

LOCAL NEWS.

From Wednesday's Daily.

District Court will adjourn this evening, with a clear docket.

A change of venue has been taken in the Gidding case. It will come up at Nebraska City at the term about to commence.

The Southern Nebraskan says that a number of Democrats have returned that paper because the editor disapproves of President Johnson making a fool of himself.

The New York Tribune has just completed its twenty-fifth year, and comes out considerably enlarged, having the width of its columns materially increased.

J. N. Wise has removed to his new room, corner Main and Third Sts., where he is ready to furnish you with all kinds of reading matter, from a comic pictorial to Webster's "non-bridge."

Old muddly is doing a good work for this city, in cutting away the sand bar in front of town. The ferry boat made a landing at the foot of Main street today, and a stiff current appears to be setting in near the Nebraska shore.

We have received the first number of the Nebraska Statesman, published by A. F. & W. E. Harvey, at Nebraska City. It is a large, eight column paper, presents a neat mechanical appearance, and advocates Democracy and State Government. It will be the mouth piece of the State Democrats of Nebraska, and will somewhat interfere with the arrangements of certain would-be leaders in that party. "Ajax" is well known in Nebraska as a spy writer; and, outside of political affairs, will do much to amuse and instruct the readers of his paper, and will contribute largely to the prosperity of Nebraska City. We welcome the Statesman to a place in our ranks.

From Thursday's Daily.

The river is still on the rise—running over the bank on the Iowa side.

We learn that the south room over Newman's Clothing Emporium, has been rented for a billiard establishment by some one from Nebraska City.

Business has been dull for a few days; but there is always "a calm before a storm," and we may look for a host of men in need of "outfits" pretty soon.

Pilgrim wagons make their appearance on the Iowa shore every day, and are immediately crossed over to this side by our new ferry boat. No delay on account of wind, here.

Joel Parcel, Esq., is at work on the old billiard hall, and will soon have a basement under it, and a different kind of business in it from that carried on for the past year.

The "harmonious" Democracy meet in Delegate Convention today at Nebraska City. Will Morton, Miller & Co. "run the machine," or will somebody who never ran for Congress have a finger in the pie? We shall see.

Local items are scarce just now. Our citizens are all moral, well behaved people; there are no lectures, concerts, shows, or other performances of the kind, and we do not think of anyone at present who needs "pitching into," hence the scarcity of items.

We learn that the "Big Slough," on the road to Nebraska City, is almost impassible with an empty wagon; or, to use a western phrase, that it will "mire a saddle-blanket." The road leaving town on the south-west is in a good condition, and is on a more direct line than the old road. Travelers will take notice, and govern themselves accordingly.

From Friday's Daily.

Hon. S. H. Elbert and Judge Clark left on the Laey yesterday for the east.

The foundation of the Episcopal Church in this city is completed, and the superstructure will be commenced in a short time. This edifice will be an ornament to the city, located as it is on one of its most eligible sites.

See advertisement of Battery & Shannon to day. If you want a pleasant ride, go and get one of those elegant carriage teams, or one of those elegant saddle horses. We have been there, and know they keep nothing but the very best stock.

Do the people of this city expect to see any considerable amount of emigration pass through here this season? We all know there is an immense tide setting towards the west, and that it will reach the Missouri river in a short time. We also know that other towns are moving Heaven and earth, as it were, to divert this emigration from the great natural highway to the Pacific, which crosses the Missouri river at this place. Will we stand still and see this trade going to other points, and not raise a hand or a voice in our own behalf? The Herald has labored faithfully for the past year to arouse the people of this locality from the lethargy which appears to have taken possession of their faculties, and to convince them that if we would build up a great city here it must be accomplished through our own exertions, and not through the good will of neighboring cities or from the natural instinct that would lead men to choose a point that nature has endowed with such great advantages. We all know that this is the most favored point by nature that can be found in the west, and that we have the

best natural road in the world; but is this any reason we should lie supinely still and see more energetic people and cities reap the harvest which belongs to us? Let our people arouse themselves to action, or else make up their minds to live a slow coach life while others are moving with lightning speed. Fortune favors those who show some kind of disposition to help themselves; and if we would have our proportion (which should not be small) of the trade this season we must do something towards securing it. Do not think it will come to you, or that somebody else will stand it—as was partially the case last year—but conclude to secure it through your own exertions or do without it. We have done all that was in our power to do alone, and now ask the co-operation of our citizens in this work.

