The advantages in buying D. B. De Land & Co.'s Best Chemical Saleratus are numerous. Among them are full weight and perfect goods.

A correspondent of the New York Times estimates that the conservative majority in the southern States would be about 100,000. This would about equal Brough's majority over Vallandigham in Ohio.

Reno, and that the balance were crumpled at the mouth of Sage creek when last heard from. Mr. Porter thinks however, that the train has moved on before this time, as he met several large parties going up, as he came in.

From Thursday's Daily.

The Colorado came up about 1 o'clock last night.

Hon. Isham Reavis, of Falls City, arrived in town last night, and is stopping with his brother-in-law, Roscorer Derrington. He goes to Omaha to-day.

The Democracy appear willing to have a Registry law passed—at least the News says they do not object. Suppose they did; what good would it do?

W. R. Seal, Esq., of Ashland, called at the Herald office this morning. He is engaged in the mercantile business in that flourishing town, and reports everything prosperous in that region.

The White Cloth Chief admires the pluck of the newly elected Democratic member of Congress from Kentucky, who committed suicide a few days since, and ingeniously remarks that there are many others who might imitate his example, with profit to themselves and to the country.

We noticed several immigrant wagons loading in town this morning with lumber, doors, sash, etc., preparatory to going a few miles west and making homes on our fertile prairie. Most of the settlers coming in this season go to work like they knew what they were about, and expected to remain in Nebraska and make comfortable homes for themselves and children. This is the class of men who will never weary of living in Nebraska.

Our Boot and Shoe dealers have been doing a lively business for a day or two past. There has been quite a mania for boots of the latest style; and scarcely a pair of the old fashioned square toe boots are to be seen on the streets to-day. These who have not been able to supply themselves at the various stores can be accommodated at Throsmorton & Son's or Gage & Davis.

CONSTITUTION OF THE BOWELS.—When this is merely accidental or occasional, a dose of Roback's Sugar coated Pills is the only treatment necessary; but when it has become habitual, it calls for further attention. Want of exercise is generally the chief cause, especially among the higher classes of society in which case the use of the Blood Pills should be followed to keep the bowels open.

The Pasha and all his Retinue. Rev. Oliver Crane, Missionary of Adrianople, writes: "The machine works admirably. There is no other Sewing Machine but this in all Adrianople. We have had company after company to witness its magic operation, from the best classes in all Adrianople; among them the Pasha and all his retinue. He bore away with him a specimen of his own sewing, and was delighted. It has many admirers. Some want to purchase—all stand amazed at its telegraphic speed!"

Letter to the Willcox & Gibbs S. M. Co.

From Friday's Daily.

We learn that the grasshoppers are disappearing very fast from the southern part of the State, where it was feared they would do much damage.

Mr. Stadelmann, brother of Wm. Stadelmann, Esq., of this city, arrived in town a few days since, direct from New Orleans. He intends going into business here.

Capt. Grace, of Boston, is organizing the Fenian Brotherhood in Nebraska and Iowa. He reports the organization as very complete throughout the United States. There will be a consolidated Convention for the States of Wisconsin, Minnesota, Iowa and Nebraska, at Dubuque, Iowa, on the 23d of July.

The House has elected a temporary Sergeant-at-arms, awaiting the arrival of Capt. Laboo. They had better elect permanently, as we learn that Laboo will not be there. He came this far and returned to Nebraska City again, instead of going to the Capital as we supposed and stated at the time.

Almost every day several emigrant trains encamp near this city, purchase their outfit, and cross over the plains to Idaho, Montana and California by taking the southern route at Plattsmouth. Over twenty wagons passed through yesterday.

The above paragraph clipped from the Council Bluffs Nonparteil, shows that emigrants are getting "posted" as to the route west. Nearly the whole western bound travel now crosses the river at this place. Large numbers come to Council Bluffs, outfit there and then come down and take the Great Central Route from Plattsmouth; and others come direct to this place by way of Glenwood. Emigrants will take the best route when they know which one it is.

J. N. Wise, of the City Book Store has laid upon our table a copy of the Commercial Free Press, a new paper published in Chicago, and devoted to the banking, mercantile and manufacturing interests of the Northwest. We make the following extract: "Regarding the unsatisfactory condition of business, one or two facts suffice. The two leading dry goods houses in New York, whose sales in 1855 were respectively \$125,000, 000 and \$79,000,000, return no income to the United States Government Assessor for 1856, having made no profit on their sales during that year. Harper's Weekly for May the 4th, says that the trial balance shows that one of the wealthiest New York dry goods houses, just made out, shows a profit of precisely eighty cents for the current year, and adds that one very extensive clothing house, whose sales in flush times used to reach \$8,000 to \$10,000 daily, at this time of year, took in just \$25 one day last week."

From Saturday's Daily.

Hesser has our thanks for a nice bunch of radishes and another of onions. He will have a large quantity of them in market during the coming week.

E. A. Mathews, formerly a "typo" at Nebraska City, has gone west in the employ of the Pacific R. R. Co. to sketch the scenery along the line of that road.

The steam ferry boat has been kept busy all day crossing immigrant wagons. Some are bound for the far west, but a large portion of them are stopping in Nebraska.

Mr. Snow, who edited a Union paper at Maryville, Mo., at the commencement of the rebellion, and had his office riddled by the rebels—called on us this morning. He proposes starting a new paper at Clarinda, Iowa.

James McGorman, of Omaha, warns Catholics against a man calling himself Rev. McGill, and says he has no authority for exercising clerical functions in his jurisdiction. McGill was here a few days ago.

A. C. Mayfield crossed the river this morning with 500 as fine sheep as we have seen in the west, bound for the Chicago market. Mayfield is doing a heavy business in stock. He has about 250 more sheep, 500 fat hogs, and 75 or 100 head of cattle.

The trial as to rights of hogs vs streets and gardens takes place this afternoon. We have heard it intimated that a new code in this part of the country will be cited as authority, wherein it says something about swine being "driven into thesea."

The Press says Hon. Mr. Smith and Capt. Keever of Springfield, Illinois, the former a member of the Illinois Legislature and the latter a Provost Marshal, came down from Omaha, a few days since on their way to Salt Creek, to investigate the Saline resources of that section.

A party of gentlemen came down from Omaha yesterday and visited our

famous fishery. We have not learned what success they had but presume they felt a "bite." Some half dozen of our citizens went out yesterday armed with hooks, lines and poles, and there were four "sneakers" and two "gars" in the wagon when they returned.

From Monday's Daily.

The publishers of Missouri have held a State Convention recently.

Mayor Pottenger returned from Omaha yesterday. He reports things moving along smoothly at the capital.

The Mayor and many "respectable citizens" of Mobile apologized to Mr. Kelley for his attempted assassination, and asked him to speak again. But so far they have not caused the arrest of any one for the attempted assassination. Apologies are very good some times, but are not always a safeguard to life without some other accompaniments.

We desire to call the attention of the city authorities to the fact that the people of this city are clamorous for the abatement of a certain nuisance in the west part of town. We refer to the "shebang" which inmates are constantly on the watch about town to "pick up" every species of property they can lay their hands on. Their systematic stealing has become unendurable, and it is about time the "institution" was cleaned out.
