NEMAHA CITY. NEBRASKA ADVERTISER

—Mr. Williams, of Titus & Williams,
went down to St. Joe last week and
purchased a big stock of goods, em-
bracing everything attractive and good,
for ladies and gentlemen.

—The word in Nemaha is progress,
and new buildings are going up, im-
provements going on all over town.

—Nemaha merchants are all well
stocked up and having a good trade.

—Theodore Hill's new residence is
nearing completion. It will be not
large, but first class as to plan and
finish, in which respect it will excel
any residence in the city.

—J. S. Minick is doing a good thing
in having his two brick buildings on
the bluff repaired and fitted for occu-
pancy.

—Titus & Williams have the back
room of their building fitted for and
filled with ready made clothing. Step
back and see their splendid stock.

—Crim's boarding house is the best
one in town. And it is a good place to
get your dinner when in Nemaha.

—Nemaha has one saloon now,
which seems to be run with as much
care for law and order as it is possible
for a saloon to be run.

—Dr. Crim will soon remove his
house from St. Deroin to Nemaha, for
a residence.

—Bender, the druggist, has a big
stock of nice holiday goods.

—Dr. B. Bell Andrews may now be
found by the sick and afflicted in his
sung rooms up stairs in Crother's new
business house.

—Nemaha business houses should
consider the fact that every man, wom-
an and child—nearly—in and about
the city reads the ADVERTISER, making
it a good medium for advertising.

—Since the railroad reached Nemaha,
three years ago, its growth has not
been remarkable, or unnatural, but it
has been constant, healthy, and perma-
nent. Nemaha is a fixture, and will
so continue to enlarge and grow with
such permanent improvements as the
town and country demand; and there
will be no stop to it. Its prospects are
certainly as good, if not better, than
are those of any town in the county.
Several large business blocks will be
built here next summer.

—Hon. John Sobieski lectured to a
good house here Saturday afternoon.
He is a very interesting speaker.

—Born, Sunday night last, to Mr.
Daniel Maxwell, one set of twins—a
boy and a girl. That's business.

—John Crother and George Sanders,
harness makers, are doing a good busi-
ness. They do good and honest work
and if you want a harness put up, those
are the boys to do it.

—Young married people who are
getting their things together to keep
house, will find just what they want at
Titus & Williams. They have red
flannel, candy, rattle boxes, and all
such things.

We are getting cranky.—*Omaha Re-
publican.*
O, no. You was born that way.

Secretary Folger rejects all compro-
mise in the Chicago whisky case, in
which the revenue laws were violated.

Dr. Jos. A. Beggs, book keeper and
chemist of the Alice furnace, Ironton,
Ohio, was murdered on the 1st inst.

The *Omaha Republican* insults the
people with the proposition that a sub-
scription be started "for the purpose of
securing for Mrs. Garfield a life-size
portrait of that amusing little gentle-
man, Guiteau."

It is remarkable how little interest
genuine lunatics take in the perform-
ances of other lunatics.—*Omaha Re-
publican.*

That doesn't hold good so far as the
Republican is concerned.

Sylvester Franklin Wilson, who a
few years ago afflicted the people of
Humboldt, Neb., was recently in Phila-
delphia convicted of railroad ticket
scalping and sentenced to one year in
jail and to pay a fine of \$500.

President Arthur acts as though the
newspapers were crazy to print his mes-
sage. We will raise him ten thousand
dollars among the newspaper boys if he
will burn the old thing up and say no
more about it. Nobody wants to print
it, and nobody will read it but the
proof-readers, who have to.—*Omaha
Republican.*

That slush is all because President
Arthur has determined that the prac-
tice of stealing President's messages
and publishing them before they are
delivered shall not be practiced upon
him. No message was ever more gen-
erally read than Arthur's will be.

River Improvement.

The Missouri river improvement
convention which was held in St. Jose-
ph last week, consisted of about 125
delegates. The States of Missouri,
Kansas, Iowa and Nebraska were rep-
resented. The following preamble and
resolutions were adopted:

We, the people of the Missouri Val-
ley, in convention assembled, after a
careful and deliberate consultation,
hereby declare that the improvement
of the navigation of the Missouri river
is a matter of national interest and im-
portance; that if the millions of fertile
acres that lie upon its banks are afford-
ed the advantages of cheap water trans-
portation, its breadstuffs and products
will cheapen the cost of living through-
out the entire country; that in the dis-
tribution of public moneys for the im-
provement of the navigable rivers of
the country, the Missouri river has
been practically ignored; that the an-
nual appropriation of a few thousand
dollars for the improvement of this or
that harbor, or the protection of some
threatened point is of no advantage or
benefit in promoting the general use-
fulness of this waterway; therefore

Resolved, That we, the citizens of the
States of Missouri, Kansas, Nebraska
and Iowa, and the territories of Dakota
and Montana, in convention assembled,
do hereby appeal to the congress of the
United States for the appropriation of
a Missouri river commission to consist
of seven members, three engineers and
four citizens, one from Missouri, one
from Kansas, one from Nebraska and
one from Iowa; that an adequate ap-
propriation be made to be expended by
said commission for the general im-
provement of the navigation of the
Missouri river.

Resolved, That we hereby instruct
our senators and representatives in the
congress of the United States, to use all
efforts to secure the necessary legisla-
tion to accomplish these results.

