

LOCAL NEWS.

From Wednesday's Daily. Simpson, Mickelwait & Co. received a large lot of groceries and building material yesterday.

St. Luke's Church yard has been graded and cleaned up, considerably adding to the appearance of that beautiful improvement.

J. W. Barringer Chief Commissioner Dep't of the Platte, advertises for 10,000 pounds of Potatoes. Bids to be received until the 8th inst.

The mercury on yesterday stood 88 deg. above "that thing," and to-day was 94 in the shade. Really, it begins to feel warm and summer like.

The building formerly occupied as the City Bakery is being newly fitted up and furnished. We understand it is to be used as a Bakery and Ice Cream Saloon.

The warm weather is thawing out the emigrants and their white covered wagons keep rolling through our streets. Most of them will settle in our State and take farms on our rich prairies.

If any of our tax-payers desire to get the worth of their money out of our street crossings we would advise them to improve the present opportunity—it may rain soon, and then you can't.

Hesser's Sweet Potato Plants are going off like hot cakes, and we advise all our friends wanting any to give him their orders immediately. He is shipping by express every day.

The contract for furnishing one thousand cows and thirty bulls for various Indian tribes was let on the 1st, by Supt. Denman, at thirty three dollars and thirty three and one-third cents to J. P. Williams, of Topeka, Kansas.

There was a general dog fight in town last night—our dreams were considerably disturbed by the "ki-ya," of the under dog. Won't our City Council give a contract to some one to kill the four or five thousand surplus dogs in the town?

Good diet makes healthy children and healthy adults. Good bread is absolutely indispensable to good health, and good Saleratus is absolutely necessary to secure good bread—and De Land's Best Chemical Saleratus is absolutely the best kind, always put up in full weight.

Plattsmouth to have a Fourth of July? Who knows and if nobody, why don't somebody find out—so that all the bodies hereabouts may have a good time and celebrate the day as it should be celebrated. Who will make the first move to get up a real lively, jolly, glorious, old-fashioned Fourth?

Our streets were enlivened to-day by a "wee bit" of a runaway. Two horses attached to a wagon, made very good time and an excellent turn near the small bridge on Third street. A small colt followed the example of its dam, but on being interrogated as to its reasons, replied by kicking the interrogator.

From Thursday's Daily. B. Newman, Esq., came down from Council Bluffs to-day. He reports business lively, and the "twin sister" fishing.

A new advertisement of Simpson, Mickelwait & Co. This is a go-ahead firm, as will be seen by their liberality in advertising.

The St. Joseph passed up this morning having on board about thirty passengers from Nebraska City. We presume they were going up to take a last look at the capital.

The steamer Glasgow left fifteen passengers after her landing on her last trip down. She is a first class boat, and her gentlemanly clerk, Mr. Role, is making her a host of friends along the river. D. H. Wheeler is agent at this place.

The person who took a new scrap from the shop of Geo. Boeck about two weeks ago, will confer a favor by returning it. It belonged to the County Commissioners and was in the charge of Geo. Baber, of Eight Mile Grove, and he is unable to lose it, as he will have to do unless it is returned.

F. M. Dorrington, Esq., of this city, has purchased the right to sell in this, and two or three adjoining counties the celebrated Coal Oil Stoves. These stoves look like they were a "good thing." We hope Fred. will make it pay, and that the stoves will prove as good as they appear. We shall be able to speak more definitely in regard to their merits after we have tested them.

Little Mac, of the Omaha Herald, is a very poor hand to see a point. We visited Omaha last week, in company with Hon. T. M. Marquett and J. I. Early, and in making a note of our local said to "behave of pick-pockets." Mac was green enough to suppose the caution was to Omaha people, whereas it was intended for our own benefit. Our local knew Little Mac, and feared we might meet him. That notice was our salvation, for we did meet him; and a stranger would have taken him to be a very clever gentleman.

EDITOR HERALD.—My attention was called to an article in your yesterday's issue in which the entire extermination of the Canine race was advocated. Now I luckily have no dog, hence can speak from an impartial standpoint. While I am in favor of cleaning our streets of

the throng of yelping curs, that daily and nightly infest there, I would also favor the protection to parties that will keep nothing but blooded dogs, and soon you will discover in the depleted ranks of the mongrel troops a class of dogs that will do honor to the town and to those that go to the expense of keeping them. If there could be a tax of five dollars levied upon all mongrels, you would see our streets as suddenly cleared of the Canine species as they were of hogs under Mayor Pottenger's administration. I most devoutly and sincerely hope that the City Fathers will take the matter under consideration, and give the blooded dogs a chance for a bone. Ed.

From Friday's Daily. Gen. Anson Stager, President of the Western Union Telegraph Co., passed down on the St. Joseph to-day.

Hesser's plants are all the rage. Every stage that leaves the city takes a quantity of them to different parts of this State and Iowa.

Dr. McCluskey is in favor of the removal of the capital, for the reason that he thinks it will make his business good north of Platte. He thinks it will give the Omaha people the neuralgia, as they complain of tooth ache now.

Hon. J. E. Doom came down from Omaha yesterday and returned to-day. He thinks the bill for the location of State buildings will come up for final action in the course of a few days.

There has been more real, genuine, substantial improvements made in this city during the past year than during any former year. They have not been confined to any particular locality or kind, but all over the city people have been "fixing up," repairing houses, building new ones, setting out shrubbery, and trees, and giving things generally a better appearance. This is what we like to see; it donates permanency, and is of more real benefit to the place than any other style of improvements with the same expenditure of money.

Our city was enlivened this morning by a runaway. A pair of horses belonging to L. G. Todd, Esq., became frightened by some loose paper on the street, broke their halters and started off on a run. They ran over a lot of breaking plows, through an old cellar, came in collision with another wagon knocked one wheel off it, upset the wagon they were attached to, and were finally stopped at the rear of the court house. The tongue, box, coupling and bolster of the wagon were badly broken.

CURE FOR FEVER AND AGUE.—Common salt, in doses of a tablespoonful, every third hour, dissolved in water, commencing fifteen hours anterior to the time for the next paroxysm, is one of the best remedies for intermittent fever. The patient should also evacuate the bowels with Roback's Blood Pills and use the Stomach Bitters as a tonic. This treatment will be found very beneficial, and often cures the worst cases of fever and ague.

The Sewing Machine for Missionaries. As everybody knows, there is but one Sewing Machine sufficiently simple and reliable for the use of Missionaries; and that is the Willcox & Gibbs.

So long ago as 1861, the Rev. A. T. Pratt, missionary of the American Board writing to Mr. Willcox says: I have now had one of your machines for six months and am ready to thank you for introducing them to the public—it is the only machine whose working is so sure and simple that I could venture to introduce it in Syria.

O. F. Johnson, Esq., is making preparations for opening a fruit stand and soda fountain in the Post Office building.

We would call attention to the card of Dr. J. S. McAnaw, who has returned to Rock Bluffs, and resumed the practice of medicine.

We learn that, on the way down from Alkali, Capt. Murphy and wife passed a rancho where the occupants had recently been murdered by the Indians. The bodies were lying there, and the "noble red men," which some of our eastern friends think are abused, had mixed fur with the blood of their victims where it lay in pools upon the grounds and the floor of the house.

Dr. John Black arrived on the Colorado to-day, having been absent several weeks on a visit to his former home in Missouri. He says times are not so good down the river as in this State. There has been more rain there, and the soil is such a nature as to retain the water longer than the soil of Nebraska; hence much of the seed corn has rotted in the ground.

Mrs. Murphy, wife of Capt. Ed. Murphy, arrived in this city last evening, direct from Alkali Station. The Indians became too numerous about there to suit the ideas of the Capt., and he started with his wife for the river. After coming a short distance he heard the Indians had attacked his rancho, which was occupied by ten men and tolerably well fortified. He sent his wife through to this city, and turned back to look after his property. M. B. Murphy, formerly of this city, had started for Denver a few days previous.

