A young rascal named Shaw, only 10 or 12 years old, stole a gold watch and several other articles from the clothes of a party who was in bathing at Nebraska City a few days since. He took the watch to a jeweler in town and offered to sell it for \$14. The jeweler recognized the watch and the little thief was lodged in jail.

Will our Omaha friends who are howling so lustily about the Air Line R. R. Grant, explain why it was that a prominent Omaha member of the House proposed to the Washington Co. men that the said grant should not receive opposition from Omaha provided the Washington members would vote to let Omaha have the old Capital building for \$3,200? Those who live in glass houses should not commence throwing stones.

In summing up the agricultural wealth of the leading counties of the State, the Omaha Herald justly says of our county: "Case is the banner county of the South Platte and of the State in stock growing wealth. The county returns 2,521 horses, and 7,520 head of cattle." We would also add that Case is the banner county in other respects than stock growing. She is the third county in the State in point of wealth, and in agricultural wealth she is the leading county. She returns \$1,729,553 worth of taxable property, being about \$100,000 more than any other agricultural county in the State.

The News has a nice rigmorole about taxes and tax strangled people which it repeats every few days for the edification of its readers or because it has nothing better to present them. Don't be alarmed. Morton. Have you "papered" that house "with greenbacks" yet?

Mr. Jonathan Adams has shown us a specimen of White Grape Currants, also the Cherry Currant, that would equal the most skeptical that Nebraska is equal to any State in the Union for the production of small fruits. His bushes were only set one year ago, and the crop is abundant this year.

The grasshoppers are returning from their northward flight, and to-day the air is filled with the little pests making their way towards the south-west. It would be extremely gratifying to the people of this section of country, if they were not so feeble, but would continue going in one direction all the time. We dislike to see them passing back and forth, and stopping to take a feed occasionally. They have done comparatively little damage in this vicinity yet, but the worst is feared.

From Saturday's Daily. Simpson, Mickelwait & Co., have removed to the west room of Masonic Block, where they are fixing things up in first-class style.

Notwithstanding the hard times and high prices, the sale of the Best Chemical Saleratus is still on the increase. People will use it and every successful house-wife tells her neighbor, and when her neighbor tries it she tells another, and thus its fame spreads until it is hard to tell where it will stop.

The Republican of this morning says: "The Hon. Wm. Collins of Case Co., arrived in town by the steamer St. Joseph last evening. He expected to take the same steamer home again this morning." The Republican is mistaken in the name, we presume. It must have been Robert, instead of Wm.

We learn from the Omaha papers that Mr. Osborne, whose advertisement will be found in the Herald, is doing an extensive business with his Plastic Slate Roofing. It is being used on many of the finest buildings in Omaha, and gives the best of satisfaction. It makes a solid stone roof, which withstands fire, cold and water. We believe our builders would do a wise thing by giving it a trial.

Crawford is out in the "defense number 2," in which he barks and frisks around like a small "dorp" in a bees' nest. He appears to take it for granted that everything in the Herald is intended to apply to him. Now my dear fellow, don't be so foolish as to suppose we care enough about you as to waste much paper and ink on your account. "We do not believe it is good generalship to throw six-pound shot at a wood pecker, even if he does make a loud and disagreeable noise with his bill. In your little "extra" of Sunday morning you say you are "a stranger in our midst." That being the case, allow us to sympathize with you and offer a few words of friendly advice. Do not above all things, start out on the basis that they are all "green" in the far west; don't say anything about being chairman of the Wisconsin delegation in the Chicago Convention unless your name appears somewhere in the official records and list of

members and alternates, for there are two or three men in Cass county, who can read; don't tell the boys about being a circus judge, they might think you were "foolin'"; don't take possession of the Democratic party and tell the old members thereof that none of them are suitable for leaders; don't talk about having been in the "detective" business — not a word — because if it should come to light that you were not, it would be awful; don't, when you see two newspapers hitting at each other, step in and propose to "take a hand," for you might get your fingers burned and then be laughed at for being so silly as to interfere; and above all things, Crawford, don't "rush into print" unless you are compelled to, for the ink might "blacken" you, and then the whole country would sneer, and the Democratic party could not be comforted. Now, Crawford, these few words are intended for your good — in deed they are —, and we hope you will profit by them. If you will be a good boy, let "tea parties" alone, and show signs of "being somebody," we may talk to you again some day.

