

The Nebraska Herald.

LOCAL NEWS.

CLUBS FOR THE HERALD.

To a Club of 15 new subscribers to the Herald for one year, received on or before the 1st of January, 1896, all at the same Postoffice, we will furnish the paper at \$2.00.

Any one sending in a list of 15 new subscribers and \$30 in money, on or before the 1st of January, 1896, shall receive the Herald for one year for his trouble.

We will furnish the Herald and either Harper's Weekly, Monthly Magazine or Bazar to new subscribers for \$6.00 per annum. Subscription price to Harper's publications is \$1.00 each.

Gen. R. R. Livingston will lecture before the Library Association next Monday evening. Subject—"Geology."

Judge Cronise has been holding court for Chief Justice Mason, at Nebraska City, during the past week.

Sylvanus Cobb has written over fifty miles of stories for the Ledger, and is still at it.

Mr. G. W. Peck, General Agent for the Nebraska Commonwealth, was in the city this week.

Remember the lecture next Monday evening. It will commence at 6 1/2 o'clock.

Amison & Doray are packing pork at the rate of 50 to 100 hogs per day. They pay from 6 to 7 cts. per pound.

The National Republican Convention has been called to meet at Chicago on the 11th of May next.

The people of Lincoln have a grand supper this evening for the purpose of raising funds for the completion of a school house.

We learn that the people of Brownsville expect work to be commenced on the Railroad opposite that city early next spring.

They have had a severe snow storm throughout the east, blocking the Railroads and doing much damage to shipping.

It is estimated that over ten thousand tons of hay has been destroyed by prairie fires within the past two months in the vicinity of Ft. Harker.

Deer are said to be quite plentiful in the vicinity of Blue River. We saw one in town last week, killed on Cedar creek near the Platte, which weighed one hundred and thirty-four pounds.

PLEASE CONSIDER.—You can buy Best Chemical Saleratus at same price that is charged for other brands that are short weights and cheap goods, hence do not fail to always get best Chemica.

Sol. Miller thinks somebody has broken a pane of glass in the St. Joe Herald and left a little light in. That paper has been discovered lately supporting Republican measures.

The public will be pleased to learn that Miss M. A. Despain and Mrs. E. P. Kennedy have entered into a partnership in the Millinery and Dress making business. See card.

There has been near 200,000 bushels of wheat shipped from this city and Rock Bluffs during the past season, besides probably 50,000 or 75,000 bushels which was taken from this county to Wyoming and Nebraska City for shipment. What do you think of that? Two hundred and seventy-five thousand bushels of wheat—besides oats and barley—raised, thrashed and sold for shipment in Cass county and there is wheat to sell yet, besides all that is necessary for home use.

Was there ever such another county as Nebraska? Here we are on the 16th of December (the date of this item) with as fine weather as you could wish to see in May, and farmers busy plowing for next years crop. People back east often wonder how their friends who come west get rich in so short a time as they do. Is there any mystery about it; when you can plow half the winter and then raise such immense crops as we do here, and sell them for the very highest price. There will be a greater proportion of wealthy farmers in Nebraska in five years from now than in any other State in the Union.

The Napprell relates a lamentable circumstance wherein a young man was afflicted, through inheritance or otherwise, with a very bad internal disease. During the afternoon he indulged freely in bad whiskey, and in the evening he broke out all over with "foolishness." There was a similar case in this city last week, but the breaking out was principally about the mouth. While in this condition the sufferer was found by Marshall Murphy, who through humanity attempted to subdue the disease. His first prescription was "one night in the city lock-up." This has afforded temporary relief, but it is feared the disease is constitutional.

Blessed in the memory of all true housewives will ever be the inventor of the Sewing Machine. He is a universal benefactor, who has made easy, pleasant, and an hundred fold profitable, one of the most important duties of Woman—to sew. The choice of machine, in this day of new patents and multiplied improvements, is however, a question of great importance and to many very difficult of settlement. Every patent has its excellence—but for a real, genuine family machine—a time saver, thread saver, labor saver—the women of our house say, after making trial of one or two other different kinds, "Give us the Willcox & Gibbs."—The Economist.

Remember the Festival and Fair, on Christmas Eve, to be given by the ladies of the Presbyterian Church. A fine assortment of Toys and other Holiday Goods will be found on the tables.

