

The Nebraska Herald.

LOCAL NEWS.

From Thursday's Daily.
The smiling countenance of J. D. Lauer, of the Nebraska City News, made its appearance in our office yesterday. Do it often, Dan, we always like to see a "live man," even if he does support "My Policy."

Among the celebrities who paid their visits to the "celebrators" yesterday was "Old Sol," and we never knew the old gentleman more brilliant. Fans and improvised fans, hats, coat tails, aprons, handkerchiefs &c., were kept constantly waving by the old gentleman's warm remarks. He scored 90 more than 'any' other man, woman or child on the ground and that too in the shadiest nook around. Bully for Sol; no doubt he rejoiced with the rest of us at "universal freedom."

Captain Donovan and Lieut. Whitlock, with a number of the soldiers of this county have arrived in town. Let our citizens be sure and stir themselves in giving them the best entertainment ever had in this Territory. No one so much as our soldiers deserve honor at the hands of loyal men and women. Remember the heroes who defended the country in the hour of peril and breasted the storm to save the old ship of state that our forefathers bequeathed us.

"A" Co., 1st Neb. Cavalry has been mustered out and paid off. Co. I and F which originally came from Iowa were the first paid and mustered out, the paymaster being a candidate for the gubernatorial chair in Iowa favored these two Co's. Co's G, H, I and C are mustered out but not yet paid. It seems hard that these brave men should be held in Omaha, paying an exorbitant board, just to suit the convenience of a political paymaster. We have heard officers of the old First say that the whole Regiment has frequently been paid off in three hours time by other Paymasters.

The Germans of this city celebrated "the Fourth" in the grove south west of Valley & Heisel's mill, yesterday, in splendid style. The Brass Band—the German Glee Club—and sweet sounds, discourse by voices owned by beautiful women, accompanied by medallions, &c., rendered the occasion one of the happiest ever had in Plattsmouth. The conourse of citizens was unprecedentedly large, and altogether a universal feeling of pleasure and delight was every where manifested. After sundown the sky was bright with fire works, rockets were every where ascending and showering stars, while the wae ones shouted to the mimic skirmish fire of innumerable fire-crackers. It is truly noticeable that this was the first commemoration of "Independence Day" on which "Universal Freedom" prevailed throughout our once more peaceful land.

From Monday's Daily.
President Johnson has signed the Pacific Railroad Bill.

The House of Representatives of Nebraska took an excursion on the U. P. R. last Saturday.

In the Nebraska City News we noticed that the agent for the B. & M. R. is in Nebraska City locating lands due to the Company by Congress. This looks like something is to be done. Who wants to sell out now for fear we will not have a railroad?

It is truly noticeable that this was the first commemoration of "Independence Day" on which "Universal Freedom" prevailed throughout our once more peaceful land.

From Monday's Daily.
The river continues falling at this point as is now four feet below the low water opposite here.

Thermometer reached 96 degrees during 4th and 5th, to day it is 92 degrees. It is the easiest thing in the world to get up a sweat.

What prospect is there for having cross-walks in our city? If our City authorities do not push this matter this will be a fine location for a blacking and brush factory, and an excellent point for some energetic man to set up in the "boot-blitz bay."

The gentlemanly Telegraph Operator at this city, Ceylon Williams Esq., tells us he has removed his battery and office to the new post office building, where he will deal out diluted lightning according to the wants of the annihilators of time and distance.

Council Bluffs is being treated to an interesting correspondence through the papers on the question—Does a ball ticket entitle the bearer to admission to the regions of his Sultan's majesty? Go in, gents, and after you've worn out your temper and spirit, join hands in a "social hop."

We notice the contractor Mr. Pronger is doing work on the new bridge across the gulley on Second street. This is the first apprise we have had for months that our watchful city fathers wakened up from the apparent lethargy they have indulged since New Year day. Where are those street crossings?

We are informed that the southern bound coaches from Omaha will now leave that place at 8 a.m. instead of at 4 p.m. as heretofore. Consequently instead of arriving here at 10 a.m. as formerly they will now reach this city at 12 30 p.m. Our business men and others will make a note of this to enable them to get their mail matter south in season.

We notice that our friends Messrs. Parcell & Sons are moving into the store formerly occupied by Dr. W. E. Donelan. This building has been entirely refitted, repaired and painted. Everything connected with it is fresh, sweet, and clean, and we know it will always remain so under the attentive supervision of P. & S. Give them a call all ye who relish anything delicious and healthy.

From Saturday's Daily.
Hon. P. W. Hitchcock, our Delegate to Congress passed up on the Emilie to-day.

A number of passengers landed at our city this morning from the steamer Emilie.

The Legislature of the State of Nebraska adjourned yesterday until Monday. The session will likely last all next week.

Through some mistake our Legislative correspondence of the 4th and 5th inst., failed to "come to time," and was not received until this evening—too late for publication.

The new stage line from Omaha to St. Joseph is now doing a fine passenger business. We sincerely hope this branch of the business will pay enough to induce the proprietors to put on four horse coaches.

Hon. Samuel Maxwell F. M. Dorrington, Esq., Sergeant-at-arms of the House, and a large number of "lookers on in Venice" came down on the Lacey this morning. If you want to travel on a trim, fast coach, get aboard the Lacey. She made the trip from Omaha to Plattsburgh this morning inside of two hours.

