Gov. Slade, the energetic and persevering educational philanthropist, has recently issued a circular stating that his seventeenth class of teachers, to be sent to the West under the charge of the Board of National Popular Education, will assemble at Hartford on the 23d of March and leave for the West on the 28th of April. We see it stated that the Governor has sent out into the Western wilds altogether, three hundred and ninety-four of these fair missionaries.—Burlington Telegraph.

A old dutchman and his frow sat up till goping time, when the latter, after a full stretch in the above operation, said—

"I wish I was in bed so."

Hans also yawned and replied—

"I vish I vash in the still house."

The eyes of Sallie flew wide open as she exclaimed—

"I pe pound for you always wish yourself in the best place."

Lime for Sale!

WE have now on hand a large quantity of good quick stone lime for sale. We will keep on hand constantly, a quantity sufficient to supply all those who want.
Bellevue, mr 28 JOSEPH DYSON & CO.

FIRST PUBLIC SALE OF LOTS IN NEBRASKA CITY,

The future Emporium of Nebraska Territory.

ABOUT five hundred choice lots in Nebraska City, and fifty lots in Kearney City, immediately contiguous, will be offered for sale to the highest bidder, on the premises, commencing on

Monday, April 23d, 1855.

Sale to continue from day to day, until all are sold, at the option of the proprietors.

TERMS OF SALE.

One-third cash in hand, the balance in six months. Title indisputable. The site of Nebraska City has long been admired as the most eligible situation for a large commercial emporium on the South side of the Missouri river. It is situated on that romantic bluff known as Old Fort Kearney, commanding a picturesque view of the mighty Missouri for miles up and down, and has been esteemed for many years, the best starting point for emigration to Oregon and California. The water is excellent—the climate temperate and noted for its salubrity.

Heavy bodies of the finest timber of every variety is found on and near the city, and several Saw Mills are now rapidly converting it to the use of the rapidly settling emigration in and around the city.

There are already in the city two mercantile establishments, one large Hotel, (the largest in the Territory,) and two more about being constructed. There are already erected, forty-one buildings, and as many more in the progress of construction.

An abundance of lime-stone rock is found on the site, and contracts are completed for the making of two millions of brick the ensuing season. Two brick churches and one college will be erected during next summer. This county has a greater population than the whole Territory north of Platte river.

Nebraska City is fifty-five miles from the South line of the Territory, and thirty miles South of the Great Platte river, and about the center of the settled portion of the Territory.

It is on the direct line of the great central chain of Railroads from the Atlantic to the Pacific, and is destined to continue, all the time as it does now, to monopolise the greater part of the business in the Territory.

In the language of the President of the Ft. Madison, Iowa, S. T. Railroad: "Nebraska City will be the first City, in commercial and manufacturing importance, in the future State of Nebraska."

The site has a fine bluff, rock landing, not subject to change, and a Steam Ferry now at the Landing, affords every facility for crossing. Arrangements are in progress to secure a regular packet line of Steamboats between St. Louis and this place.

The first paper issued in the Territory was the "Nebraska City News," which can boast of the largest circulation of any, which indicates the moral progress of the country.

GLEASON'S PICTORIAL

FOR THE YEAR 1855!

M. M. BALLOU, who has edited the "Pictorial" from the commencement, having bought out the late proprietor, Mr. F. Gleason, will conduct this popular and widely circulated paper on his own account. The new volume will be radically improved in every respect, and will be published on finer paper than ever before, which quality will be continued henceforth without change. Many new and popular features will at once be introduced, and the literary department will present an array of talent and interest beyond anything it has before attempted. The illustrations will be finer, and by better artists than have before been engaged upon the paper, and altogether the publication will be vastly improved and beautified.

Arrangements have been made for representing during the year views of the most notable buildings and localities through the United States, as well as giving likenesses of the most prominent characters, male and female, of artists and men of genius, such as have by their own industry and skill made for themselves a fortune and a name. In addition to these, various notable European scenes and occurrences will also be given from week to week, forming a brilliant illustrated journal.