From Saturday's Daily.

E. G. Dovey, Esq., of the firm of Amison & Dovey, arrived on the St. Joseph to-day, looking as hearty and cheerful as usual.

The Omaha Herald says the funeral car of our late President, A. Lincoln, has been placed on the Pacific Road for the use of the officers. Suggestive; very.

Mails are all right again—arriving on time from every quarter; and what is still better, we understand bids will soon be received for carrying the mails over the new routes from Plattsmouth west.

The city has presented a lively appearance to-day. Farmers, emigrants, freighters, and a host of new comers from the east, were to be seen on our streets, giving everything an air of business.

A change has taken place in the proprietorship and editorial control of the Glenwood Opinion, Mr. Hoffman having sold his interest to Mr. John Y. Stone. The Opinion is the life of Mills county—as is any good paper the life of the community in which it is published—and should receive a liberal support.

From Monday's Daily.

W. J. Hesser, Esq., is sprouting six barrels of sweet potatoes at his garage south of town, and proposes furnishing everybody with plants.

Let us hear from somebody on the subject of levying a special tax for the purpose of prospecting for coal in this county.

S. H. Walker, Esq., has re-fitted the old P. O. building, and is now prepared to turn out a suit of clothes that would make a Pawnee Indian look like a gentleman.

See advertisement of McElwain & Fales, Painters. If you want anything in their line, give them a call. They do all kinds of work in the very best style, and on reasonable terms.

W. J. Hesser has our thanks for a fine assortment of flowering and evergreen plants. Hesser has a taste for the beautiful, and a generous heart. Were it otherwise, printers might never realize what beauties nature could produce in this far western country.

See advertisement of Prof. E. R. James. Prof. James has been engaged many years in teaching, and comes to us with unquestionable recommendations, not only as a teacher but as a gentleman of sterling integrity and irreproachable morals. The opening of this school will obviate the necessity of sending pupils away from home.

Mr. Mayfield informs us that the new Territorial road from this city to Lancaster is now opened, ready for travel. The bridge across Camp Creek was completed last Saturday. This will prove a great convenience to the people west and south-west of us, and adds another link to the chain that binds our interests and those of the Salt Creek country together.

We learn that "sod corn" got the upper hand of several persons last Saturday evening, causing considerable disturbance in town, much to the annoyance of quiet, well disposed citizens—Cannot something be done to prevent such occurrences? If they cannot be prevented otherwise, let sufficient bonds be required of saloon keepers that they will see to it that these boisterous proceedings do not occur on their premises.

From Tuesday's Daily.

Every boat that arrives brings a large quantity of goods for our city merchants, which are sold off at a rapid rate.

Dr. W. E. Donelan arrived at home this morning, having been east purchasing a stock of drugs.

Gold quartz is reported to have been discovered on the Potomac, fourteen miles below Washington, causing considerable excitement.

See advertisement of "\$200 reward" to-day. Here is a chance for somebody to do the country a service and at the same time get well paid for it.

The room formerly occupied by Howe & Thatcher has been fitted up in first-rate style. Dr. Donelan will soon have it fitted with "doctor's stuff."

The Nebraska City News has failed, so far to recognize the existence of a new Democratic paper started in that city by the Messrs. Harvey. What's the matter. Is Sterling afraid that his "occupation" is in danger?

We are regularly receiving the Daily Denver Gazette as an exchange. The Gazette is a staunch advocate of the interests of Colorado, and goes in for locating the Pacific road on the Republican. Here's our hand on that move, Bro. Stanton. We think Colorado, Nebraska, and everybody concerned would be benefited thereby.

