A Thorough Domestic Test. We have for some time contemplated effecting a thorough domestic testthrough regular and diversified use-of all the varieties of sewing machines that compete for the public favor; and have accordingly invited the several manufacturers to lend proper facilities for testing their machines. We give our first notice to the Willcox & Gibbs.

The machine is exceedingly simple. Very slight instructions and ingenuity are required to understand its parts and thier use; and there is no excuse for get works at a moment's notice, though it may have been laid aside for months. The needle is short and straight, and consequently not liable to break; in six months use we have not broken nor bent and all bids, if in their judgment they are loo high.

Architect and Superintendent.

11th of October, 1967.

Sim needle. The "tension" is the most manageable and certain contrivance of the kind, and never baffles the operator. It never misses a stitch. The thread is taken directly from the spool, without rethe greatest ease, if desired, while it is Mr. William T. Parcel, formerly perfectly secure a ainst raveling if left bave tried it on every kind of garment, chine, we were prejudiced against itin washing, etc.; but all objections on this score are found to be groundless. We stand ready to do justice to every other manufacturer, but we advise our readers to put no faith in disparaging criticisms, for we are satisfied that none of any importance can be sustained .- The New
