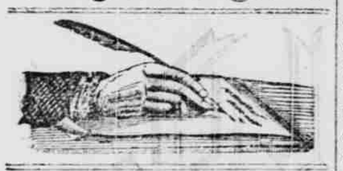
The Nebraska Herald.



PLATTSMOUTH, NEBRASKA.
WEDNESDAY, ... JAN. 31, 1866

THE GREAT SEAL OF THE TERRITORY OF COLORADO.

We see from the *Rocky Mountain News*, of the 16.h inst., that Governor Cummings has taken possession of the great seal of the Territory of Colorado. This has been done with the evident design of compelling all business requiring the impress of that seal to be transacted where the seal now is. It seems that certain speculative habits, of which His Excellency showed himself strongly possessed in his military career—we allude to his "straw hat and cotton breeches" improvement of "Regulation uniform"—still dominate over his otherwise iron will, in the capacity of Governor of Colorado. On his arrival at Denver he rented premises at his own expense, and ordered the Territorial Secretary, Hon. S. H. Elbert, to move his office to the new location. On a refusal to this rather arbitrary procedure of the Governor's being given, a system of petty persecutions was instituted to force the Secretary to accede to his wishes, resulting ultimately in the military expedient of capturing and carrying off the "great seal"—but this having failed to reduce the Secretary into a submission to His Excellency's will—the safe was burglariously made to follow the seal through the astute tactics of the whilom commander—but, notwithstanding these heavy losses, the gallant Secretay maintained his ground and still holds the banner entrusted to him by Secretary Seward hung out upon the outward wall.

So far as the published accounts of this singular transaction go, we consider the conduct of His Excellency decidedly wrong. The great seal of the Territory of Colorado properly belongs to the Secretary of the Territory, who holds it in trust for the Secretary of the United States, whose officer he is—and the Governor of Colorado has no more right to it by virtue of his office, than he has to the Secretary's signature. To arrogate to himself the right to domineer and tyrannise over the appointee of Secretary Seward, because he is GOVERNOR, is an absurdity so very detracting to his reputation for common sense that it would not surprise us to hear of his speedy removal.

CORRESPONDENCE WANTED.

The time has arrived when Nebraska, as a whole, should do something to let the people of the east, and of the whole world, know what a beautiful, healthy and productive country we have. We should not stand with our hands in our pockets, waiting for people to find out these things as best they can, but make an effort to spread the knowledge. This can be accomplished very easily, in our opinion, if each individual in the country who is capable of writing an intelligible sentence would devote an hour or two each week to telling his friends in the east what every one knows who has lived in Nebraska twelve months. Write for your Territorial papers, and give such facts as may be in your possession that are calculated to give the public a general knowledge of the country, climate, soil, products, &c. We would again ask the people of this locality, as we have heretofore done, to place these things before the people through the medium of the HERALD. Do not expect us to do it all. We are willing and anxious to do all we can; but cannot be expected to be conversant with all matters of interest in the Territory; and if we were, there are many in this community who could lay them before the public in as good, or better, shape than it would be possible for us to do, and therefore we urge upon you the necessity of this course.

We not only invite correspondence of this nature, but also upon any subject that may be of general interest, or even of local interest alone. We are just as liable to err in judgment upon either local or general matters as any individual; and having no desire to force our particular views on any subject upon the people unless they will stand the test, we therefore urge such of our fellow citizens of this locality as are acquainted with matters of importance to the welfare of the Territory in general, and this locality in particular, to make known their views through the HERALD. We are now sending a large number of papers east each week, and a series of correspondence, such as we speak of, would undoubtedly be of vast benefit to the Territory. Don't wait for some one else to do something and then find fault because it is not done to your liking; but take hold and help to do it right yourself.

COMING BACK.

From a letter received by one of our citizens we are happy to announce that our old friend Gen. JOHN M THAYER purposes returning to the Territory with a view of taking up a permanent residence at his old home, Omaha. We are right glad of this, not only because it gives us a sterling citizen, but because it is another proof that any one who has enjoyed the healthful climate of Nebraska cannot find any other country whose attractions can wean them from our favored section.

MUTUAL INTERESTS AND MUTUAL OBLIGATIONS.

We clip the following from a late number of the Council Bluffs *Nonpareil*, believing it to be as applicable to this locality as Council Bluffs. We do not publish such matter with any intention of finding fault with any of our business men, for we have no such intention; but merely to show that others entertain similar views with us upon this subject:

There is not a man in town who will not tell you, if approached on the subject, that it is the first duty of a newspaper in Council Bluffs to work for the general good of the town; but little space in its columns should be devoted to political matters; but little to miscellaneous reading, and a *great deal* to local interests. This position is eminently correct—the one great work of the paper should be to tell the world at large of the advantages of the town in which it is published, to encourage every good work, to use its influence to draw trade to the town, and, in short, to devote its columns mainly to building up the general interests of the place. We admit all this to be our duty towards the citizens of Council Bluffs. Then, on the other hand, let us inquire of the people if there are not certain duties which *they* owe to the paper? Do you think, Mr. Lawyer, that you are taking just the right course to encourage the local press, and through the press to build up the town, when you send to Chicago or New York for your letter-heads because you can get them printed there five cents a hundred cheaper than you can at home? And you, Mr. Merchant, when you send east for your cards and bill-heads, do you imagine that by this act you are doing anything to "build up Council Bluffs?" And, you, Mr. Mechanic, you who consider it the *duty* of the newspaper to work year after year for *your* interest—did it ever occur to you that *you* owe a duty to the newspaper? If not, allow us to intimate that perhaps you have never looked at the matter in the proper light. According to the vulgar but very truthful old saw, "money makes the mare go,"—and the same principle applies with equal force to newspapers—a publisher can give you a good paper or a better one, just according as his receipts shall be large or larger.

You may talk as you please about shops, and mills, and factories bringing money to the place, but if you want *money*, and *people*, and *business*, you must have *newspapers!* The press is the foundation of all progress, and you can no more build up a town without papers than you can build a wall without a foundation—you must begin at the base, and build *up*.

Further Indian Depredations

FT. DODGE, Jan. 10, 1866.

The Indians are again heard from On the night of the 8.h inst., Thomas Brannon, working with Henderson Scott's train, was killed and scalped about four miles from here.

Last night the hands of a train coming in were attacked on nine mile ridge, but sustained no loss. To-day a mule and a horse were taken from the stage just above here. This is all yet heard from. The party appears to be small. Quite a number of small parties of men are on the road, and we are afraid this is only a beginning.

Major C. M. Batt, 48th Wisconsin, in comman here, is doing all in his power for the protection of the road.

Yours, Respectfully,
J. M. LADD.

SKATING.—A Rochester correspondent of the St. Paul *Pioneer*, communicates the following:

On Thanksgiving day, as the young people were having a pleasant time on the Zumbo, skating, a young dandy, with kid gloves, polished boots and scented locks, in his efforts to make very graceful curves, often lost his balance and would slide some distance on his annentionables. One of the young ladies, after witnessing the performance several times, informed him that she thought he could do better, if he would wear his skates where he did his sliding.

Secretary Stanton has no great love for music, but Secretary Welles, who is quite deaf, has a great fondness for it. A professor of music in Washington, who was trying to get up a series of subscription concerts in that city last winter, called upon Mr. Stanton to get him to subscribe, and mentioned as an inducement that the Secretary of the Navy had already put his name down "Oh!" replied the bluff head of War Department, "if I was as deaf as the Secretary of the Navy, I would subscribe too."

ONE of the largest slaveholders in southern Kentucky has gone mad on account of the liberation of his slaves, and is now an inmate of the lunatic asylum at Hopkinsville, Kentucky. He owned over two hundred negroes, and had accumulated by their labor a large fortune. He was probably worth one hundred thousand dollars, independent of his slaves.

IF you want to gain a reputation for eccentricity, and to be universally dreaded, if not hated, blurt out the plain truth on all occasions.

BY TELEGRAPH.

TO THE DAILY HERALD.