A fellow cut west on being asked whether the liquor he was drinking was a good article, replied: "Wal, I don't know, I guess so, there is only one queer thing about it, whenever I wipe my mouth, I burn a hole in my shirt."

Hesser advertises his Sweet Potato Plants, and other things, to-day. The Yellow Nansmond, of which he is sprouting a large number, is the best potato raised in this climate. Send your orders early, as they will go off like "hot cakes" when the time comes.

We have received a large number of papers from different points in Iowa, Illinois, Wisconsin, and other States, within the past few days, all marked "X." Certainly, we will "X" with all of them. It shows to our satisfaction that the Herald is making this point known to the world, and people are anxious to see what is going on here.

In justice to Mr. Lenhoff, we would say that from the best information we can obtain, we believe he used every exertion to prevent the row that occurred at his place Saturday evening, and the aforementioned quarrelsome "sod-corn" was taken on board before the raiders came to his place. This all right so far as Mr. Lenhoff's intentions are concerned, but is only another evidence that something is wrong in the principle on which saloon keeping in this city is based. Cannot our city fathers do something to remedy this state of affairs? We do not urge this thing in any fault-finding spirit, neither from any ill will towards those who participate in these unseemly debauches; but because we believe the public good requires that a check should be placed upon them in some manner.

MARRIED. On the 13th inst., by Rev. David R. Dungan at his residence near Plattsmouth Mr. S. LEOPOLD BECK, of Cass county, and Mrs. MARY A. TIBBY, formerly of Louisville, Ky.

FOR RENT—A farm six miles west of Plattsmouth, with thirty acres under cultivation—good fence and dwelling house. Apply immediately to mar91 J. N. WISS.

ST. LOUIS AND PLATTSMOUTH, COUNCIL BLENDS AND OMAHA PACKET LINE.—The boats of this popular line are now making regular tri-weekly trips to all points on the Missouri river, between the above points. Parties desiring information in regard to freight or passage will find it to their interest to call on the undersigned. MICKELWAIT & SHARP, Agents. apr5ml

Wagons, Wagons. Staudé & Anderson, Plattsmouth, N. T., have secured the entire agency of the Schmitler Wagon, and will have a large supply on hand and for sale as soon as navigation is fairly opened. mar7

REMOVED. Staudé & Anderson have removed to the new three story brick building, east room, corner Main and Third streets, where they are ready to accommodate their old customers and as many new ones as will favor them with a call. feb 27

Grover & Baker's

Elastic Stitch

AND

LOCK STITCH

SEWING MACHINES

Were awarded the

HIGHEST PREMIUMS

At the State Fairs of

New York, Illinois, Michigan, N. Carolina, Vermont, Wisconsin, Tennessee, Pennsylvania, Iowa, Alabama, Ohio, Kentucky, Oregon, Indiana, Missouri, California,

At the Fairs of the

American Institute, Franklin Institute, Maryland Association, Massachusetts Mechanics' Association, Penn. Mechanical Institute, St. Louis Agricultural and Mechanical Association,

And at numerous Institute and County Fairs, including all the Fairs at which they were exhibited the past three years.

First Prizes have also been awarded these Machines at the exhibitions of

LONDON, PARIS, DUBLIN, LINZ, BERLIN, BRANCO, BAYONNE, ST. DIZIER, CHALONS.

And they have been furnished by special command of

Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

The GROVER & BAKER ELASTIC-STITCH SEWING MACHINES are superior to all others for the following reasons:

1. They are direct from the spool, and require no rethreading of thread.

2. They are more easily understood and used, and less liable to derangement than other machines.

3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines is much more firm, elastic and durable, especially upon articles which require to be washed and ironed, than any other stitch.

5. This stitch, owing to the manner in which the needle's point is brought in, is much the most plump and beautiful in use, and retains its appearance and beauty even upon articles frequently washed and ironed until they are worn out.

6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run or ravel, but remains firm and durable.

7. Unlike other machines, these fasten both ends of the seam by their own operation.

8. With these machines, which silk is used upon the right or face side of the seam, cotton may be used upon the left side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles of cloth or made up with silk.

9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily
