We had the pleasure of attending the primary election held by the mongrels at Brownville last week; and we kept a tally of those who voted. There were about 80 votes polled, and nearly three Democrats voted to one Republican. The affair was run absolutely by Frank Johnson, Joe Docker and E. M. McComas. Frank was the moving spirit. It was Frank who stood at the door and peddled tickets, and ran the streets hunting and urging people to go and vote. He said "you must turn out and vote to make the thing look respectable." But notwithstanding all his efforts, they did not succeed in polling one-half as many as were polled at the Republican primary. At the latter over 200 votes were polled—the largest ever polled in Brownville. At Nemaha City, and other precincts, we are informed similar mongrel primaries were held, as to kind and style—the Democrats being the principal participants. Yet there are Republicans so preposterously cheeky as to assert that the few Republicans who participated, joining the Democrats will better express the will of the great Republican party of the county than the regular nominees. It will, however but widen the breach, and enlarge the party of kickers for the next election.

Hon. J. J. Mercer was elected a delegate on the Brownville mongrel delegation against his will, and in the face of his urgent protest. He did not know that Johnson and Docker were using his name to catch votes with until the primary election was in progress, when he denounced the sneaking proceeding to the quilty parties, on the streets, declaring he was not with them and would not be; but they brazenly declined all the same to relieve Capt. Mercer of the false position in which they had placed him. He will, very likely, make them wish they hadn't done it.

Heard a solid old Democrat, say on the sidewalk in Brownville, the day after Redick spoke in that city. "A man learns by going to hear new men speak. Had I staid at home last night I should have voted for Redick, but now that I have heard him, I cannot do so." If that man was sincere, the reason he cannot vote for Redick will apply with equal force to Fisher.

We learn by later information regarding the accident occurring to Charley Keiswelter, that his leg was not broken, that it was one of his feet, and that amputation was not deemed necessary.

500 OVERCOATS FOR MEN AND BOYS AT McGEE & MOORE'S

A Democrat boastfully said to us, "Well, all your old leading Templar and temperance friends about Brownville are going to vote with us." We did not agree that all would, but with shame and sorrow we were compelled to admit that from appearances most of them would vote as he said—the mongrel Democratic whisky ticket.

"That's the great fault," he continued, "with the radical temperance business—those who make the greatest noise, hire halls procure speakers and lavishly spend their money in building up a good feeling and sentiment, weaken when they get the object they seemed to be seeking in their reach." We listened, thought of Ohio, how applicable to our own locality; how we had fought, not for prohibition, but to save drunkard friends, and then been cruelly left to hold the bag—we said nothing but keenly felt the truth of his assertions, and a mental resolve we some time ago was strengthened.

Ed Ewan, son of J. G. Ewan, of Lafayette precinct, with his cousin Will Branam, have just returned from a trip to Dakota, where they have pre-empted a farm piece. They will go out and take possession of them in the spring.

The B. & M. are now procuring the right of way for their road westward from Tecumseh.

Guns and Ammunition. If you want a good gun or ammunition for one, call on Herbert Willson, North Auburn.

What has become of that petition which was being circulated some time ago asking the commissioners to incorporate Auburn as a village?

We are credibly informed that regular passenger trains will soon be put on this line of the B. & M. R. R.

Sunday School Convention.

NORTH AUBURN, Oct. 29, 1882. The Sunday school convention for Nemaha county, met at the M. E. church at 2 o'clock p. m.

The opening exercises were conducted by Rev. Dickey, pastor of the Presbyterian church of South Auburn. Mr. A. H. Gilmore made a few appropriate remarks in taking the chair, and the Rev. J. A. Chapin, of Peru, then read a paper on the aim and purpose of Sabbath school.

The subject was well handled and many interesting and instructive suggestions were given. After the reading of the paper, several gentlemen entered into a further discussion of the subject.

Among other things, it was suggested, that, in new towns especially, where many strangers are gathering, each Sabbath school should have a corps of workers, whose duties shall be to visit every new comer and invite him and his family into the school.

The evening session was very interesting. The Rev. B. Bedell, of Peru, gave an address on the motives that should actuate the true teacher. He said the motives were three-fold: 1st. Those centering wholly in self.

As when ambition prompts, or a love to exhibit one's knowledge, or the love of the approbation of others, or the happiness received from God's approval. This is the lowest motive.

2nd. The desire to assist others, either to make society more moral, and intelligent, or to lead the people to embrace the Savior for their own eternal good.

3rd. The highest motive of all is the true desire to please God. All these motives combined, with a genuine love to teach, and a natural aptness to impart right instruction, are distinctive works of the true teacher.

The address was an admirable one and was worthy of a much larger audience.

After the address Mr. D. J. Wood presented the subject of Sunday school music in a neat little talk, his ideas were good and practical. Quite a lively discussion took place on this subject.

Before the adjournment in the evening it was agreed to hold another county convention early in June.

The exercise Saturday forenoon consisted of a talk on superficial teachers, by Rev. H. O. Scott, of Brownville. Many valuable hints were thrown out in the discussion of this subject.

The persons designated to discuss the other subjects not being present, some informal remarks were made on each and the convention adjourned.

Though the number in attendance was small, yet the convention was a real success. A spirit of true brotherly regard for the opinions of each other, pervaded the entire session, and an inspiration was given to the workers present that will greatly aid them in their future work.

A few numbers of "The Nebraska Sunday School Record" were distributed among those present. This is a new publication, published under the auspices of the executive committee of the Nebraska State S. S. Association.

J. M. MCKENZIE, County Secretary.

D. HARTER'S IRON TONIC. A combination of Ferrous Borate and Phosphoric acid in a palatable form. The only preparation, even that will not blacken the teeth, so characteristic of other iron preparations. GENTLEMEN: I have used DR. HARTER'S IRON TONIC in my practice, and in an experience of twenty-five years in medicine, have never found anything to give the results that DR. HARTER'S IRON TONIC does. In many cases of Nervous Prostration, Female Debility, Dyspepsia, and an impoverished condition of the blood, this peerless remedy, has in my hands, made some wonderful cures. Cases that have baffled some of our most eminent physicians, have yielded to this great and incomparable remedy. I prescribe it in preference to any iron preparation made. In fact, such a compound as DR. HARTER'S IRON TONIC is a necessity in my practice. DR. ROBERT S. MULLIS, 304 Wash Avenue, ST. LOUIS, Mo., Nov. 20th, 1881.

SORGHUM - AT - McGee & Moore's. It seems strange to us that some men will do things politically that they would not do in any other of the business relations of life. In a political sense they have no honor whatever, and seem to have a pride in making such a record. Now, for instance, there are Republicans and Democrats in this county, who voted at the Republican primaries, and engaged to the utmost of their ability to make successful their men and ideas; but failing they vote in other primaries and help run the machinery of other conventions. This is the very lowest of all the phases of politics. If politics is a dirty pool, as is often said, the men who do this, are the very dirtiest toads in the mud and filth at the bottom. They advertise themselves as void of political honor, their promises as worthless, and their actions as the elaboration of corruption, deceit and falsehood.
