

LOCAL NEWS.

From Wednesday's Daily. A theatre is about to be opened in Nebraska City under the management of a Mr. Potter, an old hand at the business.

They have a cayote chained at the News office in Denver, which that paper says resembles a Johnson man inasmuch as it "swings around the circle," which its chain allows it to do, and looks snaking and very much cowed.

The News says that Dr. Frank Howard and James Reed, Esq., of that city, have gone to Iowa on a "drumming" excursion. We believe our business men can do a better and cheaper job of "drumming" by sending copies of the Herald through the country.

We would call the attention of our readers to the advertisement of Mr. Whiting, of St. Joseph, in today's paper. The business men of St. Joseph are branching out in the wholesale business considerably, and we hope they will meet with the success they deserve. We see no reason why they should not do an extensive wholesale business, and we hope our buyers will consider the matter well before they go further east to make purchases. The agent of Mr. Whiting was in town yesterday, and sold several large bills, showing that he could furnish anything in their line as cheap as it can be had further east.

From Thursday's Daily. A lady in Pike County, Mo. has called her baby Veto, in compliment to the President.

The office of the Omaha Republican will be removed to the new building on Douglas street, on Monday the 13th inst.

The Band can appreciate Harkell's ledgerman. The members know exactly what was done, but cannot tell exactly how it was done. It will not as "fool for the mind," which is the design of the performer.

We have just received a large stock of Cards, Card Board, Bill-head paper, Flat-Caps, Flat-Letter, and a general assortment of everything needed in the job printing line. Send in your orders if you want neat work at reasonable prices.

Some one of the county officials of Richardson county has concluded to butt his brains out against the Nebraskaian, the Republican paper of that county. Pierce will make it warm for him, as he ought. A newspaper in Nebraska cannot be conducted to suit everybody, and when an individual sets himself against one because it is not run in his exclusive interest he should be handled without gloves.

"Benefit" is evidently a great thing; at least the Plattsmouth Brass Band is of that opinion. The Band played for Houdin two nights and he played for them one. The use of the ball and the license were donated last night on account of the performance being a "benefit" for the Band. These two items would have amounted to exactly \$10. Houdin returned \$2.15 as the receipts. The Band played three nights and paid eighty-five cents for the privilege; "benefits" are great things. There were about one hundred and twenty-five persons present—tickets \$1.00. Look out for "benefits" in Omaha.

From Friday's Daily. There is no better evidence of the prosperity of Nebraska, or of the increasing attention she is attracting, than the fact that every line of public conveyances is crowded. Mr. Wheeler, of the Kansas and Nebraska stage line, has substituted four horse Concord Coaches in place of the two-horse hack heretofore used. The increasing travel made the improvement necessary.

We are not in favor of universal boasting (a system often employed by others) of the celebrity of this or that medicine, and we keep our praise until we have positive knowledge of the value or virtue of an article. It gives us pleasure however to recommend to our readers Dr. C. W. Roback's Stomach Bitters, Blood Purifier and Blood Pills. The Bitters give tone to the stomach, aid digestion and reinvigorate the system, restoring shattered and broken down constitutions. There can be no better remedy for purifying the blood than the Purifier and Blood Pills.

Another fire occurred this morning, in the North-west part of town. About four o'clock the brewery of Mr. Breed was discovered to be on fire, and was totally consumed in a few minutes after the fire was seen. The building was insured in the Illinois Central company to the amount of \$1,000—something near its value. There was about \$600 worth of grain in the building upon which there was no insurance. The fire is supposed to have been the work of an incendiary, as Mr. Breed was in the building just before night and says there was not a particle of fire there at that time. This is the second fire within a short time which is believed to have been set by some scoundrel, and it is about time he or they were hunted up and taken care of. No man's property is safe while such characters are allowed to run at large and vent their spite in this manner either upon a personal enemy or upon the town. We do not know that this fire was the work of an incendiary, but it would do no harm to endeavor to find out and should such prove to be the fact, we say punish the culprit severely.

From Saturday's Daily. J. N. Wise, at the Book Store, has just received at large lot of school and miscellaneous books.

The Nebraska City News says: "A private telegram from St. Joseph to the Mayor of this city, informs us that two men named Charles Henry and Frederick Siegle, having in their possession two horses one an iron gray and the other a black horse, both four years old, have been arrested at St. Joseph. They state they stole the horses five miles from Nebraska City."

Rev. Geo. C. Betts, Rector of St. Luke's Parish, proposes opening a High School in this city. Parents who register their children to go through a preparatory course, without change of teachers, will find Mr. Betts' School all that they ask. Pupils under his charge will receive the very best moral instructions, which is of as great importance as grammar or mathematics.

The demand for Nebraska wheat is so great in St. Louis that the number of steam-boats on the river is entirely inadequate to supply it. There are now thousands upon thousands of bushels awaiting shipment, and the boats have their full down cargo engaged before they leave St. Louis. Let us have more boats. It will certainly pay at the rates charged for freight; and the American people are generally not slow to supply any demand as long as it will "pay."

B. E. Langdon, Esq., General Western agent of the Merchants Union Express, called on us today. Mr. Langdon is at present engaged in establishing agencies, and informs us that in the course of a few days goods will be transported through to this and other points in Nebraska by this company. Maj. D. H. Wheeler has been appointed agent at this place, and is now ready to receive and forward goods through by this company. It is a new organization, and proposes to materially lessen the cost of sending goods by express.