An English doctor sent in his bill to a disconsolate widow, "for curing your husband until he died."

Mr. Frederic Stadelmann has opened a new Bakery and Ice Cream Saloon in the building formerly occupied by Frank Goff. The building has been refitted and furnished in good style, and Mr. Stadelmann is master of the business—having been for many years proprietor of one of the largest establishments of the kind in New Orleans. A splendid cake donated to the Herald office this morning, with the words "Herald office" beautifully moulded around the edge, convinces us that Mr. S. cannot be beaten as a pastry cook.

No mails from Omaha to-day. Could not cross the Platte. Oh, dear!

Hon. T. M. Marquett and A. L. Sprague Esq., left for Omaha this morning.

The county seat of Doniphan county, Kansas, has been removed by a vote of the people, from Troy to Wathena.

The News says there is a report in circulation that Lewis Davenport, of Nebraska City, has been killed by the Indians. The report is not generally credited.

A special despatch, from North Platte says Geo. Francis Train came near being mobbed there for expressing it as his opinion that the whites were the cause of the Indian war. We think that must be a "canard." We think Geo. is endeavoring to make a young martyr of himself.

The residence of Dr. Winterstine, in the South-east part of town, was struck by lightning during the heavy storm on Wednesday night last. The cornice and shingles were torn considerably. The house had a conductor on it, but it is thought it had become disconnected.

The people of St. Joseph are taking hold of the matter of building a railroad from that city to the Iowa State line. We hope they will not let up until the road is built. It would be of inestimable value to St. Joseph, and of no small importance to this part of the country. It would give us a southern railroad connection, of which we are greatly in need.

See notice headed "keep cool." Johnson has one of the best Soda Fountains in the west, and he knows exactly how to wait upon customers. Take Soda Water, all the time. It is far more pleasant and healthful than any malt, spirituous or vinous drinks, being a wonderful improvement on nature's beverage.

The Missouri has been rising for several days. The Platte is reported very high.

The new county building is to be pushed along rapidly. The stone and sand for the foundation, are being delivered.

A large number of immigrant wagons have arrived during the day, and proceeded westward to settle in the "future chief country" of the west—Salt Creek Valley.

The Omaha Herald has something to say—about twice a day—about the "future chief city of the Missouri valley." How far in the future before it is to be the "chief city?"

A large proportion of the corn ground in this county has been planted the second time, the cold rains having killed the first seed. Farmers almost universally express the belief that the crop will be good, notwithstanding the lateness of the planting.

The Omaha Herald says it cannot understand how such men as Reeves and Wardell, Doan and Sheldon, can vote for the removal of the Capital. Why it is just the easiest thing in the world. They know that the measure is right, and that their constituents desire them to vote for it.

See advertisement of Geo. McCullum of Nebraska City. Geo. is a wide-awake man, and understands the necessity of letting people know what he is doing. Those of our readers who visit Nebraska City for the purpose of trading will find McCullum one of the most accommodating and gentlemanly of dealers, and we advise them to call on him.

St. Luke's Church in this city will be consecrated on Trinity Sunday, June 10th, by the Right Rev. R. H. Clarkson, D. D., Bishop of this diocese. It is expected that a large number of both Clergy and laity will be present on the occasion, and that an Ordination will take place at the same time.

Maxwell & Chapman received another large stock of books to-day. They have now the most complete law library in the city, if not in the State, and they know how to use it for the benefit of their clients. They have just supplied themselves from the Herald office with a full assortment of conveyancing papers, such as Warranty Deeds, Quit Claims, Mortgages, etc.

KEEP COOL! The undersigned has his superb SODA FOUNTAIN in operation again in the Post Office building, and the lovers of this delicious beverage are invited to call and see him. A good assortment of Green and Dried Fruit will be kept on hand. O. F. JOHNSON. June 10th & w.
