THE INDIANS.

There appears to be a vast amount f "moving about" among the Indians of the west just now, which is looked upon by many who are acquainted with the Indian characters as boding no good to the whites. We find the folowing dispatch from Colonel Taylor, which shows a large body moving in a outherly direction :

We also find the following item in a secent number of the Kearney Herald :

"Indians at Laramie were enraged, on Tuesday, by the guard shooting and everely wounding one of their numer. The Indian was lurking about ifter the hour of retreat, and refusing o halt, the sentinel fired on him. Several tribes were very wrathy, but after explanation they were pacified." A private letter to Major Wheeler

contains the following bit of informaion :

"The Indians (Pawnees-friendly) who went out on the hunt found a wagin and the bodies of six white men on Solomon's Fork. The men were stripped, and the team taken away. The Indians who done it chased the Pawnees in. I have two of the arrows aken from the bodies in my possesion. Besides this, we have seen a letter

If the Fenans were one-half as active and conentrative, and beligerent as the genlemen engaged in getting up telegraphc news, they would have had Canada before this time. It is nevertheless ertain that the activity in the Fenian ircles throughout the country is greater han ever, and that Fenians are being surried forth from all parts of the ountry. This looks ominous and gives eason for concluding there is trouble Fenian forces are being massed at Detroit, Buffalo, Patsdom, Ogdensburg Malone and St. Albans, towards all of which points trains go heavily leaded with armed bodies of men. Reports are so widely conflicting hat it is impossible to tell how many Fenians are in the field, but probably o less than ten thousand men. The President has issued an order brough the Attorney General to the United States District Attorneys and Marshals to arrest all leaders or conpicuous persons known as Fenians who have, or are about to violate the neutrality laws.
