 —We are pleased to learn that the eyes of Milford Randall and others treated by Mrs. Monahan, are improving as rapidly as could be expected, and all will doubtless soon be entirely cured. Mrs. M. will visit this city again next week.
 —We had more rain Tuesday evening and pretty much all night, and the weather turned quite cool, so that a thick coat and warm stove were agreeable. The ground is well soaked now and grass and vegetation generally are taking a fresh growth.
 —The M. P. railroad company has, it seems, finally settled upon a route through Douglas precinct, and probably through the county, and the work of grading commenced, at the junction, last week. Sheridan gets a depot, Calvert is "left" two and a half miles west of the junction. As to what move toward making a town at the junction will be made, if any, is not yet known, but we are informed by parties in a position to know pretty well what they are talking about, that Sheridan gets a depot in consideration of the right of way through that precinct, and some other less matters, and that a town will ere long be started at the junction, which will be the M. P.'s favorite in this county. Shouldn't wonder.
 —Furniture, large stock, low prices. Stevenson & Cross.

L. MCGEE.

—On Tuesday the 6th inst., the President was removed by railroad to Long Branch. Every precaution to make the trip easy for the patient was taken and beneficial results are already claimed. He has been wanting to go away from Washington for some time, and preferred to go to Mentor, but the doctors thought the distance too great to risk in his enfeebled condition. As to the ultimate recovery of the President, the eminent physicians attending him say there is little doubt. Many others, who depend on the bulletins and general news for the basis of an opinion, reason to a different conclusion. While we must respect, and have more or less confidence in the opinions and reasons for hope expressed by such surgeons as Agnew, Hammond, Boynton, Bliss, yet, when we think of the complications that have arisen to hinder healing and health, and that jagged chunk of lead in his body always irritating and liable to cause deposits of pus in unknown quantities and unexpected places; the vitiated condition of his blood, the weak stomach, the continuous high pulse, etc., we cannot avoid the belief that recovery is nearly impossible.
 —We have just received the finest, best and largest stock of heating stoves that was ever brought to this country, at prices that will sell them. Come and make your selections early.

The Noted Train Robbers.

The publishers of "Border Outlaws" assert that their history of the Younger Brothers and Frank and Jesse James published six months ago, has already reached the enormous sale of more than 60,000 copies. Since the late robbery and double murder at Winston, Mo., they have issued a new edition, containing a full history of that outrage, with illustrations, which brings the events in the lives of these airy gentlemen of the highway, down to the present moment. For lively reading we presume this book can hardly be surpassed.
 Persons desiring agencies will find advertisement elsewhere.

For Sale.

A good second hand Hearse cheap—not wishing to keep but one.
 STEVENSON & CROSS.

—We hear a rumor of the street, but nothing authentic, that Emri Heady shot and killed Jim Miller, on Tuesday, this week, at or near Vesta, in Johnson county. Heady and Miller not long ago lived near this city and were brothers-in-law, Mrs. Miller being Heady's sister. Our meagre news is to the effect that Miller attempted to kill his wife, when Heady shot him.

—A nice line of guns just received at prices that will sell every time.

Is hereby given that I will examine all persons who may desire to offer themselves as candidate for teachers of the primary or common schools of this county, at the Court House, in Brownville on the first Saturday in each month.

"Wine is a mocker, and strong drink is raging." Take PRICKLY ASH BITTERS. It is not a beverage, but a remedy for all ill effects of an excess of intoxicating stimulants. Don't take drink before breakfast "just to wake you up," because you feel so stupid and languid. You are sure to feel worse as soon as the effect wears off. Take a half wine glass of PRICKLY ASH BITTERS. It will brighten you up for the whole day.

—We are doing a large trade in queensware and glassware. If you need any get our prices. We will save you money.

DRAKE'S
LITTLE GIANT POST,

Patented Oct. 15, 1872, by A. B. DRAKE, Clay Center, Kas.

Letter A represents a post, which has the iron rod B inserted at its foot, and thence extending perpendicularly downward to a sufficient length to secure a hold in the ground, where the said rod is bent at a right angle and is extended thence horizontally as far as necessary to secure the required firmness, and then it is bent upward at an acute angle to connect with the upper portion of the post A, and forms a firm base therewith, as shown in the cut. If deemed necessary, a stone or block of wood, or other substance, may be placed upon the horizontal portion of the rod, or the excavation may be partly filled with cement. The post or setting will be found to stand with unusual firmness and permanence.

Which these severe Frosts Will not effect in the least.

Fence posts used in connection with this improved setting may be made much lighter than usual, and the improvement is admirably adapted to various other uses besides fencing.

Democratic harmony in New York opens up like a tortoise shell Thomas cat chasing a rat across a tin roof. If Mr. Tilden will lay aside his whispering tube and seize his shot-gun, there will be some hope of a compromise, but nothing short of the Mississippi plan will work in New York.—Atlanta Constitution.

The inspired paragraphist of the Constitution gives a very accurate description of the Democratic harmony in the Empire State. They are now on the eve of the State convention, too. Again we read of Tammany delegates and anti-Tammany men from New York City. As heartily as we hoped that the old feuds were settled, such an idea turns out to be a delusion.—St. Joe Gazette.

The national convention of Free Thinkers met at Hornellsville, N. Y., the 2d inst. Five hundred delegates were present. They expressed unanimous sympathy with President Garfield by a standing vote.

Later news from the Indian war contradicts the report of Col. Carr's death, and says the battle was not nearly so disastrous as first reports made it appear.

The boss flour is made by Henry Shiffer at Homewood's. Call for Gold Coin.

E. J. HAWKINS, Proprietor.

At this Boarding House, though not a hotel, Travelers and boarders are always used well.
 The proprietor and lady are jovial and kind, and the waiters obliging as you'll commonly find.
 They set a good table, with good victuals on it,
 And have a safe place for your hat and your bonnet,
 You can have a good meal any time in the day,
 And get the full worth of all that you pay.
 If you are fatigued, they have seats that will ease you;
 And if you are hungry, their victuals will please you.
 If you think you'll do better at some other place,
 You will find upon trial that that's not the case,
 And now at the close, permit me to say,
 If weary or hungry, just call round this way,
 And I am quite sure it will never be said,
 I am sorry I came by any wise head.
