CONGRESSIONAL NEWS.

We compile the following items of Congressional news from our Washington exchanges.

December 14.

The Nebraska and Kansas business was reopened on the 13th, by Mr. Mace's proposition to restore the Missouri line.

Mr. Washburn, of Maine, made a powerful speech in favor of that measure.

Mr. Stephens of Ga., said he did not propose to re-open a discussion of the Nebraska Bill. He considered the question settled. The bill was a good step in progress. He did not regret with Mr. Mace that the results of the late election demanded a report. Those results astonished everybody, and how did the gentleman from Indiana infer that those results set the seal of condemnation upon the friends of the great popular movement.

A proof that those elections had nothing to do with the Nebraska Bill, he referred to Pennsylvania, who returned to Congress men who voted for the bill. The anti-Nebraska Governor had only 37,000 majority, while Canal Commissioner, with contrary opinions had 100,000 majority.

In Massachusetts those who voted against the bill were not re-elected. He took Illinois where the issue was made directly. But three of the number voted for the bill and the people have now elected four. This showed the measure to be popular there.

Mr. Washburn of Ill., inquired what was the popular vote for Congress. Mr. S. said the Nebraska candidate for State Treasurer had 10,000 majority!!!

Mr. Henn, of Iowa, gave notice of a bill for the "Relief of the citizens of Omaha." Having pointed upon a large tract of public land, like a tiger upon his prey, and squandered it among greedy politicians, they now assume the attitude of beggars, and are to have the land given them by Congress. We knew that Mr. Henn is an interested party, and hence his haste in attending to matters in Nebraska, before the arrival of her Delegate, to whom such business should be referred.

Why should Omaha have a grant of land more than other places?

Mr. Badger has introduced a bill to increase the pay of members of Congress and of the judges of the Supreme Court, of the United States, 50 per cent.

Mr. Adams introduced a bill for the establishment of a uniform rule of naturalization through the United States. The bill proposes to extend the term to twenty-one years.

Notice has been given of bills to improve the Illinois river—Chicago and Waukegan harbors, and to abolish the franking privilege, a reform greatly needed in the post-office department.

Let the franking privilege be abolished, and the price of postage might be reduced considerably below the present standard and still be more profitable than it now is.

Senate—A memorial was presented from the New York Chamber of Commerce, praying for the relief of Dr. Kane and his party in the Polar Seas. Referred to the committee on naval affairs.

The Missouri will be bridged completely in a few days should this weather continue, then our friends in Iowa will be able to receive the Palladium in due time.

[For the Palladium.]

Mexican Mustang Liniment.

With a Healing Balm we come to greet you.

THE best section of this Liniment is one of the most perfect remedies ever offered to the afflicted. Its action upon the organization is truly wonderful. Its volatile, penetrating, soothing and healing properties diffuse themselves to the very bones. It enters into the circulation of the blood—gives a new impulse to whole nervous system to the very extremities of the fingers—and stimulates to the absorbents and secretions, and thus assist nature to throw off and rid herself of any diseased action of the serous chords or ligaments, making it equally applicable to sores of any kind, rheumatism pains in every part of the body, from a diseased action of any of the structural portions of the system. While it is perfectly harmless to healthy flesh, skin or bone, it has the property of entering into combination, and dissolving any of the organic tissues when they are diseased, or their vitality is destroyed. Possessing these peculiar powers, it is reason why it is so generally efficacious in so many different complaints. It acts upon scientific principles and fixed laws of the Creator!

The large number of cases in which this liniment has proved its value, in the short time it has been before the people of America, is sufficient to give the greatest confidence that its virtues are incomparable in curing rheumatism, bruises, strains, burns, wounds, swellings, broken or cracked heels, old sores or pains in any part of the body.