Latest Despatches.

TORONTO, C. W., Jan. 26.—Hon. Fergeson Blair, the newly appointed member of the Government, who was elected without opposition, recently made a speech in which he said that intelligence had been received from Washington that the prohibition to the cattle trade was to be repealed and removed immediately.

N. Y., Jan. 27.—The Tribune's Washington special says Admiral Farragut has received a report from the West India squadron, stating that six large French transport vessels had put in at Havanna, on their way to Vera Cruz. The transports were empty, and it is believed that they intend to carry back troops from Mexico to France.

NEW YORK, Jan. 27.—The Times Washington special says Gen. Sherman entered the Senate Chamber this evening, in company with his brother, Senator Sherman, while the Senate was in session. Immediately a general buzz and hum of suppressed voices broke forth from among the numerous auditors in the galleries, and there was a rush to get in a favorable position for a good view of the military hero. The Senators one by one approached the General and warmly shook him by the hand, and for a time he was surrounded by admiring friends, and the business of the Senate was almost entirely suspended during his reception. Gen. Sherman came here on official business, and it is said will remain for the coming week. Generals Sherman, Meade and Thomas are all ordered here to form a military convention.

The records of the Treasury department show that from March, 1863, up to August, 1865, abandoned and captured cotton, valued at $5,744,000 was seized by the Government in the valley of the Mississippi. Of this amount, $3,300,000 have been paid into the department, the remainder having been returned to the original owners of cotton, having been improperly seized.

For the fiscal year ending June 30, 1865, the mint and branch mints of the United States coined $3,241,924,864 in gold, silver and copper.

NEW YORK, Jan. 27.—The Tribune's special says intelligence has reached the Commissioner of Customs of the transfer of a large share of the smuggling operations on the St. Lawrence, to two different points on the boundary line between the British provinces and Dacotah. The Commissioner has taken the necessary steps for the suppression of this illegal traffic in that district.

The case of Mrs. Cobb, pardon brokeress, against Detective Baker, was continued to-day. Considerable argument as to the admissability of testimony relative to the character of the plaintiff but nothing of importance or interest was elicited.

NEW YORK, Jan. 27.—The editors of the National Police Gazette having published in their last paper an additional disclaimer, Mr. Stewart, through his counsel, has withdrawn his suit.

NEW YORK, Jan 27.—Tribune's Washington special says: A gentleman just arrived here from Charleston, says that in consequence of the cruelty and oppressive legislation against the freedmen enacted by the South Carolina legislature, Gen. Sickles has been compelled to issue a very radical order annulling all such legislation.

NEW YORK, Jan. 27.—The Manchester Guardian of the 13th, just out, has a Liverpool correspondem who has received, from some source, information which he assures us is strictly true, however absurd and improbable the facts may appear, the purport of which is that in Liverpool, which has always been one of the general Centers of Fenianism, and where the chief members have had active means of communication with other towns in England, Ireland and Scotland, as well as with America, the movement is as vigorous as ever. The proceedings of the brotherhood are now conducted with much more caution than before the recent trials and arrests. Delegate meetings are constantly held in Liverpool, and attended by persons from different parts of the United Kingdom and North America; but these meetings are never held twice in the same place, in order to baffle the police and prevent the suspicion of outsiders, and to put the spies and informers, who seem to be inseparable from an Irish conspiracy, on the wrong scent. The communication with America is now more active than ever, but is not carried on by writing. Fenian ambassadors now arrive at Liverpool, and leave to and from American ports weekly; and as many of them are persons of good address and education, and as they always travel first class, no suspicion whatever is afforded. So far as our informant has been able to learn, the latest move of the Fenian body is to appoint the notorious Meagher, of the sword, as dictator. Meagher, it will be remembered, was the leader of the Irish brigade, in the recent American war. His plan is said to be to divide the Fenian army into two immense bodies, with one to invade Canada, and with the other to join the Emperor Napoleon in sustaining the throne of Maximilian in Mexico. By this stroke of policy, Meagher hopes to secure the eternal good will of the Emperor Napoleon, and to gain his support to his scheme of establishing the independence of Ireland.

