Tricky Tom, the illustrious delinquent of the fraudulent census stink, says it is a political necessity to crush Church Howe and THE ADVERTISER. Tom takes up the crushing business where Bill Daily left off. Ha! ha! THE ADVERTISER and Church Howe never before were so strong as to-day.

We have lately received a very pleasant and entertaining letter from our former townsman, Dr. A. L. Fulton, who is now practicing his profession at Astoria, Oregon. The doctor is well and happy, and is satisfied with his prospects, all of which we are glad hear.

Further developments in the Majors' fraudulent census matter leave little doubt that our "delinquent" is solely and wholly the guilty party. It now appears almost certain that Majors filled up Alexander's blank certificate himself in which he inserted the census figures of 1874 instead of those of 1872, and that in doing so he imposed upon the secretary of state who trusted to Majors' honor to fill in the correct returns. It further appears that in filling up the blank he attempted to imitate the writing of Dr. Schwenk. This was all absolutely perfidious, and the more so from the fact that Secretary Alexander and Dr. Schwenk took the risk they did of betrayal without any further interest in the matter than the accommodation of their friend Majors, whom they desired to see succeed to a seat in Congress. Thomas is in an awful bad fix as a political reformer. Church Howe you know has always been too corrupt for a Majors' stomach or the stomach of a Majors' capper.

Some time ago a popular preacher in Milwaukee circulated a petition amongst the business men calling for the enforcement of the Sunday law. Now be it known that Milwaukee is a city known for her brewers, breweries, beer, beer gardens and beer drinkers. And the ire of everything inspired by or pertaining to beer was intensely provoked by said petition, and inspired resolutions to boycott every signer thereof—that is, to withdraw all patronage from the business men whose names appear on the petition; and the brewers have the power, money, influence to hurt whomsoever they will. The preacher has found things so hot for him since he undertook the reform that he has abandoned the field to beer, and the impression is that the pious business men who signed that petition then and there bit off more than they can chew.

The most outrageous and cowardly murder that has occurred in the south, for political purposes, for some time, was the shooting down of Col. Blair at Columbia, S. C., on the 4th inst. Blair was 70 years old, was high minded, honorable, popular, but—he wasn't a Bourbon, and more than all, and that which demanded his blood, was the fact that he was the Greenback candidate for governor and stood the best chance of an election. Democracy could not admit this. He must be defeated. And a bulldozer by the name of Capt. Haile—a true son of South Carolina chivalry—while the old man was unarmed, attacked him with a Winchester rifle, and riddled him with bullets. Haile is a cowardly dog, and a murderer, but, he was not even deprived of his liberty a moment.

A meeting of grain men representing the Produce Exchanges of Boston, New York, Cincinnati, Toledo, Indianapolis, Detroit, and Chicago was held in Toledo, recently, to establish an international grade of No. 2 red wheat. St. Louis declined to participate. For universal trade No. 2 red wheat is established as red winter wheat—sound, plump grains perfectly clean, and to contain not more than 10 per cent of white wheat.

The following curious statement, in print attracts our attention: Broom corn is likely at no distant day to revolutionize the breadstuff supply of the world. A process has been discovered by which the finest and most delicious flour can be made from the seed to the extent of one-half its weight, and leave the other half a valuable food for making beef and milk. The average yield per acre is 300 bushels.

The Hon. Lorenzo Crouse, U. S. internal revenue collector for the district of Nebraska, is now an openly avowed candidate for congressman in this district, and having had the experience of two terms in congress, it is thought he will prove a very formidable candidate before the Republican convention.—Grand Island Independent.

After Valentine's shoes.

The Democracy of Georgia have nominated Alexander H. Stephens for governor. This was a bitter dose for the Democrats, but as he could beat any other man in the state, they took him to keep him from being brought out by the independents. They had to either nominate him, or kill him, in order to insure the success of the Democratic ticket.

On the 19th inst. Hon. Robert Smalls, a colored gentleman from South Carolina, was admitted to a seat in congress. He took the seat of a tissue ballot fellow named G. D. Tillman. Tillman stepped out and Smalls stepped in. It's mean to steal a colored man's seat, and exceedingly humiliating to be exposed and ousted by a colored man.

The London Times expresses the belief that the opposition in parliament will move a vote of censure on the dilatory action of the government after the massacre at Alexandria in June, and its want of foresight and preparation when the bombardment of that city had been decided upon.

Mr. Frank Morris well-known in this county and elsewhere as a first-class miller, has been engaged to take charge of the Curtis mills (formerly Allen's) and we congratulate Mr. Curtis, and as well all those who patronize his mill in his good luck in securing the services of Mr. Morris. His mill has always had the reputation of making a superior quality of flour, and the aid of this old expert flour maker is sufficient guarantee that the flour will not retrograde nor the mill suffer in reputation.
