LATEST NEWS.

Judge Underwood and District Attorney Chandler are discussing with the Attorney General relative to the trial of Jeff. Davis. Both express the opinion that sufficient testimony will be produced to convict Davis.

Accounts from Athens state that a large party in Greece are in favor of deposing the King and proclaiming a Republic under the protectorate of the United States, or annexing it as three States.

A cable dispatch to the New York Tribune, dated at Constantinople, says that the Russian demand for the cession of Crete to Greece and equal rights to Christians, has been refused.

Fearful accounts of the ravages of the pestilence in Texas and New Orleans continue. A member of the Howard Association stated that there were over 15,000 cases in New Orleans last week.

The cholera has been prevailing in St. Louis to an alarming extent, but local papers do not mention the fact. A private letter says there have been over three hundred deaths in one day from cholera.

A Fort Pulaski despatch of September 30th, says the Nashville city authorities have petitioned Chancellor Harrison for an injunction to restrain the newly elected city officials from assuming their offices.

The Times' special says that General Ord has directed the discharge of all civilians from the Quartermaster's Department in his district.

Hon. Michael Scoulan, the Fenian Senator of the Fenian Brotherhood, from Chicago, is going to stump the State of Illinois in the interest of the Republican party, calling on his countrymen everywhere to sustain the Republican party of America.

The result of the election in Louisiana is still doubtful, but returns from the country parishes are more encouraging for the success of the convention.

A private letter from New Orleans says the yellow fever is steadily increasing.

"LOWER LAW."

Democratic journals have much to say about "higher law," and quote it freely whenever any person who votes the Republican ticket chances to violate the laws of the land. If every Republican who chances to transgress statute laws is a disciple of "higher law" doctrine, we presume Democrats who do the same thing must be disciples of a "lower law" doctrine.

NEXT TUESDAY

Is election day. Let no Republican stay away from the polls because it is only a county election. Our active friends in each precinct should see to it that the full vote is out.

THE DEMOCRATIC PARTY AND OUR INSTITUTIONS.

The Democratic party is now, no doubt, the party which stands up for the republican institutions bequeathed to us by the fathers of the country. If any one questions the fact that the Democratic party had always stood up for the republican institutions bequeathed to us by the fathers, let him simply refer to the fact that after the close of the political campaign in 1860, and after the constitutional election of Abraham Lincoln to the Presidency, the Democratic leaders of the country left their places in the Senate and House of Representatives and went to their homes, passed pretended acts of secession, declared their States free from the control of the general government, took possession of the forts and arsenals of the United States, began and continued armed resistance to the national authority, and for four bloody years endeavored to destroy the republican institutions bequeathed to us by the fathers.

It is thus the Democratic party in the past has battled for "the institutions bequeathed to us by the fathers," and it is thus that the Democratic party would battle to-day if it had the power.

"ORDER OUT OF CHAOS."

A Democratic paper declares that if the party which it supports were in power, it "would bring order out of chaos." The people have pretty good memories, and have not quite forgotten the manner in which that party "brought order out of chaos" in 1860-61, by sending the army to distant posts and the navy to distant seas; by the passage of acts of secession, the capture of the national property, and the inauguration of war in the attempt to overthrow the government of the fathers.

RAIL ROAD MEETINGS

Are being held throughout the country, and where the question is thoroughly understood the vote in favor of issuing bonds will be almost unanimous. Many apprehend increased taxation, but when they reflect upon the increased amount of taxable property that a railroad would bring into the county, and that the Railroad Company itself would own not less than \$1,000,000 worth of property within the county limits, they can readily understand that the present property owners would not, in reality, have one dollar of the bonds to pay. The increase of taxable property will be more than double enough to pay them.

SPEAKING AT LIBERTY.

Speakers will be present at the School House, South of Beauty's Grove, in Liberty precinct, on SATURDAY EVENING, October 5th, and address the people on the subject of issuing Railroad Bonds. Let every voter in the precinct be present and give the speakers a fair hearing and the arguments due consideration.

"GREAT DEMOCRATIC GAINS."

For weeks the Democratic papers have been boasting of what they are pleased to term "Great Democratic Gains," and from the gains claimed have been predicting all manner of ruin to the Republican party.

DEMOCRATIC GAINS FOR 1867.

The following are the Democratic gains, in round numbers, since last Spring:

Table with 3 columns: State, 1866, 1867, Gain. Rows include Connecticut, Kentucky, New Hampshire, Rhode Island, Vermont, California, Maine, and Total.

