Railroader's Relief.

That most comfortable Ticket Office, 187 West street, New York, is presided over by Mr. C. V. V. Ward, who thus addressed one of our representatives recently: "Some months ago I had rheumatism in my right arm, and was unable to raise it. I was advised by a friend to use St. Jacobs Oil. I did so, and before the second bottle had been exhausted my arm was perfectly well.—*Brooklyn Eagle.*

A Brave Recruit.—Tom was a very good boy, sharp and intelligent, but had the reputation of being a coward. Almost anything would excite his nerves or timidity. But he got patriotic when the war began and entered in the three months' service. He was in the skirmishes on several occasions, but was in no regular battle. He behaved splendidly, and almost blotted out the reputation he had at home. The boys in his company had all confidence in him. When Tom returned home he knew more of the world than he did when he left. Some of his old chums who did not go to war edged around him to hear him talk. "Boys, you may laugh and wink," said Tom, "but you don't know what hard times is; you couldn't spell it in less than three months." "Tell us, Tom, how it was." "Well, sir, for a whole week at a time we had nothing but hot biscuit, butter and chicken and all such light diet as that to live on. It's no wonder I am weaker." "Well, Tom, how about the fighting?" "I'll tell you; according to my record, I killed as many of them as they did of me!"—*Detroit Free Press.*

It Will Never Do.

It won't do to neglect such symptoms of ill-health and approaching decay as sediment in the urine, painful urination, milky urine, etc. When thus afflicted the kidneys and urinary system need immediate strengthening, else loss of memory, universal lassitude disturbing dreams and general prostration follow in their turn, and a shattered nervous system and broken constitution makes life miserable, and premature death or paralysis inevitable. To counteract the effect of such an unnatural drain, use Dr. Guysott's Yellow Dock and Sarsaparilla. It will strengthen the parts affected, stop the unnatural drain and check all decay.

Hanlan is not interested in mining operations, notwithstanding he has made so much money out of his oar.—*Boston Transcript.*

A writer signing himself "A well man," writes: "I was ill for years with weakness. Milky urine, palpitation of the heart, bad dreams, etc., were some of the symptoms. I took two bottles of Dr. Guysott's Yellow Dock and Sarsaparilla and now can sign myself a well man."

Nonpareil Velveteen.

"Another velvet season is one of the certainties announced thus early by the merchants. The best service is given by the close, short pile velvets, such as the Nonpareil Velveteen, which is not easily marred or crushed. The Nonpareil Velveteen is found in all the stylish new shades, and when made up, with the pile turned upward, it cannot be distinguished from silk velvet. The difference in the price makes a garment cost about one-third as much as if made of Lyon's silk velvet."—*From Harper's Bazar, September 2.* To be purchased from all first-class dry goods retailers.

***"Unbidden guests are often welcomest when they are gone." Disease is an unbidden guest which Kidney-Wort almost invariably "shows the door." Here is a case in point: "Mother has recovered," wrote an Illinois girl to her Eastern relatives. "She took bitters for a long time but without any good. So when she heard of the virtues of Kidney-Wort she got a box and it completely cured her, so that she can do as much work now as she could before we moved West. Since she got well every one about here is taking it."

A FATAL MISTAKE.

How a Blundering Judgment May be Responsible for the Most Serious Results.

—Mr. Edwin Booth said recently that he supposed his lungs were affected, having a persistent cough, until he saw Dr. Mackenzie, of London, who found that this symptom arose from a disturbance of the liver.—*N. Y. Herald.*

The above item, which has been going the rounds of the press, is of no special significance other than to the personal friends of Mr. Booth, except that it brings to light a truth of the greatest importance to the world. Few people pass through life without the affliction of a cough at some point in their career. In most cases this is considered the result of a cold or the beginning of consumption, and thousands have become terrified at this revelation and have sought by a change of air and the use of cough medicines to avert the impending disaster. It may safely be said that more than half the coughs which are afflicting the world to-day do not have their origin in the lungs but are the result of more serious troubles in other organs of the body. "Liver coughs" are exceedingly common and yet are almost wholly misunderstood. Arising from a disordered state of the liver they show their results by congesting the lungs. In fact, the efforts of the liver to throw off the disease, produce coughing even when the lungs themselves are in a healthy state.