J. M. Hinchman has purchased the interest of Dr. Donelan in the Drug Store of Donelan & Hinchman, and the business will hereafter be conducted by Mr. Hinchman alone. His advertisement will appear next week.

An excellent "bird dog" belonging to John Shannon was killed by poison last Sunday. It is supposed he got hold of poison intended for some other dog, as there is no grounds for believing that anybody wished to kill him. Shannon had been offered \$50 for the dog and refused it. People should be a little more careful how they throw poison "around loose."

The Plattsmouth Mercantile Library Association is now a fixed fact. It has a membership of about fifty persons, and books are coming in as donations at a lively rate. A good book case has been procured by the Committee, and everything shows that the institution is in a healthy and flourishing condition. Lectures are being held regularly every Monday evening.

The traveling public will bear in mind that notwithstanding the "Paul Wilcox" has gone into winter quarters, there is a good ferry in operation at this place, where people can cross the river with as little trouble as at any other point. We make this statement because of the report that there was no ferry boat in operation here.

See the prospectus of Harper's publications in another column. The Weekly and Magazine are too well known to require more than a mere mention to insure an increased circulation in this part of the world. The Weekly stands in every family, and no well regulated household can do without the Magazine. The Bazar is a new publication and bids fair to outstrip all competitors as a first-class fashion book. For terms, etc., see advertising columns.

The Messrs. Porter & Dodge, of this city, have done work during the past year as follows: hauled from Plattsmouth to Ft. Phil. Kearney, 5,000 bushels of corn; cut and delivered at Ft. Phil. Kearney, 4,000 cords of wood and 150,000 feet of logs, and graded one mile of the Pacific Railroad. They have now quit for the winter, but will be ready to commence with renewed energy in the spring.

It is important that the people of this city have some regularity of time for lectures and other evening entertainments. It is a lamentable fact that it takes from an hour to an hour and a half for a small audience to get together for any kind of a meeting. Let it be remembered that lectures before the Library Association will commence at precisely half past six o'clock each Monday evening, and we hope to hereafter see the seats all full at that hour.

There has been near 200,000 bushels of wheat shipped from this city and Rock Bluffs during the past season, besides probably 50,000 or 75,000 bushels which was taken from this county to Wyoming and Nebraska City for shipment. What do you think of that? St. Luke's Church. Services on Christmas Day. Morning Choral Services and Holy Communion at 6 a. m. Litany and Sermon at 11 a. m. Sunday School Festival in the evening.

We suggest to the city authorities, or the county commissioners, or somebody else, that it would not probably be out of place to employ some one to inform farmers, when they are ready to leave town, what direction they will have to go to find the road out. The western roads are changed so often that there is no certainty that farmers can get out in the evening the same way they came to town in the morning.

There will be a public installation of the officers elect of Plattsmouth Lodge No. 6, A. F. & A. M., on the 27th inst., (St. John's Day) at 3 o'clock, p. m. It is also expected that the officers for the ensuing year of Nebraska Chapter No. 3, R. A. M., will be installed at the same time. We learn that the Grand Orator of the State will be present and deliver an Oration. A Festival and Supper will be had on the evening of the same day, to which none will be admitted except Masons, their wives sister and daughters.

At a regular meeting of Plattsmouth Lodge No. 6, A. F. & A. M., held on Monday evening last, the following officers were elected and appointed for the ensuing year: W. M. R. Livingston, Sen. W. Jacob Valley, Jr. W. John Shannon, Treas. W. H. Anderson, Sec. G. C. Betts.

At a regular meeting of Plattsmouth Lodge No. 6, A. F. & A. M., held on Monday evening last, the following officers were elected and appointed for the ensuing year: W. M. R. Livingston, Sen. W. Jacob Valley, Jr. W. John Shannon, Treas. W. H. Anderson, Sec. G. C. Betts.

At a regular meeting of Plattsmouth Lodge No. 6, A. F. & A. M., held on Monday evening last, the following officers were elected and appointed for the ensuing year: W. M. R. Livingston, Sen. W. Jacob Valley, Jr. W. John Shannon, Treas. W. H. Anderson, Sec. G. C. Betts.
