—Whilst the Slocumb law put up numerous and divers bars against the saloon business, it threw down one important one in the repeal of the whole of chapter 53 of the revised statutes, section 580 of which provided that debts contracted for intoxicating liquors in retail quantities were not collectable by law. There was a case in point before Judge Hulburd this week in which a saloon keeper was permitted to offset a laborer's account for work, with a whisky bill which the laborer had contracted from time to time; the court holding that as the Slocumb law repeals, without exception or qualification chapter 53, whisky debts are valid as any other debts. And Judge H. was doubtless correct in his judgment.

We publish in another column a letter from Hon. John L. Carson, one of the Regents of the State University. It is conclusive in exonerating him from the charge of violating pledges made at the time of his nomination.—*Falls City Journal*.

There should not a doubt exist as to the truth of what Mr. Carson says about promises and pledges. There should not a doubt exist that Mr. Carson has acted conscientiously in voting for the removal of those three professors, that he believed there was sufficient cause, and that he was not in any degree controlled by malice or other motive than the best, with the good of the institution and his oath of office in the foreground. Knowing Mr. Carson intimately for the greater portion of more than twenty years, and never knowing him to do any act in business, politics, or otherwise, that did not conform to the strictest rules of honor and integrity, we could as well doubt that the sun would fall in its rising to-morrow morning, as to doubt that John L. Carson acted without the best of motives and, to him, ample reasons, which would embrace something more culpable than honest religious convictions; and he is certainly a man of good mind—logical and deliberate, and what he would do thousands of others would do were they in his place. Some who do not know him may deem it strange that Mr. Carson did not anticipate the storm that his vote would create and the criticisms it would elicit upon himself. But those who know him know that Carson dares to do right, and if he fails, his error will be of the head and not of the heart—when he became convinced that professors Church, Emerson and Woodberry ought to go out, that was sufficient for him to fix upon a course to pursue, regardless of what the world, the flesh or the newspapers, might think or say about it.

The building is newly painted, and being located in a natural grove, in a good neighborhood, and supplied with a lightning rod, complete spouting, and a good cistern; is, everything considered, a very desirable property for a small family, or for a group of students desiring to board themselves while attending the State Normal School. It rents readily at the rate of \$100 a year. The title is perfect and clear of all incumbrances. Will be sold cheap for cash, or exchanged, on liberal terms, for a small farm, or for live stock. —On and after March 2d the NEBRASKA ADVERTISER will be printed and published at Calvert. Same publishers, G. W. Fairbrother & Co. Will our exchange contemporaries please notice the change, and send their papers to Calvert instead of Brownville. The office will be removed to Calvert the latter part of next week. The ADVERTISER and COURIER will be consolidated, or rather the latter will be absorbed by the former. Those who now take both papers will be furnished the ADVERTISER and fully credited on the latter subscription for over pay on the COURIER. The old paper will maintain its present form and size, with improvements in make up and typographical appearance, and will be enlarged when business will justify it. We will have more to say of the "whys and wherefores" of the removal by and by.

Guilty of Wrong.

Some people have a fashion of confusing excellent remedies with the large mass of "patent medicines," and in this they are guilty of a wrong. There are some advertised remedies fully worth all that is asked for them, and one at least we know of—Hop Bitters. The writer has had occasion to use the Bitters in just such a climate as we have most of the year in Bay City, and has always found them to be first-class and reliable, doing all that is claimed for them.—*Tribune*.

No More Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of employing expensive, quack doctors or using so much of the vile humbug medicine that does you only harm, but put your trust in that simple, pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health. See another column.

—The county commissioners meet Thursday this week to decide whether the railroad suit shall be withdrawn. Mr. Daily we presume is exceedingly anxious about the matter, as are the people of Brownville and London. With the latter it is a matter of great general and local interest, while with Mr. Daily we understand it is more of selfish and personal nature.

A Woman's Experience.

Mothers and daughters should feel alarmed when weariness constantly oppresses them. "If I am fretful from exhaustion of vital powers and the color is fading from my face, Parker's Ginger Tonic gives quick relief. It builds me up and drives away pain with wonderful certainty."—*Buffalo Lady*.

The B. & M. in Nebraska—Prospective—Dawson to Aspinwall.

A correspondent of the Chicago *Times* recently furnished the following news from Pawnee City:

Your correspondent to-day interviewed a gentleman prominent in connection with railroad building on the subject of railroad construction by the Chicago, Burlington & Quincy in 1882. In substance his statement was as follows, and is accurate, as he speaks by the books:

"The contractors now, pushing the Denver extension of the Chicago, Burlington & Quincy not only have orders to crowd that work as rapidly as possible, but also to hold all the large force and be prepared to begin grading on one of the four branch lines in Nebraska and Kansas, which are decided upon by the authorities. These four lines are the 'cut-off' from Hastings, Neb., to Arapahoe; from Chester, in Thayer county, Neb., to Great Bend, Kan.; from Pawnee City, Neb., to Topeka, Kan., and Kansas City; from Dawson, Neb., to Aspinwall, where the Missouri will be bridged. The last mentioned line will be the last connecting link on the great air-line through southern Iowa and southern Nebraska to Denver."

