

LOCAL NEWS.

From Wednesday's Daily. Rev. Geo. C. Betts returned yesterday on the Colorado.

Wild geese are quite plentiful in this region of country, and our sportsmen are improving the opportunity by inducing a goodly number of them to stay here.

Every day affords new proofs of the peculiar effects of Roback's Stomach Bitters in cases where a disordered condition of the stomach, liver and bowels, is combined with great debility, nervous weakness, and intense melancholy, there can be no doubt but it is sure panacea.

We had the pleasure of meeting our old friend, Maj. J. W. Pearman, yesterday, while passing through the city on his way to Omaha. The Maj. is an old resident of Nebraska, served with the 2nd Nebraska Cavalry during its term of enlistment, was with Grant's army before Richmond, and has for the past eighteen months been stationed at Davenport, Iowa, as chief Quartermaster of that Department. The Maj. has bought property at Davenport, and is now on a visit to Nebraska for the purpose of disposing of his property here and removing his family to Davenport.

The street crossings are completed as far up as Fourth St., and the city appears, and is, much better in consequence.

Dodge's majority in Pottawattamie county is 52—a little under the average majority of the ticket.

The Confederate colony in Brazil is a bad way, and the members of it are anxious to get back to the United States.

Mrs. Bronson has taken charge of the Herndon House, Omaha, and is refitting it for the accommodation of the Public.

The Council Bluffs Nonpareil says, if the weather keeps good, the principal part of the grading of the Chicago & Northwestern Railroad to the Missouri river will be completed within four weeks.

Recently some nine miners were working at the bottom of a shaft in Calaveras, California, when one of them unclosed with his pick an orifice through which flames could be distinctly seen. Turning round and throwing down his pick, he remarked to his chums: "It's no use to go any further boys; we've struck Hell!"

The steamer Cora was sunk near St. Joseph yesterday, on her downward trip. She had on board a considerable amount of wheat from this city, which was insured in the Astor. This is the third or fourth boat that has been sunk within the last month between this place and St. Joseph. Why is it. It must be caused by carelessness, or because it is late in the season.

A greater number of actual settlers have come to Nebraska during the past year than ever before in the same length of time since the Territory has been organized. They are mostly men with families, who engage in tilling the soil. They are the real wealth of our country. One of the main reasons for this large influx is the spreading of information relative to our Territory—its climate, soil, products, markets, etc. Let this course be continued, and the immigration the coming season will be much larger than it has been during the past. Send papers, write letters, and do all in your power to give eastern people a correct idea of our country.

The Nebraska City Press says business is very brisk in that city. Such a state of affairs is good evidence of prosperity, from the fact that nearly all the towns on their former Missouri are now re-located to their "normal condition"—that is, to their own legitimate business, the freighting west having materially subsided.

A writer in the Nebraska City News evidently takes pride in subscribing himself and "Ex-Rebel," and goes into extenuations in view under that appellation. Such titles may be, and we presume are, honorable in that city; but the writer should remember that the Territory has lately pronounced, by an emphatic majority at the ballot box, in favor of loyal citizenship.

We learn from Mr. Simpson that the Cora was not sunk as reported yesterday; but had a hole knocked through her hull which let in a considerable amount of water. The injury was temporarily repaired, and she went ahead. It is the belief of Mr. Simpson that a great amount of her cargo was injured.

We had the pleasure of meeting Wm. Hale, Esq., of Glenwood, to-day. He was in the city on business. He reports the Republicans of Mills county jubilant in consequence of their recent victory over the policy of "Moses." Mr. Hale is evidently a "sound" man, as well as an able lawyer; and we hope to see him often.

The St. Joseph Herald which was at one time considered a loyal paper, is now urging rebels to go before the Registering officer and swallow the "iron clad" oath required by their constitution, in order that they may vote at the fall election. We don't the Herald have them perjure themselves after having committed treason? We think they have enough to answer for, already; without jeopardizing their souls by perjury. And to think that a paper which was once loyal should urge them to do so.

From Saturday's Daily. A Shooting Galley has been opened in Nebraska City; so says the News.

Dr. Renner has been appointed Inspector of Tobacco, Segars and Snuff for Nebraska. Heary.

Just received at Thomas' Photograph Gallery, a large lot of Fancy Frames Mouldings, etc.

A man who speculates in lottery tickets is pretty sure, in the end, to be broken on the wheel.

The goods and chattels belonging to the estate of Peter A. Sarpy were sold at public Auction to-day by the administrator.

The Nebraska City News says: We learn from the Captain of the ferry boat, "Nebraska City No. 2," that more families have been crossed from the Iowa to the Nebraska side this fall than any other preceding year. The great number crossed have settled in the vicinity of Salt Creek and the Blue river.

"It takes money to buy whiskey," so it does to run a newspaper. If a few of those indebted to us will come forward and settle it will assist materially in running the Herald. We seldom "dun" our patrons, and we hope they will not give us cause to repeat it again for a long time.

We learn from the Rev. Mr. Betts that the lady whose generosity has given to our city the beautiful Church of which he is Rector, has also furnished it with a Pipe Organ—marble front—a solid silver Communion Service, Carpet, Lamp &c., of the finest description. The Church is erected in memory of her husband and son. What monument can perpetuate the memory of good men than the home of God, where the weary and heavy laden may join their prayers with the praises of the faithful.