From Monday's Daily. We are sorry to note that Mr. Marks, on account of ill health, is compelled to suspend his Masonic teachings through the Glenwood Opinion.

The Ladies of the M. E. Church Miss Society, will give a public entertainment, at Prof. E. R. James, on Wednesday eve, the 11th inst. A large cake containing a ring will be disposed of during the evening.

Dr. John Black has handed us a communication, which we decline publishing for the following reasons: It does not contain anything of vital importance to the public, it is lengthy, and refers wholly to personal matters. At the request of the Dr. however, we will say that the subject matter of the communication is a call upon Mr. B. Sparlock to show cause why he, in a letter in the Herald of Saturday, is unwilling to have him (Dr. Black), sit in judgment upon his affairs, and also calls upon Sparlock to show any wrong he has ever done. We do not decline publishing the Dr's. article because of any ill will towards him or any particular thing in the article; but because we do not think the public cares anything about the personal affairs between him and Mr. Sparlock, and we would prefer to see them both drop a subject, which is mutually unprofitable and uninteresting.

A correspondent in the Republican, referring to our article in regard to a bridge across the Platte, urges that it should be built "somewhere between the mouth of Ekhorn river and Saline Creek," because "it would be the means of bringing to our city (Omaha) a large portion of the trade of Cass, Clay, Butler, Lancaster and Saunders' counties. We did not propose the erection of a bridge across Platte for the exclusive benefit of Omaha or any other point, but for the good of the whole Territory and the accommodation of the traveling public. While a bridge at the point spoken of by this correspondent would evidently be a good thing for Omaha, it certainly would not be for the best interests of the Territory in general, nor would it accommodate the traveling public to any great extent. In fact, we believe it would be of far greater benefit to Omaha, even, to have the bridge on the main line of travel, and we think this correspondent sees benefit only in that which would harm some other point than the one where he resides, and not in a measure that would do good to all alike. We certainly need a bridge, and hope that no person will attempt to get up a sectional feeling as to where it should be, for so sure as that is done there will be no bridge built. Go ahead and build one where common sense would designate as the proper place, and in course of time we can have another if there is any need of it. But above all things do not throw obstacles in the way of having any bridge at all.

From Tuesday's Daily. We want a few cords of good wood from some one indebted to the Herald office. Bring it right along.

Now is the time to buy real estate in this city. Those who want property here and fail to secure it before next summer will see their mistake.

The St. Joseph Herald is not a very good prophet. Before the election it claimed 7,000 conservative majority in that district. The returns show 8,000 on the other side.

We will furnish the weekly Herald and a copy of either Harper's Weekly or Harper's Magazine one year for \$6. The subscription price to either the Weekly or Magazine is \$4. Who wants them?

Mr. Herald: Please announce through your columns that the Christian Church will commence a protracted meeting this evening, November 13th, at 7 p. m., in the Brick School House in Plattsmouth.

The members of Nebraska Chapter No. 3, are requested to meet on to-morrow evening, 14th inst., at half past 6 o'clock, to attend to business of importance.

A slight "pleasantness" occurred between two citizens last night, and several harsh words appear to have got tangled in the mouth of one of them—at least that part of his face shows signs of it to day.

The Council Bluffs Nonpareil says a gentleman in that city is making preparations to commence the manufacture of paper the coming spring. We hope he will not "back out," but will continue his preparations. It will pay—the manufacturers and the consumers.

We have received the first number of the Tri-Weekly Press, of Nebraska City, O. H. Irish Editor and proprietor. It is a six column paper, containing ten columns of reading matter, and the mechanical appearance is a decided improvement on the former daily. It deserves a liberal patronage, and we hope it will receive it.

We have made arrangements with T. Cummings, Esq., to canvass this and adjoining counties for subscribers to the Herald. Every man in Cass, Lancaster, Saline and Seward counties should have the Herald, and we hope they will not delay the time of commencing. Give us a large list and we will agree to give your money back if you are not satisfied at the end of the year. Let our friends throughout the different counties do what they can to increase our circulation, and thus enable us to give them a better paper.

An Honest Machine. The Rev. G. W. Hubbard, of Wilson N. Y., writes to the Wilcox & Gibbs Sewing Machine Co. "I have regarded your machine as the most perfect in construction and working of any I have seen, but now, after taking it to pieces, I admire it more and more. It is an honest machine, and I hope every man and woman who owns one will take a pattern from it, in principle and duty."

MARRIED. MILLER—WIDACHRE—On the 8th inst., in this city, by Judge Marshall, Mr. Lewis A. MILLER and Miss ELIZABETH WIDACHRE, both of Mills county, Iowa.

D. H. Wheeler at home—again. I take pleasure in informing my old business patrons that I am at home again and established in the General Agency business as of old. Thankful for past favors, I now solicit the patronage of my old, and all new friends to give me a call. I will endeavor to give satisfaction to all.

A business intrusted to my care will receive my prompt and personal attention. Give me a call at the old office in the Court House.

D. H. WHEELER, of firm of D. H. Wheeler & Co. Plattsmouth—Neb. Oct. 13th 1866
