than a year.

T. A. Bailey, who is buying stock at

picking through the county, the high
prices lately prevailing having cleaned
the stock pretty well out.

Hon. Church Howe lately sold to
Palmer, of Kansas City, three carloads

488 pounds. It seems to us that there

Vennor, the Canadian weather man,
has just been delivered of another pre-
diction, which he claims is a forecast
of the weather we are to have this
summer. He says we are to have cold
and rains most of the time and rains
and cold the balance. Van. is a gloomy
old croaker, in whose predictions we
have little faith.

fail to call and examine their stock.

Linn & Cooper shipped a car load of
hogs to Kansas City on Monday. Hogs
are as scarce in these parts as ugly
women, and the collection of a whole
car load is quite an event. Of course
we mean a car load of hogs—not
women.

Whenever you feel discouraged and
out of sorts take a walk or drive a mile
or two out in the country, and if your
case is not altogether hopeless you will
see that which will brighten your eyes
and bring gladness to your heart. It's
enough to put life in a dead man to see
the way the crops are coming on.

Mr. Pat Daugherty is contemplating
an extensive tour through the east the
present month. He intends to start
for Boston on the 15th, stopping while
on his way in Chicago and New York
City, and returning home in June with
his daughter, Miss Katie, who has been
visiting in Boston for several years.

The attention of D. J. Wood, A. V.
Walsh, and "Scribbler," the sweet
singer of North Auburn, is directed to
the following poetic gem, which we
clip from the Denver Tribune. The
name of the gifted authoress is Claris-
sa Melissa Churchill. Hear her:

The cabbage lifts upon the plain his green, ma-
jestic head;
The ripening grain, the purple vine, with a world
of garden truck,
Come in the golden harvest-time to sustain the
miner's pluck.

Ah, Canaan! Loveliest village of the Colorado
plain,
Thy life is agricultural, with slow but steady gain.

Dr. Messler has a new style of Pivott
teeth he inserts on the roots of natural
teeth. This is a new process, and one
of great importance. Read the fol-
lowing:

FALLS CITY, NEBR., May 24, 1881.

I would say to all persons with bad
teeth, call on Dr. Messler, and consult
him concerning his modes of treating
teeth.

I had three teeth, or rather roots of
teeth, which I considered useless, but
while the doctor was filling some other
teeth he called my attention to them,
informing me he could pivott to them.
I objected, thinking it the old-fashion-
ed wooden Pivott, which was objec-
tionable, but this is an entirely differ-
ent plan. After the operation, which
was not at all severe I felt a slight in-
convenience for several days, but I
now use them, and do not know I have
a false tooth in my mouth.

I recommend the doctor, having em-
ployed him for eight or ten years.

Respectfully Yours,
CHAS. STEEL.
