

**Elastic Stitch AND LOCK STITCH SEWING MACHINES**

Were awarded the HIGHEST PREMIUMS At the State Fairs of New York, Illinois, Virginia, New Jersey, Michigan, N. Carolina, Vermont, Wisconsin, Tennessee, Pennsylvania, Iowa, Alabama, Ohio, Kentucky, Oregon, Indiana, Missouri, California, At the Fairs of the American Institute, Franklin Institute, Maryland Institute, Massachusetts Mechanics' Association, Penn. Mechanics' Institute, St. Louis Agricultural and Mechanics' Association, And at numerous Institute and County Fairs, including all the Fairs at which they were exhibited the past three years. First Prizes have also been awarded these Machines at the exhibitions of LONDON, PARIS, DUBLIN, LINZ, BESSANCON, BAYONNE, ST. DIEZIER, CHALONS.

And they have been furnished by special command of Empress of France, Empress of Austria, Empress of Russia, Queen of Spain, and Queen of Bavaria. The GROVER & BAKER ELASTIC-STITCH SEWING MACHINES are superior to all others for the following reasons: 1. They are made direct from the spot, and require no repairs. 2. They are more easily understood and used, and less liable to derangement than other machines. 3. They are capable of executing perfectly, with out change of adjustment, a much greater variety of work than other machines. 4. The stitch made by these machines is much more firm, elastic and durable, especially upon articles which require to be washed and ironed, than any other stitch. 5. This stitch, owing to the manner in which the under thread is introduced, is much the most plain and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out. 6. The structure of the needle is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run or ravel, but remains firm and durable. 7. Unlike other machines, these fasten both ends of the seam by the tread, thus rendering the seam the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched with a slip with silk. 8. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamental work.

**HELMBOLD'S** **FLUID EXTRACT**

**BUCHU.** At the Cape of Good Hope

**THE HOTTENTOTS** Have long used

**BUCHU** For a variety of Diseases.

It was borrowed from those rude practitioners by the English and Dutch Physicians, on whose recommendation it was employed in Europe, and has now come into general use.

It is given chiefly in Gravel, Chronic Catarrh of the Bladder, Mucous Irritation of the Uterus and Uterine, for Female Weakness and

**DEBILITY.**

For Dropsy and Bearing Down, or Prolapsus Uteri, Diseases of the Prostate Gland, Retention, or accumulation of Urine, and all diseases requiring the aid of a diuretic, arising from a loss of tone in the parts concerned in its excretion.

It is also recommended in cases of **Dyspepsia, Chronic Rheumatism,** Cutaneous Affections and Dropsy.

To cure these diseases we must bring into action the muscles which are engaged in their various functions. To neglect them, however slight may be the attack, is sure to affect the bodily health and mental powers.

**Our Flesh and Blood** are supported from these sources.

**PERSONS AT EVERY PERIOD OF LIFE,** From Infancy to Old Age, and in every state of health, are liable to be subjected to these diseases.

The Causes in many instances are unknown. The patient has, however, an admirable remedy in

**HELMBOLD'S** Fluid Extract of Buchu.

**Farmers, freighters and physicians** Philadelphia Evening Bulletin Editorial, Sept. 15, 1865.

**HELMBOLD'S** **GENUINE PREPARATIONS.**

This Solid and Fluid Extracts embody the full strength of the ingredients of which they are made. They are left to the inspection of all. A ready and conclusive test of their properties will be a comparison with those set forth in the United States Dispensatory. These remedies are prepared by G. T. Helmhold, a druggist of sixteen years' experience in this city, and we believe him to be reliable; in fact, we have never known an article lacking merit to meet with a permanent success, and Mr. Helmhold's success is certainly prima facie evidence. His Drug and Chemical Warehouse, in the city of New York, is not excelled, if equaled, by any in the country, and we would advise our readers, when visiting that city to give him a call, and judge for themselves.
