ST. LOUIS ADVERTISEMENTS.

With a Healing Balm we come to greet you.

THE action of this Liniment is one of the most perfect remedies ever offered to the afflicted. Its action upon the organization is truly wonderful. It dissolves, penetrates, soothes and healing properties diffuse themselves to the very bones. It enters into the circulation of the blood—gives new impulses to whole nervous system to the very extremities of the fingers—and stimulates to the absorbents and secretions, and thus ARREST NATURE to throw off and rid herself of any diseased action of the arterial vessels or ligaments, making it equally applicable to every part of the body, from a diseased spot on any of the structural portions of the system. While it is perfectly harmless to healthy flesh, skin or bone, it has the property of enlarging into combination, and dissolving any of the organic tissues when they are diseased, or their vitality is destroyed. Possessing these peculiar powers, it is the reason why it is equally efficacious in so many different complaints. It acts upon scientific principles and fixed laws of the Creation.

The large number of cases in which this Liniment has proved its value, in the short time it has been before the people of America, is sufficient to give the greatest confidence that its virtues are incomparable in curing rheumatism, bruises, strains, lacerations, wounds, swellings, swellings on cracked breast, old sores or pains in any part of the body.

ST. LOUIS TESTIMONY. STATE OF MISSOURI, ) ss. County of St. Louis, )

Be it remembered, that on this fifth day of May, A. D. 1853, before me, the undersigned, Mayor of the City of St. Louis, in the County and State aforesaid, came personally David McSweeney, who upon his oath, says that the following statement is true.

In testimony whereof I thereto set my hand the day and date last aforesaid. JOHN HOW, Mayor.

St. Louis, Mo., May 5, 1853. Dr. A. G. BRAGG, & Co.—Gentle: You will probably recollect that I called on your establishment some three weeks since and purchased a fifty-cent bottle of your "Mexican Mustang Liniment;" my object in so doing was to try its merits upon my daughter's arm, who has been suffering from the effects of a severe dislocation of the elbow for several years past.

The excruciating pain consequent upon false setting of the bone had dwindled and contracted her arm to a puny size, and I consider it a duty devolving upon me to acquaint the community of the beneficial effect your liniment has produced. Her arm was drawn to a right angle, and was almost inert and useless, until your invaluable liniment was applied, since which time, I am happy to state, she has enjoyed uninterrupted good strength, and can use her arm nearly as usual. It was before it was dislocated, and was almost inert and useless, until your invaluable liniment was applied, since which time, I am happy to state, she has enjoyed uninterrupted good strength, and can use her arm nearly as usual. It was before it was dislocated, and was almost inert and useless, until your invaluable liniment was applied, since which time, I am happy to state, she has enjoyed uninterrupted good strength, and can use her arm nearly as usual.

Dr. A. G. BRAGG, & Co., Wholesale and Retail Agents, 304 Broadway, New York.

DR. G. BRAGG'S TONIC AND ANTI-BILIOUS PILLS. The great popular medicine of the day. Vast amount used per month.—The numerous and wonderful cures it effects—its magical effect upon Bilious Fevers, and Fever and Ague—Great excitement among the Doctors!

Indian Queen Vegetable Pills. ARE now admitted all hands to be a most extraordinary and valuable medicine in general use. It not only acts as a specific upon the bilious and typhoid fevers, chills and fever, and fever and ague of the West, but it is also in all diseases of debility, weak stomach, indigestion, loss of appetite, impurity of the blood, and all diseases prevalent in a western and southern climate. Their great power consists in their peculiar effect upon all the organs of the system, and the rapid formation of new and pure blood they produce. In this lies the great secret of their success. They are mild and pleasant in their action—both searching and permanent in their effect—penetrating the remotest recesses of the system by their ready absorption into the blood, thereby infusing a new supply of vitality and nervous power into all the machinery of life. The extensive popularity they have acquired all over the West and South ensures sales of ten.

AND WE find it difficult with our large force of hands, and the late improvements in machinery which we have adopted, to manufacture them fast enough to supply the demand in thirteen western and southern States. Our large manufacturing facility is constantly engaged in preparing the various concentrated extracts of which they are compounded. From the best information we can obtain from our 8,000 selling agents, and hosts of attentive correspondents in all parts of the country, our medicine cures per month not less than:

- 5,300 cases of fever and ague, one thousand of which have resisted all other treatment;
- 5,200 cases of weakness and general debility;
- 2,500 cases of various chronic diseases;
- 2,600 cases of weak stomach and loss of appetite;
- 800 cases of dyspepsia;
- 1,200 cases of rheumatism;
- 1,400 cases of female complaints;
- 1,200 cases of ague, or enlarged spleen.

This must appear almost incredible, but the numerous letters of our physicians, agents and those who use the medicine, from all the western and southern States, testify that this is a moderate estimate, and that our medicine is rapidly taking the place of the various preparations which are used, and the numerous testimonials made up ofly of quinine, which are unappreciated upon the public by manufacturers who live up to the name.

Price of Tonic Pills, 10 cents; and Anti-Bilious Pills, 25 cents. A. G. BRAGG, & Co., Wholesale and Retail Agents, 304 Broadway, New York.