Resolved, That the state delegations
in this convention shall appoint citi-
zens: three from Kansas, three from
Missouri, three from Iowa, three from
Nebraska, one from Dakota, and one
from Montana, who shall form a com-
mittee to memorialize Congress, prepare
and present statistics and in every leg-
itimate manner aid our representa-
tives in securing from congress ade-
quate appropriations for the improve-
ment of the navigation of the Missouri
river. Adopted.

Resolved, That the whole proceed-
ings of this convention be published in
pamphlet form and distributed gener-
ally among the citizens of the Missouri
Valley and the senators and representa-
tives in congress.

Resolved, That we are in hearty ac-
cord with the plan for the improvement
of the Missouri river and its tributaries,
and urge upon the attention of congress
the importance of making a liberal
appropriation therefor.

Joe Harris, was hanged at Rogers-
ville, Tenn., for the murder of two men

murdered in bed and then robbed.

dy, were murdered near Rio Grande
city. A large sum of tax money which
they had been collecting was taken.

miles from Winterset, Iowa, was burn-
ed 2d inst., and his three daughters,
aged 9, 12 and 17 years were burned to
death.

At Decatur, Ala., in a riot among the
miners two negroes were shot and
killed by a policeman. The policeman
was arrested, and exonerated—of
course.

Mrs. L. C. Brand, of St. Joseph was
bitten by a rat while asleep, on the ball
of the great toe. In a few days the
foot began to swell and pyemia set in,
resulting in death.

On their farm near Thompsonville,
Ga., the wife and child of M. Clemis
was murdered on Thanksgiving day
while the husband and father were
away from home.

Mrs. Henry Inham, of Battle Creek,
Mich., who went fourteen months with-
out food, has a fair chance for recov-
ery. Paralysis of the stomach occa-
sioned this long fast.

Geo. N. Eddy, a freight conductor on
the M. P. railroad, was killed on the
24th inst., near Warrsburg, Mo. He
was struck by a bridge while leaning
out of his car looking back.

A man named H. O. Downs, of Lin-
coln, wants to know the whereabouts
of a woman with seven children by the
name of Downs, supposed to be some-
where in this part of Neb.

Sung Amnor, colored was hanged at
Crawfordsville, Ga., for the murder of
Amos Ellington; and Richard James,
colored was hanged at Marion court
house for the murder of James Har-
rison.

Mrs. Emaline L. Mosker, of Montpel-
ier, Vt., convicted of murdering her
child, has been sentenced to confine-
ment in the state's prison till the last
Friday of March 1883—last three
months solitary—and then be hanged.

Dr. John H. Stevens, Stonewall
Jackson's principal surgeon in the late
war, was found dead in his office at
Dallas, Texas, Friday evening, into
which he had gone after returning
from a pleasure ride.

Mr. Lorillard, the tobacco man, who,
current rumor says, is to marry Annie
Louise Cary, has lost his "dawg," a
black poodle, and offers \$500 reward
for its return. Mr. Lorillard evidently
has more money than dogs, not to men-
tion brains.

At Columbia, Mo., while some twen-
ty-five or thirty boys and girls were
skating on Samuels' pond, 24th ult.,
the ice suddenly broke, and John Gath,
Theodore Murphy, and Maggie Buch-
ner, all about 16 years old, and mem-
bers of well-known families, were
drowned.

A large octopus, or devil-fish, was
captured at Portugal Cove, Newfound-
land, Nov. 10. The length of the body
is 5 feet 6 inches; of the head, 1 foot 3
inches, and the total length to the ex-

trinity of the long tentacle is 28 feet.

Between San Antonio and Corpus
Christie, Texas, the stage was stopped
25th ult. by two masked men, who
riddled the mail bags and got a small
amount of money from Frank Hanly,
the only passenger.

H. W. Burton, the most notorious
stage and mailbag robber of the west,
was recently taken from Colorado, in
charge of a U. S. Marshal, to Detroit,
Mich., to be incarcerated in the govern-
ment prison. His sentence is 99 years.
Five years ago Burton was sentenced
to life imprisonment in West Virginia,
but President Hayes pardoned him
after he had served about three years.

Attention was called the other day
to an independent movement in the
Democratic party of North Carolina,
similar to that led by Mahone in Vir-
ginia. Now it develops that the
younger portion of the Democratic
party in Arkansas is organizing a mu-
lty against the old Bourbon organiz-
ation, and there is a probability that
they will unite with the Republicans
in supporting a fusion ticket at the
next election. Thus is the seed sown
in Virginia bearing fruit.—*Inter Ocean.*

It turns out that nearly all the cele-
brated newspaper extracts which are
said to have inflamed the mind of
Guiteau, and which have been so long
paraded as the expressions of "Stal-
wart" papers, came from the columns
of the *Brooklyn Eagle*, the leading
Democratic journal of New York.—
Indianapolis Journal.

Among the items treasured by the
assassins were those showing the move-
ments of the President; when he would
depart for Long Branch, and when re-
turn. For some weeks Guiteau, by his
own acknowledgments, was a sharp
detective, dogging the steps of the Pres-
ident. If Blaine and Garfield had done
like General Logan, fired him out,
the disaster might have been averted. It
was a mistaken courtesy and leniency.—

While the want of fuel is the great-

most severely felt, we desire to remind
our rural friends that the most severe
blow that can be dealt the coal-carrying

of a few thousand quick-growing
