We learn that Charley Keiswetter, at Tecumseh, last week in some way got his leg under the wheels of a railroad car, and lost a foot thereby.

Mr. Smith, the surveyor for the Lincoln Land Company, is engaged in laying out into town lots the forty acres of land which lays between North and South Auburn.

Jim McNaughton—of the First National Bank—in his speech at the monarchical convention said, "We have been laboring with Mr. Broady all day to prevail upon him to accept the nomination for senator. Mr. Broady is the man the people want. But his business, he thinks, will not permit him to accept. We are truly sorry, therefore I name J. B. Fisher, of Aspinwall, for senator." That speech was not so complimentary of Mr. Fisher.

An Iowa paper hits the nail on the head when it says that a paper may labor for years for the best interests of a town, in every conceivable manner, and it is never spoken of by the citizens. It is not even mentioned to the editor—all of his efforts being treated as a matter of no consequence, or as a matter of course; but let the same editor insert a four-line paragraph that in the least reflects discredit on the town or its prosperity, then he hears from some one at once.

The Lincoln News gives several gentlemen a gratuitous airing. It seems that city has been recently infested by a number of "cloth men," who palm off a very inferior article of goods upon the "innocent" by taking their notes for the same. They also tried the "carpet dodge" and sucked in a great many in that way. The News says "buy of your home dealers, and not of traveling frauds." There have been several such gentlemen in this community of late, and we unhesitatingly say, buy of the merchants who own property here and pay a tax, and give all such traveling outfits the "go-by" and a wide track. They are frauds of the first water.

The Manufacturer's Exchange says: The overhaul train to Denver by the Great Burlington route has leaped into popularity. Its speed and comfort are unexcelled, and the eight or ten dozen cars of which it is daily composed are always comfortably filled. The B. & M., as it is familiarly called, is making ample efforts to provide facilities for moving speedily the great crops of Nebraska. Of course, every man will not be enabled to send his grain to market at the same time, but more grain and other produce will be kept moving than by any other road—or system, it would be better to say—in the west. Its track and rolling stock are all in superb shape and the management will cause them to be employed to the best possible advantage. There will be busy times for the next eight months.

For twenty years the American Agriculturist, now in its 45th year, has been recognized as the leading agricultural journal of the world. Notwithstanding its past wonderful career, it now enters upon a new era, and proposes to excel its past accomplishments—moving forward to fresh conquests. The October number appears in a new cover, new dress, new type, new engravings, with new artists, and additional editorial writers, making altogether the most superb periodical of the kind ever issued. From this time forward the American Agriculturist is determined to avail itself of the best brain power, and the first artistic talent in the country. The proprietors have but to point to its past record as a guarantee of our promises for the future. Never before in its career was the journal so prosperous as now, and at no time since the first year immediately following the war have subscriptions come in so numerously as they are now coming. We confidently believe that the American Agriculturist is the best paper in the United States for other journals to club with, being exclusively agricultural in its character, as it is, and thus competing with no local journal. Price \$1.50 a year, single copies, 15 cents. ORANGE JUDD COMPANY, DAVID W. JUDD, Vice-President. SAMUEL BURNHAM, Sec'y.

PETERSON'S MAGAZINE for November is on our table, ahead, as usual, of all others. How the publisher can afford, not only to maintain its merit, but to keep improving it as he does, is a standing wonder. The present number, for example, has a beautiful steel-plate, "Little Red Riding Hood;" a double-sized colored steel fashion plate; another exquisite engraving, "The Falling Leaves;" a spirited illustration of a poem, "Nearing Home," a ship in a storm on Thanksgiving Eve; and about fifty wood-cuts, in addition, of new dresses, bonnets, embroidery patterns, etc., etc. Then there is a beautiful colored pattern, "Cherries and Leaves," for a side-board cloth—one of those costly and recherche affairs only to be found in "Peterson." The stories are even better than usual, which is saying a great deal; for thirty years they have been the best in any lady's book. With this number appears the prospectus for next year, when six copyright novelets will be given, and more than a hundred shorter tales, many of them illustrated. For 1883, the reading matter is to be greatly increased. Undoubtedly, "Peterson" is not only the best, but the cheapest magazine of its kind, being but two DOLLARS a year to single subscribers. To clubs, it is cheaper still, viz: four copies for six dollars and a half, with an extra copy to the person getting up the club. Or five copies for eight dollars, with both an extra copy and the copyright engraving (20 inches by 27), "Christ Before Phate," after Muncak's world-renowned picture, perhaps the greatest premium ever offered. For larger clubs, the price is still lower, while even more premiums are given. Everybody should take this magazine. Now is the time to subscribe. Address CHARLES J. PETERSON, 306 Chestnut Street, Philadelphia, Pa. Specimens are sent, gratis, to get up clubs with.