NEW YORK, Jan. 29.—The projected assembling in Washington, during the present week, of Generals Sherman, Thomas, Meade and Sheridan, is causing numerous surmises there as to the object of this important meeting. The most probable solution is that they have been summoned by the President to give him a true statement of affairs in their several military divisions, in view of congressional proceedings relative to reconstruction.

The Tribune's special says that they have been directed by Gen. Grant to confer with him at his headquarters relative to reduction of the military forces, the dispositions of troops, and affairs generally within the limits of their respective commands. Other prominent regular army officers would have been ordered to be present at the conference had it not been that they are stationed at points distant from army headquarters.

For the 400 vacancies in the regular army there were over 6,000 applications. The proper filling of these positions, Gen. Grant remarked a few evenings since, had caused more anxiety than the management of an army in the field.

But one bank was established last week, the Chattahoochie bank, of Columbus, Ga., with a capital of $100,000. The total number now in operation is 1,630.

Deliveries of national currency were made by the Treasury department last week amounting to $2,868,200. The total amount delivered up to date is $248,734 710.

The disbursements of the Treasury department including transfers for the week ending on the 27th inst., amount to $25,430 293.

The Academy of Science on Friday evening last, held a conference with the House Committee on coinage, weights and measures, to consider the feasibility of introducing some new system relative to these matters.

Much inquiry has been made as to when the money will be distributed on the prize lists for the Charlotte and Stag, captured by the United States ships Malvern, Mantanza, Wilderness, Nansemend, Advance, Montecello and Samuck No. 6. It may be interesting to many to know that the lists have been received at the office of the 4th Auditor, and the distribution will be made in the course of a month or so.

Orders have been issued for the reduction of the force of clerks in the Ordnance department from 200 to 40; the reduction to take place on the 1st proximo.

The applications filed for clerkships at the Treasury department have reached 22,000.

NEW YORK, Jan. 29.—The World's Washington special says western members of Congress oppose the removal of the prohibition on the importation of cattle, as they say the cattle plague is known to exist in New Foundland.

It has been ascertained that upwards of forty counterfeits of the 5-cent currency are in circulation. The Secretary of the Treasury has ordered them to be called in and another plate prepared.

NEW YORK, Jan. 29.—The Times' Washington special says Raphael Semmes, of Alatama notoriety, Rear Admiral, Brig. Gen., &c., has himself prepared an elaborate argument, which was presented to the President Saturday night by his counsel, Judge Hughes, in which he claims the benefit of the Sherman-Johnson parole, and that under this parole he is entitled to be discharged from prison until tried and convicted.

Secretary Seward and party returned to Washington Saturday night, in the steamer Desoto. The Desoto proceeded directly to St. Thomas, and then made a complete tour of the West Indies from St. Thomas in the east to Santa Cruz in the west, stopping at St. Domingo city, Port Au Prince, the capital of Hayti, and at Havanna, spending a few days at each port, and being most cordially and hospitably received by the authorities and people everywhere. The two West India Republics, the Domingo and Haytien, were unexpectedly found at peace, the recent troubles having been quieted.

NEW YORK, Jan 29.—The address of the Council of the Irish Republic, dated at Dublin, and published to day, says the work of preparation in Ireland is done. We know our strength—we are not groping in the dark. A point has been reached from which we can see the goal clearly, and call upon you to aid us. The Irish will soon stand face to face with the enemy. We ask a loan which shall be paid within six months after the establishment of Irish independence. The address, which is quite lengthy, is endorsed by a card from Col. O'Mahoney, urging prompt action by the Fenian Brotherhood.

NEW YORK, Jan. 29.—The steamship Leo arrived here yesterday from Savannah. When she was off Cape Hatteras, on Saturday last, a fire was discovered among her cotton, of which she had a large cargo on board, but by great exertions it was extinguished in a few hours.

