

Dr. Thomas H. ...

NEBRASKA PALLADIUM

BY D. E. REED, & CO. BELLEVUE, DOUGLAS CO., NEBRASKA, WEDNESDAY, FEBRUARY 28, 1885. VOL. 1.—NO. 31.

NEBRASKA PALLADIUM AND PLATTE VALLEY ADVOCATE. PUBLISHED WEEKLY BY D. E. REED, & COMPANY.

TERMS.—One copy one year, \$2.00—one copy six months, \$1.00—ADVANCE IN ADVANCE. No subscriptions received for less than six months.

RATES OF ADVERTISING. For each square of twelve lines or less, first insertion, \$1.00. Each subsequent insertion, 50c.

THE LAW OF NEWSPAPERS. 1. Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscriptions.

Subscribers will therefore understand: 1. That their papers will be continued after the expiration of the time for which they paid, unless otherwise ordered.

BUSINESS DIRECTORY.

- I. B. BENNETT. Has opened a boarding house at Bellevue, for the accommodation of regular boarders, and occasional visitors, who he will take pleasure in making as comfortable as his best power.

Poetry.

[For the Palladium] TO G. BY MISS A. D. HEMSWAY. Oh think not lightly of the vow, Thy youthful lips have spoke, Treasure it deep within thy heart, Nor let it e'er be broke.

GOING AHEAD.

BY JOHN G. WHITEHEAD. I hear the far off voyager's horn, I see the Yankee's trail— His foot on every mountain pass, On every stream his sail.

ADVERTISING.

In one of the proverbs of Solomon we find the most comprehensive and satisfactory exposition of the philosophy of advertising, that ever was or could be written, viz: "There is that scattereth and yet increaseth, and there is that withholdeth more than is meet, but it tendeth to poverty."

Selected Matter.

HARD TIMES. This is the cry from all quarters. Not that there is a famine, nor an approach to one, in our favored land. There is derangement in our money affairs—money is scarce, credit shaken, trade dull, business flagging.

Now for the remedy. First, economy, then, industry, intelligence, contentment. Apply these aright, and there will be no fear of hard times. Let our women adorn themselves in modest apparel, buy less foreign silks, laces, berages and gew-gaws.

WHISPERING IN COMPANY.

This habit is often indulged in by young ladies in the presence of friends or strangers, and savors strongly of rudeness, if not ignorance. The wisest being, the most connected, or most perfect suffer alike under that emancipation from the government of true politeness.

REVERENCE DUE TO GOD.

If the young man forgets his God, the old one will seldom find him in his old age; if in pride and flush of health we omit to call on the name of him from whom we possess the vigor of life, in the hour of sickness what comfort can we have in approaching his Divine Majesty?

REPEL SAM'S BANK ACCOUNT.

The Treasurer of the United States publishes a statement of the condition of the Treasury up to the 29th of January, by which it appears that there are now in the Treasury on deposits, \$24,240,985.79, and after deducting the drafts outstanding, &c., there was in the Treasury on that day, subject to draft, the net sum of \$21,947,123.39.

PAPER OF WOOD.

Mr. H. Bett, of Brooklyn, writes to the N. Y. Evening Post that the possibility of manufacturing paper from wood is no new discovery. He himself made paper of wood, bark and grass, as early as 1828. The bark of the bass tree he says made much better paper than the wood; the bark of the milk-wood was better still; and boggy grass was preferable to all.

IMPORTANT TO YOUNG MEN.

The history of many of the world's best men, who have risen from poverty to positions of honor and affluence, reveals the interesting fact, that it was the possession of a small cash capital in the outset, which enabled them to start in the path of success, which ever after attended their footsteps.

HOW MEN "BURST UP."

Men with unassuming wives never fail. It is the husbands of such women as Mrs. Dash and Lady Brilliant, who themselves face to face with the Sheriff, and certain mysterious documents, adorned with red tape and wafers big enough for target exercise.

COLT'S REVOLVERS.

The English papers state that the number of the repeating pistols, or revolvers, manufactured by Mr. Colt during the last two years, amounts to two hundred thousand. The Viceroy of Egypt has lately ordered 5000 of them for the equipment of his cavalry; and the British Board of Ordnance dispatched, some time ago, ten thousand to the Baltic fleet.