Which of these lines would be built first my informant was not able to say. In answer to a query as to the policy of building the road from Pawnee City, on the through line mentioned above, in southern Nebraska, to Topeka and Kansas City, the gentleman made this statement:

"The 'cut-off' from Hastings to Arapahoe will shorten the line from Omaha to Denver thirty miles, giving the Chicago, Burlington & Quincy the advantage in the Omaha, Lincoln and Denver business. The Pawnee City and Kansas City branch will give them the advantage in the Kansas City and Denver traffic, as competing with the Gould roads, placing Kansas City, Topeka, Leavenworth, and Atchison in the shortest possible distance from Denver. But the line through southern Iowa, crossing the river at Aspinwall, and passing through the southern tier of counties in Nebraska, is the shortest line from Chicago to Denver, and must become the great through route for all traffic between those two points. The company esteems this line its most valuable property."

It is singular that the "prominent gentleman" who knows so much about the B. & M. omitted to tell what great end was to be achieved by building the road from Calvert to Tecumseh, now being vigorously worked. The p. g.'s knowledge of a great through line is probably more imaginary than real. The logical conclusion, from events matured and maturing, is that Nemaha City, Calvert, Tecumseh and Beatrice will be points on the "shortest line from Chicago to Denver."

PLOW BOYS, McGee & Moore can sell you the best Plow shoes made.

Church Howe will soon be as great a newspaper monopolist as Jay Gould. He is supposed to own a controlling interest in the Brownville ADVERTISER, Calvert *Courier* and Sheridan *Post*. If he only had the *Granger* he would be solid in Nemaha county.—*Falls City Journal*.

So far as the ADVERTISER and COURIER are concerned Church Howe does not own a dollar in either of them. Will the *Journal* give us the benefit of this correction? Mr. Howe, a few days ago, paid off a lien that Win. Daily had against the *Post* and took a half interest in that office to secure him.

As to the *Granger*, the office, we understand, is owned entirely by the brother of the editor, who resides in Maine; and Mr. Howe only owns a controlling interest in the editor, who always does in election matters just as Howe tells him to, and this he does regardless of what he pretends to do. This is why he supported McGrew at the last election in an underhanded way, for county clerk, while openly he pretended to support Docker. This is why he always supports Mr. Howe when the latter runs for office. So the *Journal* can count the *Granger* for Howe, when he wants it for him, just the same as if he owned a controlling interest in the type, ink and presses. And by the way we will say for Mr. Moore's credit, that in always supporting Mr. Howe he pays a debt of gratitude, for Howe's is the hand that has been generous to Moore in keeping the *Granger* afloat, and without which it would have went under. Mr. Moore however has the unpleasant habit of pretending to get down on Howe occasionally and then coming around all right for him at elections—the same being hypocrisy.

BROWNVILLE, Feb. 10, 1882.

Editor Advertiser.

In your issue of Feb. 9th I read an article from "Pla dealer." I could not help thinking how characteristic of a third-grade preacher. Every word in that article showed the extreme mercenary disposition of the writer, whoever he may be.

1st. He wants a good salary, then a comfortable home furnished him. Now you see he is finding out that he has been living too fast.

2d. Fulfill your promise, not stingily but liberally. Now you see he is going to show his cloven-foot.

Thirdly, let him know that you respect him, and visit him often, and never go empty-handed. Now that means for you to steal from your hard-working husband and needy children that you may give to him, the well paid pastor of an indulgent church, and if he bores you to death by coming to stay all night, why take your tender babe and go sleep in the barn. Make him comfortable if every member of the family perish; for is he not your well paid pastor? What is your comfort to be compared to his, when he takes a notion that he is going to crowd you out of your bed in mid-winter.

Fourthly, anticipate all his needs. Don't let him have to ask for anything. Why if that is the way you want preachers lionized, my own John will want to be a pastor, too, which Heaven forbid!

Fifthly, be sure and fill your place in the chapel every time he is going to murder the Bible, whether you have anything left to buy clothes or not. He does not expect you to appear well dressed; he knows you have given all to him and you are expected to be happy.

Further, he says if you do these things faithfully and he is a man of God, you will have a good preacher and pastor, but if you don't do those things he is going to let you know that he is not a man of God. For he is only a man of God just so long as you give him a good salary, comfortable home and carry him something every day and keep him in luxury and idleness while your own family are destitute and your husband overburdened with care. No, Mr. Pla dealer, live within your salary; so says

AN OLD CHURCH MEMBER.

Private Boarding House.

On the first of March Mrs. Worthing will open a private boarding house at her residence in Brownville. Her facilities are such as to make her boarders comfortable, and her terms will be as reasonable as can possibly be afforded. Ladies and gentlemen desiring comfort and convenience at a private boarding house are requested to call, and see her.