But it is a mistake to suppose that such delicate tissues as the lungs can long remain in a healthy condition when they are being constantly agitated by coughing. Such a theory would be absurd. Consumption, which was feared at first, is certain to take place unless something is done to check the cause. This must be plain to every thoughtful mind. It stands to reason, therefore, that the only way in which "liver coughs" can be removed is by restoring the liver to health.

In this connection another fact of great importance becomes known, which can best be explained by the relation of an actual event. Mr. W——, a wealthy cattle dealer of Colorado, became greatly reduced in health and came east to Chicago for the purpose of being cured. He consulted Dr. J——, one of the leading physicians of the country on pulmonic subjects and began treatment for the cure of his lungs. But his cough increased while his strength decreased. Finally he determined to consult another physician and applied to Dr. B——. After a careful examination he was informed that his lungs were perfectly sound, while his kidneys were in a most terrible condition. He had all the apparent symptoms of consumption but he was suffering from the terrible Bright's disease. The symptoms of consumption are often the sure indications of Bright's disease.

The above truths regarding coughs have been known by the leading physicians for several years but the public have never been informed of them. They are serious facts, however, and should be understood by all, so that dangers which might otherwise prove fatal may be avoided. They clearly prove one great truth which is, that the kidneys and liver are such vital organs that their health should be constantly guarded. The distressing, hacking cough, which is often dreaded as the forerunner of consumption and the wasting strength which accompanies it, in all probability may arise from weakened or diseased kidneys or liver, to restore which would cause returning health. How this most desirable end may be attained has long been a problem, but few people of intelligence at the present day have longer any doubts that the popular remedy known as Warner's Safe Kidney and Liver Cure has done more to correct, relieve and restore these organs than any other preparations ever before known. There are hundreds of instances which have occurred within the past three months where individuals have believed themselves the victims of consumption, when, in reality it was deranged kidneys and liver, which this remarkable medicine has completely cured, as witness the following statement:

Buffalo, N. Y., July 6, 1882. I believe it to be a fact that thousands of cases of so-called consumption can be successfully treated by simply using Warner's Safe Kidney and Liver Cure as directed. I was one of the "given up to die" persons—had every symptom of the last stage of consumption—bad cough of four years standing, night sweats, chills, etc., etc. A season South did no good, and the fact was the case looked discouraging. I took Warner's Safe Kidney and Liver Cure, and in three months I regained over twenty pounds, and my health was fully restored. W. C. BEACH,
Foreman Buffalo Rubber Type Foundry.

There are thousands of people in America to-day who believe they are the victims of consumption and destined to an early grave and who are trying to save themselves by the use of consumption cures but are growing worse each hour. Let all such persons stop, and calmly consider whether they are not seeking to check a disease in the lungs when it is located in the kidneys and liver. Let them then treat the disease in its original stronghold and by the remedy which has been proven to be the most effective and then look for the return of health and happiness which such treatment is sure to bring.

Gentleman on the car takes an excellent cigar from his pocket and just as he is about to light it recollects that his fellow-traveler may object to tobacco-smoke. Accordingly, the cigar between his finger and thumb, he turns to his vis-a-vis and says politely: "I beg pardon, sir, but perhaps——" "O, thank you; with pleasure!" And the other traveler takes the cigar and smokes it. (P. S. —Of course it was the polite man's last weed.)

Honored and Blest.

When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies, the most wonderful medicine was produced which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were skeptical; but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that *great medicine*, Hop Bitters, are honored and blessed by all as benefactors.—*Democrat.*

THE ELIXIR OF YOUTH!

How old age was restored to youthful vigor.

Geneva, Kane Co., Ill., Sept. 20, 1881.

To the proprietors of Burdock Blood Bitters, Buffalo, N. Y.:

Gentlemen—I purchased a bottle of your Burdock Blood Bitters, and saw a request to be informed of its effects. I therefore give you a brief history of my case. I was taken four years since with paralysis, and my case was supposed to be hopeless. I employed a physician until I was able to sit up, when I concluded to manage my own case, as I was so far advanced in life it would only be possible to survive a short time, being now a little over eighty years of age. I tried many remedies, and notwithstanding the persevering use of them, I found no permanent benefit until I used your Burdock Blood Bitters, which I found to suit my case exactly, and I feel rejoiced to have found a medicine of true worth and so full of life-giving principles. Its beneficial effects were manifest from the first, and I now feel almost the vigor of youth again. This is my experience with your Burdock Blood Bitters, to the merits of which I am very ready to give my testimony.

Yours respectfully,
D. W. HOWARD.