NEW YORK, Jan. 27.—Police officer Stellege, of the 28th precinct, was on duty on Carmine street yesterday morning, when a man dressed in police uniform came to him and told him that he had been detailed to arrest a counterfeiter, and the assistance of a patrol man would be required. Shortly after the reporter of the Greenwich Savings bank, named Thomas Quinn, came by with a tin box on his arm, and he was at once arrested, making a slight resistance. The bogus officer snapped a pair of hand cuffs on Quinn's wrists, and bade the regular patrol man take him to the station-house, while he proceeded to report the arrest. This was done, and the strange man made his escape with the box and its contents.

NEW YORK, Jan. 29.—The Herald's Washington special says a circular has been issued by Brevet-Major General Donelson, Chief Quartermaster of the military division of Tennessee, requesting surgeons and chaplains of the sanitary and Christian commissions, Quartermasters, officers and soldiers, who may have been in the army at any time during the war, in Ky., Tenn., Miss., Alabama or Georgia, having knowledge of the location of cemeteries, places of burial, or of the scatted graves of any of our brave soldiers in any of the States above named, to send the same to Capt. E. B. Whitman, Ass't Q. M. at Murfreesboro, Tenn.

NEW YORK, Jan. 30.—Tribune's Washington special says investigations recently made by the Commissioner of Customs, in relation to smuggling on the Canadian border, have exhibited the fact that the hostile Minnesotas and Dacotahs have for a long time past been supplied with rifles of the English pattern by English smugglers.

NEW YORK, Jan. 30.—World's special Washington dispatch says the trial of Semmes will commence the latter part of this week or the first of next.

Senate military committee decided to report against the proposition to turn over to West Va., the government property and appurtenances at Harper's Ferry. It is the intention of the Government, if necessary, to re-build the works at that point.

The World's Havanna correspondent says Secretary Seward had an interview at Havanna with an Aid de-camp of Maximillion, but does not know what transpired.

World's Washington special says the U. S. consul at Leghorn, under date of Dec. 31st, informs the Department of State that the quarentine which has been enforced against all vessels coming from Marseilles, Naples, and other ports where cholerr has prevailed, has been removed.

NEW YORK, Jan. 30.—Herald's St. Thomas letter says report says Secretary Seward informed Santa Anna that the Monroe doctrine would be enforced, and on no account would the United States permit an Empire in Mexico.

The cholera has somewhat abated in the principal towns of Guadaloupe, but remained in full force in the interior. There has been no dimunition in the number of deaths, which number in all 11,200.

The Herald's Rio Janeiro letters give in full the letters of President Topez, of Paraguay, to Gen. Mitre, the Argentine President, alluded to in previous dispatches, and instead of containing propositions of peace, as at first surmised, it proved to be of a very different character. Topez charges the allies with conducting the war in a most barbarous and outrageous manner, and avows his determination, if satisfaction is not accorded, to retaliate in the severest manner, and to prosecute hostilities with ferocity and renewed vigor. To this Gen. Mitre replied at length, denying the principal allegations of his antagonist, and avowing that he has nothing to regret or take back, and warning Topez against pushing matters to the threatened extremity.

NEW ORLEANS, Jan. 29.—General Sheridan refused to allow emigrants to leave here to go to Mexico, acting under orders from Washington. He does not prevent vessels from going.

Ex Gov. Rollin died here to-day.—Both houses of the Legislature adjourned in honor of his memory.

The Mississippi is falling.

The Great Morganze levee and Parish Point coupee will be repaired in about ten days so as to keep out water.

German laborers and families are arriving to labor under contract on plantations.

SEMINARY

For General Education,

PLATTSMOUTH.

The English department under the superintendence of Mr. Sherlock, late Inspector of Public Schools in Canada.

The Musical department is conducted by Mrs. Sherlock, pupil of celebrated masters in England.

The course of instruction includes the various branches usually taught in first class schools, Book-Keeping by double and single entry, French, Music, (Piano Forte, Guitar and singing) &c. The term commences from the *entrance of the pupil;* payment in advance.

Mr. and Mrs. Sherlock return thanks for the liberal support they have received, and shall by unremitting attention to their pupils endeavor to merit its continuance. There are only vacancies for a few more pupils. jan16 8m