The number of plows and cultivators sold in this market this spring is only excelled by the number of reapers and mowers that daily leave the city. We venture the assertion that the quality and quantity of machines used by the farmers of Cass is without parallel in our State, and is the best advertisement of the thrift and productiveness of the county.

C. F. Brockway, Esq., General Agent for the sale of Goodspeed & Co's coated steel pen, has been in the city for a day or two. We have tried the pen, and find it an excellent article. The coating over the steel prevents corroding, and the pen last much longer than the ordinary steel pen. They are for sale in this city, by Black, Buttery & Co., Wm. Stadelmann, Mathis & Son and Amison & Dorey.

MARRIED. On July 4th, by the Rev. W. J. Cutler, Mr. FREDERICK W. LAW and Miss AMELIA LOUISA SCHIFFERT, both of Cass Co. Neb.

Whir! Whir! Whir! (Letter from Fanny Fern.) The "busy hum of labor" is a poetical idea enough, but unfortunately some of us are born with nerves; and I confess that monotonous whir, whir, whir, of a sewing machine in the house has sometimes sent me out of it. I have often wondered if this could not be remedied, without impairing its usefulness. This I find you have succeeded in doing.

I have been making trial of one of the "Silent Sewing Machines" — the name attracted me — "Silent!" I find that one can easily listen to reading while operating it. Then I find another advantage. This machine is worked with less outlay of strength to the operator than any other. Many delicate women I know have been obliged to desist altogether from the use of Sewing Machines on account of the exhaustion produced by it. I think such could with ease manage this. It is much less complicated than any other, and consequently more easily understood, and less liable to derangement; recommendations which are

great objects to residents out of the city, who cannot easily call in assistance when needed. It is also very light, and perfectly easy of transportation from one part of the room or the house to another. My dressmaker who had had ten years' experience in sewing machines, gives this her unqualified preference. I myself have owned two of another make, for eight years, which, in my judgment, does not approach this for utility. For all the reasons above stated, I give my hearty preference to the "Willcox & Gibbs Silent Sewing Machine." — Examiner and Chronicle.

GREENBACKS ARE GOOD! BUT ROBACK'S STOMACH BITTERS, after years of experience and trial, have proven to be the best remedy extant for all complaints where a tonic and stimulant is required, which never fail to strengthen the weak, impart vigor to the strong, and in all respects restore shattered and broken-down constitutions. No remedy has been received with as much favor as ROBACK'S STOMACH BITTERS. In Chicago.

OVER 50,000 bottles were sold by one drug-house in the past year. It is admitted by our most learned physicians that Dr. ROBACK'S STOMACH BITTERS contains the properties of a gentle laxative, an efficient anti-bilious agent, and the best stomachic known to the world. ROBACK'S BITTERS should be used by convalescents to strengthen the prostration which always follows acute disease. In the

BILIOUS districts of the West and South there has, for a long time, been much needed an article of STOMACH BITTERS, which, if taken in proper quantities, and at the proper time, are a sure preventive of Bilious Fever, Fever and Ague, Liver Complaint, Dyspepsia, Indigestion, Jaundice, Kidney Complaint, and all diseases of similar nature; and are better as a preventive for bilious derangement, regulating

AND strengthening the system, and giving tone to the digestive organs, than any other known remedy. Now that the war has ended, and the people are seeking homes in the South. No person who values his life should go there without having constantly at hand the BITTERS, as a safeguard against epidemic and malarial fevers, which are common and polluted water. Travelers and all residents of the rank river-bottom

COUNTIES of the West and South, and the valley of the Mississippi and its tributaries, should provide themselves with the BITTERS. There is probably no one disease with which humanity is afflicted which is the source of so many ailments as dyspepsia, or as it is more commonly called Sour Stomach, and there is no more certain remedy than Roback's Stomach Bitters. They are never known to fail.

KING CHOLERA has always been much dreaded by the public, and people have resorted to all manner of medicines to arrest the progress, but with little success. A sure and preventive is to be found in the use of Dr. ROBACK'S SCANDINAVIAN REMEDIES. Keep the bowels open with the Pills, and invigorate the system by free use of the Bitters, either before, or if the blood be thin, use the Purifier.

SUCH an invaluable remedy should be kept in every family. Keep the system pure and healthy, and you are protected from disease or cholera. THE OLD RELIABLE. Do not be deceived by purchasing any of these quack nostrums