The Tribune in this statement, the truthfulness of which cannot be denied, leaves out Montana, which, according to the Helena Herald, is actually in doubt.

The truth of the matter is that the people of Nemaha have allowed local jealousies to spring up in their midst, and we judge from appearances, that the editor of the Advertiser has allowed the local affairs of the county to outweigh his Republicanism.

Looking at the figures, and understanding the facts, we congratulate the Democrats upon their "gigantic gains."

A VICTORY.

The principal speaker at the Democratic County Convention held in this city said, while speaking of the action of President Johnson in removing loyal Generals from command in the South, and pardoning the leading rebels, that "a few more such licks and the day will be ours."

ONE MILLION DOLLARS.

If it will pay the B. & M. R. R. Company to invest \$1,000,000 of their funds in the building of a road in Cass county, will it not pay the citizens of the county to invest \$200,000 in the same enterprise?

FROM NASHVILLE.

A Nashville dispatch dated Sept. 27, says: Gen. Grant has telegraphed to Gen. Thomas, telling him that the military must not interfere with the State authorities in executing the laws, and that the State forces must not be interfered with in the execution of its orders.

THE MANTLE.

There is some little dispute among the untrifled as to who shall be the possessor of Crawford's "Mantle."

THROUGH TO LINCOLN.

Orders were received at the Post Office in this city last week to increase the mail service between this city and Lincoln to tri weekly.

BOLT IN NEMAHA.

The Republicans of Nemaha county held a delegate convention on the 14th ult., and placed in nomination a county ticket.

It is customary with a low order of minds to resort to billingsgate and vituperation to carry a point when they have no argument to advance.

Let every Republican voter of Cass county rally for the defense of the country at the polls on Tuesday next.

The Missouri Democrat has an earnest appeal to the Republicans of Minnesota and Iowa to come out in solid phalanx to the election, and by a full vote and rousing energies maintain and encourage the hearts of their brethren in other States.

It is no time for ad issues; no time for apathy. Every dispatch from Washington justifies agency. Every vote in every State is regarded by the President and his advisers, and by thousands upon thousands of voters of the sort called drift wood, as indications of popular sentiment.

Vallandigham, the favorite leader of the Ohio Democracy, in a speech at Defiance, Ohio, spoke of Grant and Lee as follows:

"I say to you as American citizens, that when all the ravages of the war will be forgotten, the sum of American military glory will be made up by all men of this country. [Cheers.] Does any man mean to tell us that Lee was not as good a General as Grant? When Gen. Grant was seeking shelter in the shade of a certain house, Gen. Lee went to the field—aye, in front of the enemy—and drew his sword. That was what I said time ago, and that is what I say now. Some kind of men will not run away from battle, and others will." [Applause.]

NO PRINCIPLES.

The Democratic party in Nebraska appears to be operating exclusively upon the doctrine enunciated by one of the "lights" in this county when he said all they wanted was success.

Call it what you will—sugar coat it as you may—it is repudiation, and this is the Democratic party already pledged, and who is here enough, and true enough, to stand here a faithful guardian for those who now have no friends at court or in power.

THE UNION.

Arrangement in Saunders county has been broken up, and they are now running straight party tickets.

"NEVER."

It will be remembered that Crawford had just finished a sound Democratic speech at Ashland when Sheriff Taylor took possession of his person by virtue of a States Warrant.

A REPRESENTATIVE MAN. Crawford, Judge Crawford, Chairman of the Wisconsin delegation Crawford, made a speech at the Democratic Convention in this city the evening after he arrived here from Ashland in company with Sheriff Taylor.

Whoever, therefore, asserts that we can never pay fairly and fully, does so in the teeth of the fact that in the past two years, with a large military force, nearly half our country ravaged by four years of civil war, our industry disorganized, ten States out of gear, the passions of the late conflict still active, and with poor harvests, we have paid a tithe of the sum, and that without sending one child, thereby, hungry to bed.

While the bonded debt has only been diminished a little over four millions of dollars from the First of June to the First of August, the Secretary of the Treasury has reduced the circulating medium twenty millions of dollars within that time.

The Pontiac (Mich.) Jeffersonian declares that it is an "out and out" Democratic sheet, and "is not ashamed to declare its principles."

For six years Democracy has felt humiliated and ashamed of itself, because forced into a wrong position. It has been a hypocrite and liar all through the war. The war is Black Republican property.

THE NATIONAL DEBT.—On the 1st of August, 1865—when our Volunteers had not yet been paid off and our Army reduced to a Peace footing—our National Debt exceeded the funds in the Treasury, by the gigantic amount of \$2,787,000,000.