Sealed proposals will be received for completing the work on St. Luke's Church. See hand-bills.

Saline county is reported 23 majority for Morton. It gives 22 for Hell man over Doom.

The new bell for the Presbyterian Church was raised last week, and is an excellent bell, its tone being loud and clear.

Yesterday was a regular "Fall" day. The wind was strong and cold, from the North west, with an occasional sprinkle of rain. Last night was clear, cold and frosty.

The Board of Trade of Omaha have made preparations for receiving the excursionists from St. Joseph on their arrival in Omaha. Gen. Dix will not be one of the number, as was first supposed.

A New York date of the 15th inst. announces that Horace Greely has received and accepted the Republican nomination for Congress in the 4th district in that city.

Judge E. S. Dundy arrived in town this forenoon, and opened court. There is a large amount of business on the docket, among it a number of criminal cases.

J. Sterling Marton says: "We always did admire pluck!" You are right, my boy! We know of several people who think the same way. Pluck is a great institution, and we have not the least doubt you admire it.

The "signs of the times" are favorable for Nebraska, and especially for this county. We are informed that a colony of forty families will remove from Illinois into this county next spring; a portion of the men are now here purchasing land preparatory to removing their families in the spring. If you would have more of this class of people here, advertise Nebraska.

The people of Nebraska City are using every exertion to establish a tri weekly mail between that city and Kearney—which was suspended some time since and weekly service inaugurated instead. We hope they may succeed.

We have heard it said by some that as good butter and cheese could not be made in Nebraska as in the eastern States, because of the difference in the kind of grasses. Mrs. Joh. Richardson, of Eight Mile Grove, has proven this idea erroneous: She let a roll of butter at the Herald office last Saturday that can not be surpassed in the best dairy counties of New York. It is undoubtedly owing to the crude arrangements with which some of our farmers are provided for the manufacture of butter and cheese that the entire product of these articles in Nebraska is not of the very best quality. Our prairie grass may not be as good as some of the tame grasses in the east, but the only difference would be in the quantity, not in the quality, if our farmers were provided with the necessary machinery and conveniences for manufacturing butter and cheese.

Murphree & Simpson at Rock Bluffs, are selling off their entire stock of goods at cost. See posters.

We want ten cords of wood on subscription and advertising. Who will furnish it, or a part of it.

John Morrissey, the noted bruiser and blackleg, has been selected by the Democrats of the Fifth New York District to represent them in Congress.

The quarterly meeting of the M. E. Church commenced to-day, conducted by Elder Miller, of Plattsmouth.—Press.

The Omaha papers to-day contain nothing but "Excursion" articles. It's a "big thing on wheels," and we don't blame the people of Omaha for feeling jolly. It is nearly equal to the Republican victory in Douglas county.

Col. O. P. Mason and Hon. Wm. McLennan, of Nebraska City, are in town attending Court.

During nearly nine years residence in Nebraska, we have never known so many immigrants to arrive in the fall of the year as are arriving this fall. Every day white covered wagons may be seen on our streets containing the families and household effects of those who are leaving the crowded settlements in the east to take up their abode on the broad and fertile prairies of Nebraska. There is room and to spare for thousands more. Government land can be had for living upon it, without paying one cent except the Land Office fees, which only amount to a trifle; and it is far better land than can be found in the east. The soil in many places is five and six feet in depth, and there is no "wear out" to it. Land has never been known to be exhausted in this country from cultivation, and enriching it by artificial means is a thing never thought of here.

D. H. Wheeler at home again. I take pleasure in informing my old business patrons that I am at home again and established in the General Agency business as of old. Thankful for past favors, I now solicit the patronage of my old, and all new friends to give me a call. I will endeavor to give satisfaction to all.

A business entrusted to my care will receive my prompt and personal attention. Give me a call at the old office to the Court House.

D. H. WHEELER, of firm of D. H. Wheeler & Co. Plattsmouth Neb. Oct. 13th 1866

ERRORS OF YOUTH. A gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send you a full and complete course of treatment for a single copy of which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing in perfect confidence, J. B. GUNN, 251 Broadway, N. Y. No. 42 Cedar St., New York.

In going for or ordering goods the great question to be solved is where they can be had so as to enable the purchaser to make the greatest profit. If they can be had near home for about the same money that would have to be paid at a greater distance, it is certainly an inducement. Let our dealers in Groceries, Liquors, etc., reason upon this subject, and when they want anything in the line, go to Westheimer & Epstein, in St. Joseph, and we doubt not they can make it more profitable than to send or go further east.

SETTLE UP. All persons indebted to me by account or otherwise, are requested to call and settle forthwith. All accounts unpaid will, after a reasonable length of time, be placed in the hands of an officer for collection. Geo. BORCK, sep-5dtf

DR. M. H. MCCLUSKEY, DENTIST. Will do all work in his line on short notice. Office with Dr. Livingston. sep-6

First Annual Statement OF THE NORTH-WESTERN Insurance Company, OF DECATUR, IOWA, FOR THE YEAR ENDING JUNE 30th, 1866.