The Kearney Herald of the 3d inst., says: "A small train of emigrants started from the Missouri river to go to Montana, but before proceeding a hundred miles the small pox seized several of their number. Upon their approach to Kearney, last week, Capt. Ladd sent out a guard and insisted that the entire train should leave the road, and go into camp until the loathsome disease could be eradicated. They are now about a mile from Kearney receiving medical treatment at the hands of Dr. Tousky, Post Surgeon, who reports about a dozen cases already broken out. These poor unfortunate emigrants are from Iowa, and started from their homes in good health without any apparent symptoms of the horrible contagion which has since laid a heavy hand upon them."

From Monday's Daily.

President Johnson has signed the Pacific Railroad Bill.

The House of Representatives of Nebraska took an excursion on the U. P. R. last Saturday.

In the Nebraska City News we noticed that the agent for the B. & M. R. is in Nebraska City locating lands due to the Company by Congress. This looks like something is to be done. Who wants to sell out now for fear we will not have a railroad?

We are sorry to learn that the fine bridge, lately finished across Salt Creek, was broken down on last Friday evening. A drove of cattle was passing over it just as a heavy thunder storm came up, and becoming frightened by the lightning commenced crowding on the bridge until their great weight broke it down. Thirteen head of the cattle were killed and twenty seven badly wounded. This is quite a loss to the public in general, and we hope measures will soon be set on foot to repair this damage.

From Monday's Daily.
The advertisement in another column, of Lewis, Durbin & Co's Hay and Grain Loading Machine is worthy of special notice. It is said to be the greatest labor saving machine in existence, and will accompany, constantly the Reaper and Mower. It is highly spoken of by those who have used it. See advertisement.

The Soldiers' Reception last evening was one of the happiest gatherings we have ever had the pleasure of attending. Thomas' Band discoursed martial strains for the entertainment of the large audience. Hon. Marquett, in a short and elegant address, briefly recounted the services of the gallant "First," the efforts of Cass county for the soldiers' welfare, paid a touching tribute to the noble dead, and kindly, heartily welcomed the boys back to home and friends. Gen. Livingston, in response to loud calls, made a short, earnest speech, which was loudly applauded.

Not command, yet the hint he gave for Co. A to "fall in" was quickly noted on, and repairing to the lower room all were soon deeply interested in disposing of the good things provided by the generous ladies of Cass, and though the attendance was larger than at first expected there was enough for all, and to spare. After supper, the tables were cleared and arrangements made for the fair and young to "try the light fantasia," and

Dr. Bort is in possession of over six thousand letters of recommendation from the most prominent men living, setting forth the ability and skill he has won during his sixteen years constant practice.

ERIK, EAR, LUNGS, HEART, THROAT AND CATARRH.—The many wonderful cures performed by Dr. Bort, on the above diseases in this city, and in many instances when all hope of recovering by those diseases had been dispelled, of stamping them out, the expert physicians and surgeons in his profession Dr. Bort's Infirmary and consultation rooms are located on corner of North Third and Vine streets, where he can be consulted daily. *St. Louis Daily Republican* Aug. 18, 1863.

ST. LOUIS Mo., June 15, 1863.

I have been deaf in one ear for fifty years, occasioned by Scarlet Fever or Cancerous, and in the other for thirty years, occasioned by fever and taking quinine. My deafness was very great, so I could, with difficulty, understand any one; and it was impossible for me to hear common conversation. My deafness was accompanied by a constant discharge from the ear; also a continuous ringing and hissing noise in my ears. Three months since I put myself under Dr. Bort's care, and although seventy-one years of age, he has caused me to hear as well as any one of my age.

JASPER S. JOHNSTON,

14th street, St. Louis, Mo.

Mr. Johnston was formerly a wholesale Grocer on Second street, St. Louis.

(From the New York Medical and Surgical Journal.)

Dr. Bort, one of our most skillful physicians and surgeons will offer his services, while he remains, to the Ill and Deaf, and he will perform every operation upon the Eye and Ear which the science of the old and new worlds have shown to be advisable; and will use all new and efficient instruments and remedies used in the best institutions of Germany, France, England and this country.

A full supply of remedies, and that too of the choicest, constantly on hand, of which Dr. Bort prescribes for his patients.

April 20, 1863.

D. W. COLEMAN, Physician.

Plattsmouth, N. H.

From Monday's Daily.

President Johnson has signed the Pacific Railroad Bill.

The House of Representatives of Nebraska took an excursion on the U. P. R. last Saturday.

In the Nebraska City News we noticed that the agent for the B. & M. R. is in Nebraska City locating lands due to the Company by Congress. This looks like something is to be done. Who wants to sell out now for fear we will not have a railroad?

We are sorry to learn that the fine bridge, lately finished across Salt Creek, was broken down on last Friday evening. A drove of cattle was passing over it just as a heavy thunder storm came up, and becoming frightened by the lightning commenced crowding on the bridge until their great weight broke it down. Thirteen head of the cattle were killed and twenty seven badly wounded. This is quite a loss to the public in general, and we hope measures will soon be set on foot to repair this damage.