THE HORTICULTURISTS OF PARIS.

The horticulturists of Paris have succeeded by artificial crossings in obtaining a natural rose of blue color, which is the fourth color obtained by artificial means—that and the yellow or tea rose, being all inventions, and the result of skillful and scientific gardening.

A NEGRO PREACHER.

A negro preacher referring to the judgment day in his sermon, said, "Brethren and sisters, in that day de Lord shall divide de sheep from the goats, and dees de Lord, we know who wears de wool!"

HON. L. TRUMBULL.

Anti-Nebraska Democrat, was elected U. S. Senator, by the Illinois Legislature, after 9 ballots, on the 8th inst., vice Gen. Shields.

CALIFORNIA SHEPHERD DOG.

The San Jose Tribune gives the following interesting account of the fidelity and vigilance of the California shepherd dog: Many of the rancheros of this valley send out their sheep, daily under the charge and protection of their dogs alone, and feel assured they will in the evening be returned safely to the fold.

INFLUENCE OF WOMEN.

Senator Houston was once asked, at a large party given by Mr. Speaker Wintrop, why he did not attend the usual places of amusement as he had been accustomed to do. His reply was this—let it be read and remembered by the mothers and daughters of America:

STRANGE DEARTH.

While Van Amburg's collection was entering New Haven, not long since, the elephant, completely enveloped in a blanket, reaching nearly to the ground, was very leisurely engaged in picking up with his proboscis, the end of which was only exposed to view, the fugitive straws of hay which were scattered about the streets; observing which, a son of the Emerald Isle, among the bystanders exclaimed, "Be jabbers! an' what sort o' bastie is that, ating hay with his tail?"

STRICT BUSINESS MAN.

Patrick, hereafter, I want you to commence work at five o'clock and quit at seven. Patrick—"Sure, and wouldn't it be as well if I'd commence in the morning at seven and leave off at five in the evening?"

EVIL REPORTS.

The longer I live, the more I feel the importance of adhering to the rules which I have laid down for myself in relation to such matters. 1. To hear as little as possible of what-ever is to the prejudice of others.

EVIL REPORTS.

John Randolph once said he expected to live to the time when slaves in Virginia would advertise for runaway masters, as it took all the corn to feed the hogs, all the hogs to feed the negroes, and there was nothing left for the planters.

DEATH OF TWO CLERGYMEN.

A dispatch to the Columbia Times, dated the 25th ult., from Charlotte, N. C., says: The Rev. Cyrus Johnson, D. D., of this town, died very suddenly, of apoplexy, this morning, in an omnibus, whilst going to the railroad depot. He was on his way to Fort Mills for the purpose of marrying a gentleman and lady this evening. He was the second clergyman who has been engaged to perform the service. The Rev. Watts, who had been engaged for the same purpose, died on the day appointed for the wedding, and was buried yesterday. Dr. Johnson will be buried to-morrow.

THE MACHINERY OF THAT IMMENSE PIECE OF MECHANISM.

The pendulum is 14 feet long, and the weight of the end of it is 100 pounds; the dial on the outside is regulated by a smaller one, within; the length of the minute hand on the exterior dial is 8 feet, and the weight of each 75 pounds; the length of the four figures 2 feet 2 1/2 inches; the bell is about 10 feet in diameter, and weighs 4 1/2 tons, and is said to be audible a distance of twenty miles.

GIGANTIC RAILWAY SCHEME.

A vast project has been started in Australia. It looks to the construction of a railway 1000 miles in length, to connect the three colonies of South Australia, Victoria and Sydney. The plan, as detailed by Sir Henry Young, the Governor of South Australia, is that the necessary capital, which is estimated at £10,000,000, should be raised by a loan, the interest of which should be provided for by votes of the three colonies, and guaranteed at the same time by the Imperial Government, and that the lands for ten miles on both sides of the line, amounting to 12,800,000 acres, should be placed under the administration of commissioners, and with a view of being gradually realized, one-half of their proceeds to be applied to redeem the loan, and the other for introducing labor.
