PLASTIC SLATE,

FOR

ROOFING

AND OTHER PURPOSES.

The process of reconstructing Slate Stone from a disintegrated state was

PATENTED FEB. 21st, 1865.

It is a combination of

Pulverized Slate and Viscous Matter,

(the latter possessing qualities of geological and chemical affinity for the former,) and is a development of one of the simple but unalterable tendencies of nature.

AS A ROOFING MATERIAL

IT STANDS UNRIVALLED.

A mastic—it adapts itself to every shape and slope. Non-combustible, impervious, non-expansive and undecaying.

Frost Does not Crack nor Heat Dissolve it.

The only Roofing Material ever discovered that will resist the action of the elements as long as the structure it protects. Being susceptible of little if any wear from exposure and

PERFECTLY FIRE-PROOF.

It is unqualled as a coating for railroad and farm buildings, bridges, bottoms of vessels, vaults, etc.

THE NEBRASKA

"COMMONWEALTH."

The undersigned having made arrangements for establishing a Republican paper at Lincoln, the Capital of the State, have the honor to announce to the public that the materials for a first-class publishing and job office have been ordered and will be ready for business in a short time.

The "COMMONWEALTH" will labor for the early and rapid developement of the resources of our interior counties and the State generally, by the influx of hardy immigrants, and for the immediate construction of the iron highways of commerce, to make a market for the first grain growing section of the Union. As an exponent of Republicanism it will sustain the policy adopted by the Congressional majority, in obedience to the mandates of the men who carried the flag from the "River to the Sea." But while faithful to the principles of the Republican party, we shall freely consider and discuss the great questions of the day as they present themselves, in all candor and with such ability as we may possess.

Subscription price $2. per annum in advance.

The *"Commonwealth"* will be issued at the earliest practicable day.
