, who has a name and fame as broad as the Union as "The Boy Preacher," delivered a short but intensely interesting and instructive discourse to an audience on the street last Monday afternoon. When through preaching he departed, with gentlemen who came for him, to fill an appointment at Sheridan that evening. He will be back to Nemaha next Monday night. The meeting will be out doors if the weather is good, if not, it will be in the Christian church. We can say to the people that the "Boy Preacher" is a wonder—a curiosity—a surprise—better than you would suspect him to

be at first glance—in fact so much better than you possibly never heard of equal in logic, rhetoric and memory. The Bible—old version—is correctly engraved, as it were, on his memory. Remember Monday evening, 15th of this month. Gentlemen, ladies, everybody, if they fail to hear the Boy Preacher, will miss one of the best treats of their life.

Dr. Keeling is having a new house built on his farm south of town.

Titus & Williams are receiving new goods now right along. They have heavy stocks of clothing, gents hats, ladies' prints, queensware, glassware, ladies dress goods and in fact anything and everything that anybody calls for.

Mrs. Dr. Foster, of Morrill, Kas., after a visit of several days in our city, started for home, with her two sons, Monday evening.

Rev. D. Monroe is the name of our new Presbyterian minister. He is said to be eloquent and scholarly.

Dr. Crim having taken charge of the large and very convenient boarding house recently kept by Mr. Henderson, will continue the house in first class style. This is the place to get a good meal, or to board by the day or week. Several gentlemen or lady boarders can yet be accommodated with good rooms.

The prospect for increase in several family circles keeps the doctors on the quiver.

If you want a good dinner, call at Crim's boarding house.

Some man, whose name we did not learn, had one of his shoulder blades broken a few days ago. Dr. Andrews fixed it all right for him.

Dr. Crim has been quite unwell the past week. He will resume the practice of medicine when his health gets better.

Tracklaying on the B. & M. extension to Calvert, began Tuesday.

Capt. Minick has a splendid stock of goods and his clerks are busy.

The Johnson House is full of boarders and is running in good style.

Call on Crother & Son if you want harness new or harness mended, saddles, bridles, boots, shoes. Good goods and warranted work.

We understand Nemaha City is soon to have the B. & M. transfer boat, J. F. Joy, which has plied between Nebraska city and Eastport for a number of years. It is now undergoing repairs at St. Louis and when placed in good shape, will be at once brought to Nemaha City.—Unadilla Graphic.
