A vast amount of vituperation has been heaped upon Gen. Heath by the Democratic papers of this Territory...

The New York Tribune's correspondent from Charleston, of the 5th inst., gives a long list of outrages upon the freedmen by the people in various parts of South Carolina...

The unconquerable rebel still reigns supreme in some parts of the South. In many localities they have elected nothing but the bitterest opponents of the Government...

This State election in Nevada, for local officers, members of the Legislature and Congress, took place on the 7th inst.

COMMUNICATED.

The pomological fever is raging throughout the United States, and especially in this county. The people are purchasing large quantities of fruit trees...

In writing this article my object is to set people to thinking, and induce them to be careful to select the best varieties. Suppose we plant four apple-trees...

The same rule is good in any kind of fruit, from an apple to a berry. The great question then is, which are the best varieties for quality, hardness and productiveness in this county?

Truly, ignorance is the greatest evil. Now, for the benefit of myself and others, I call upon those who have had experience, to prepare for publication in the HERALD a select list of the best fifteen varieties of apples for this county...

I will now present my list of the best fifteen varieties of Apples, according to the best information that I can obtain: Summer Apples—Red June, Summer Pennock, Sops of Wine, August Sweet.

Fall Apples—Fall Wine, Snow, Hawley, Sweet Wine, Hewick Codlin, Winter Apples—Winter King, Wine-sap, Wagner, White Winter Pearmain, Turner's Seek-No-Further.
