#### SAUNDERS COUNTY POLITICS.

We learn that some considerable in terect is being manifested by the people of Saunders county in political affairs, and that three different conventions have already been called." A no-politics convention for the county has been called for next Saturday, the 14th, when it is expected, we presume, to place in nomination men who have no arise from an unadulterated desire to politics, or at least those who do not do good. know exactly what their political views are. We may be wrong in this, never having had much to do with them; but that is our idea of a "fusion" convention. A straight-out Republican convention is called for the 21st, and a "square-toed" Democratic convention is called for the 28th, We would advise the people of Saunders, and especially the Republicans, to abandon all thoughts of fusion, and run their straight tickets. We presume the friends of the fusion movement use the old stereotyped argument, that they want "good men," without regard to party, to fill the various county offices; but the theory of running a mixed ticket to secure the election of that class of men has been exploded long since. "Good men" always have some fixed principles, and can generally be found battling for them. We doubt not there perhead speeches at Republican meetare good men in both parties in Saun- ings. ders county, and we believe it would be far better for them to run regular party tickets than to attempt a fusion. You cannot mix-oil and water, neither can you fuse Republicans and Democrats so but the dividing line is very perceptible. During the war, the pickets of the two armies occasionally held a truce, and would associate with each other along the line; but they were nevertheless either Union or rebel, and fought for their respective sides when the baule commenced. Saunders is on the picket-line, and the battle is about hand at that time. to commence. Are there any "neu-
