Vennor has published an article on the weather of 1882, from which we glean as follows: First, A season that will merit the designation of cool to cold and wet generally. A few days of intense heat. Second, The season will be marked by not only great precipitations, but by a mugginess of atmosphere generally, caused by the reeking condition of the earth, and the long continuance of clouded sky. This will result in periods of extreme sultriness and heavy weather, during which the thunder and hail storms will occur. In other words, the summer will be the reverse of hot and dry. A likelihood of June and August frosts in northern, western and southern sections, and a general cool wave in mid-summer. Autumn will continue moist. Early cold and snow falls. The winter of 1882-83 likely to be memorable for heavy snow falls and very cold weather all over the northern hemisphere.

Lady Jesse James, to a reporter, denied that her bloody-handed husband had done all the robbing and murdering that he had been charged with in the last fifteen years, and thinks therefore that he has been much abused, and deserves great credit. She says all the money he ever got out of his raids would not exceed \$100,000.

Fine line of ladies' slippers at J. L. McGee's, Brownville.

A few weeks ago we printed in our columns the subject of a general dispatch that a colored boy in Baltimore had been successfully "picking" Yale locks, in general use in postoffices, with a thin piece of steel or iron. This, we presume, a mistake, from the fact that the Yale Lock Manufacturing Co., of Stamford, Connecticut, has commenced suit, claiming ten thousand dollars damages, against the Baltimore postmaster, alleged to have started the story.

The following from the Grand Island Independent is the truth we think: "Some of the old ring papers are attempting to ridicule Senator Van Wyck on whatever he undertakes for the interests of the people. The Senator is a plain-spoken, hard-working man, and is in no wise a trimmer. He has convictions of his own, and they are generally sound, and he is not afraid to speak out and let the world know what they are. He is making an earnest effort to do all in his power for the material interests of Nebraska and for the people, and when the political barnacles and trimmers begin to howl it is fair to presume that he has tramped upon their corns in some way."

PRICKLY ASH BITTERS

The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and sluggish action of the Bowels, Headache, Sickens of the Stomach, Pains in the Back and Loins, etc., indicate that the Liver is at fault, and that nature requires assistance to enable this organ to throw off impurities.
Prickly Ash Bitters are especially compounded for this purpose. They are mild in their action and effective as a cure; are pleasant to the taste and taken easily by both children and adults. Taken according to directions, they are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc. As a Blood Purifier they are superior to any other medicine; cleansing the system thoroughly, and imparting new life and energy to the invalid. It is a medicine and not an intoxicating beverage.
ASK YOUR DRUGGIST FOR PRICKLY ASH BITTERS, and take no other. PRICE, \$1.00 per Bottle.
