

PLATTSMOUTH, NEBRASKA.

THURSDAY,JAN. 2, 1868

CORRESPONDENCE.

We are desirons of receiving correspondence from all parts of the State, relative to the material intercats of the country, together with such other matter as contributors may deem of interest.

THE NEW YEAR.

with a determination to press on with renewed energy towards the goal of our ambition, with a steadfast purpose to do better and be better than in times past, it may not be amiss for us to say a word to our readers. After wishing all our patrons (and their name is legion and their abode the ends of the earth) a "Happy New Year," we would have them go back with us to the 10th day of April, 1865, the day which gave birth to the NEBRASKA HERALD. Upon that day we issued the first number of this paper, and had the names of only thirteen subscribers. but we had commenced the publication of a paper in this city with a firm resolve to stay here, and to make a paper that would be a necessity at every fireside in the country. Since that, to us, memoriable 10th of April, we have labored dilligently to accomplish the resolve then formed. We have endeavored faithfully to record all passing events, and have offered such suggestions upon local and political questions as we deemed for the benefit of the people. Wheather we are any nearer the accomplishment of our purpose than we were upon the 10th of April, 1865, we leave for others to say; you ship your surplus products? but whether we are or not, we are in no manner discouraged in the undertaking, and propose to start out with the year 1868 with that renewed energy with which all mankind is inspired a capital of \$2,000 or \$2,500? upon the ushering in of a new year; 9th. What kind of wild game is out and we hope ere another New Years there, and how far do you have to go day dawns upon the patrons of the for in? throughout the county assist us, and we will guarantee a return to them in knowledge which he seeks. the usefulness of the HERALD for the
