SLANDEROUS.

The Neb. City News accuses us of "slandering" Nebraska City, and endeavors to prejudice the minds of the merchants of that chy against the HERALD and prevent their advertising through its columns. Our offense in this matter consists in criticising the statements of the News that the B. & ing to Nebraska City that this one does, M. R. R. was coming to Nebraska City and no better, we are afraid the peoand that the Chicago and Northwestern | ple of that city will have to travel many at that point. We have ever manifest | locomotive. The News claims that terial interests of Nebraska City when minus of the Chicage & North western railroads that point to and from the futhey did not directly conflict with those road. We have all along known that ture chief city of the Missouri Valley. of our own town; but it is a fact patent it was hard up for Railroad arguments, we do not lose sight of the Burlington to every reader of the News that but did not suppose it reduced so low that journal has parsistently fought as to attempt to insult the intelligence every measure that was calculated to of the people with such stuff. benefit Plattsmouth, both in the political and financial field. It used its utmost exertions to interfere with the land grant of the B. & M. R. R. with the expectation that the company would throw up the grant if they were restricted to a certain extent, and that Ne braska City would then stand a better chance of getting the road. Now we want it distinctly understood that whenever the News or any other journal attacks the interests of this localny that we shall defend them; but when we can do it in no better manner than by trying to prevent people advertising in the News we shall conclude we are pretty low down in the scale, and quit the business. While we respect the rights of Nebraska City, we at the same time believe that there are other places in the State, and one of them is located about two miles below the mouth of the Platte river. We believe Nebraska City will have a railroad, and we hope in its epithets against the party because ple of this State, which is nothing less she will; but we believe it will be they could not carry the City election, another than the B. & M. R. R. or the Chicago and N. W.; and if the News expects to ever accomplish anything for Republican. We object to this, and Nebraska city, it would do well to take feel disposed to take the part of the some other tack than trying to prevent Democracy to some extent when their the construction of a road through this part of the country. We do think that paper extremely silly in continually one can dispute that the two Democrats tract the following: harping about the B. & M. R.
