T was favored last Thursday evening by a delegation from Olive Branch Lodge, No 2 of twenty two brethren and sisters. We ion of the Judges at the "Great Island Dr. Renner, editor of the German were much pleased to meet them here, but Park Trial." give a synopsis. The pampelets were one mile before they were caught. The

During our recent visit to Chicago Doom, Bro. & Co., while East, made ar. | we were much surprised to find such rangements with manufacturers by which an agreeable, sociable and accommoda that house can supply agricultural im- ting set of wholesale merchants. We had plements of every kind at manufacturers' expected to find the heads of those large prices. We would advise farmers in establishments too much occupied with want of implements to call and examine immediate business to take time for sociatheir list. The Messrs. Doom warrant littive but, notwithstanding the immense all machinery sold by them to be what it business they are doing-and there are come of the heaviest houses in Chicago to be found in the United States-they are never too busy to be gentlemanly and agreeable. We found a majority of the leading houses were conducted by men comparatively young in years, and to this fact, more than any other one thing, we attribute the great energy and determination to succeed for which Chicago merchants are so justly noted. We visited the city for the purpose of purchas ing material in our line of business, and without the least expectation of procuring advertisements. Judge, then, our sur prise upon finding many of the leading houses as antious to advertise t rough the columns of the HERALD a- we were willing to have tuem do so. Not wishing to intrude upon the space belonging especially to our readers, we only took advertisements from a few houses, and those, we can assure the merchants of Nebraska and other localities where the We visited each house, conversed with the proprietors, and can guaran would take advertisements from no

A Difficulty Overcome. One great difficulty experienced in the use of nearly all kinds of sewing ma chines, is found in setting and properly adjusting the needle. This difficulty is dent was caused by the horses leaving the result of defective construction; A defect which is not limited to any one Paints, machine or class of mach nes-but which is common to all, excepting one-the difficulty is entirely overcome-as will be

seen by the fellowing decision: "The needle is secured in its place by a patented device, which renders it selfadjusting, so that neither skill or experience is necessary in setting it."-Decis-
