

The Nebraska Herald.

LOCAL NEWS.

There has been many broad acres of wheat sown in Cass county during the past week.

Carder, of the Lincoln Commonwealth, has gone to Chicago to purchase job material.

The Western Journal is the name of a new paper published at Brownville, devoted to the interest of immigration.

Hon. T. M. Marquett left for the east last week. He has gone on business, and will be absent about two weeks.

Notice.—Sunday Evening services will be celebrated, hereafter at 5 P. M. in St. Luke's Church.

The foundation of the Capitol building at Lincoln has been completed and work commenced on the superstructure.

Wm. Stadelmann arrived from the east last week, where he has been laying in a large stock of clothing, spring and summer styles, boots, shoes etc.

T. K. Hanna Esq., arrived from New York last week, where he has been purchasing for their new wholesale house in Kansas City.

Vallerys & Ruffner have received their extensive stock of spring goods, and they are going off like "hot cakes." They have an assortment of everything.

W. H. Miller, of the Press, was in the city last Monday on a visit to his brother, Rev. Miller. He reports things lively at Nebraska City.

We have received another Communication from our correspondent relative to "horses," which will appear next week.

Prices Reduced.

Vallerys & Ruffner are selling Schutler wagons at the following prices:
3 inch, \$112; 3 1/4 and 3 1/2 inch, \$117.

A large number of immigrants have crossed the river at this point within the past week. Most of them go to the interior for the purpose of opening farms.

Doom, Bro. & Co., have received a lot of Canton Clipper Plows, both breaking and stirring, these plows are warranted to give satisfaction. w 1

Good Friday.—The Right Rev. R. H. Clark, Bishop of the Diocese will administer the rite of Confirmation and preach in St. Luke's Church on Good Friday, the 10th April prox.

It is believed by many that the warm weather last month hatched out most of the grasshoppers, and the more recent cold weather killed them. At least we hear no complaints from farmers in regard to them now.

See advertisement of "Seed Potatoes" by Dr. Child. The Dr. pays great attention to agricultural interests, and knows just what kind of seed should be planted to produce the largest and best crops.

Omaha is a little ahead on the bridge question this week, and the Nonpareil says a lady resident of the Bluffs who is suffering with toothache refuses to invest a dollar to have it extracted until the bridge is definitely located.

It is stated that the name of Hon. H. G. Worthington has been withdrawn, at his own request, and that no new one will be presented in its stead. Probably Ben. Wade, or some other man than Johnson will nominate the Judge for Nebraska.

The people of Cheyenne are having a lively time. A man named Martin, who had been tried for murder and acquitted, was taken out by the Vigilantes a few nights since and hung; and one gambler shot another at the dinner table in the hotel last Sunday.

Persons having real estate business to transact will find Reed, Beardsley & Reed, whose card appears to-day a firm well qualified to transact their business, and upright, honorable men. They are old residents, and are thoroughly conversant with all matters pertaining to the business.

Maj. D. H. Wheeler arrived at home last Friday, after a six weeks absence. The Maj. looks as if the excitement and water of Washington and other eastern cities agreed with him. He comes home full of courage in regard to Railroads.

The mercury was up to 80 deg. last Sunday, and grass appeared to grow about an inch during the day. The climate of Nebraska is like her citizens, it does not do things by halves. When spring comes, it comes along with a vim, and makes all nature rejoice.

It appears that Johnson and his counsel are exceedingly anxious to postpone the impeachment trial as long as possible, probably in the hope that the "southern heart" may be again "fired" and the Maryland "militia" and the "Ku klux klan", induced to rally to the rescue for their imperiled Chief. We hope the Senate may proceed immediately with the trial. The howling democracy have mourned much because persons arrested during the war were not tried quick enough. Let them have no grounds for complaint on that score in this case.

See notice of dissolution of the firm of Amison & Dovey. Mr. Amison retires from the business, and Mr. Dovey continues at the old stand, where he will maintain the former reputation of the house by selling more goods at less prices than any other house in the west.

E. A. Wiggens & Co., at the New York Cash Store, have just received their new spring goods, consisting of everything needed in this part of the country. They have also a fine assortment of cultivators, hay rakes, seed sowers, and other farm implements. Call and see them.

See new advertisements by D. B. McMechan, of Nebraska City. He has a large establishment and is selling at low and fair prices. He is selling iron and fence wire cheaper than any house in Nebraska City, and at eastern prices with freight added. We would call the especial attention of our farmer readers to his advertisement of the "Vandiver Corn Planter".

We have received Vol. 1, No. 1 of the Montgomery County Express, published at Red Oak Montgomery County, Iowa, by Webster Eaton. It is a neat six column paper, devoted to the interests of the locality and the Republican party. The number before us shows that Eaton knows how to "get up" a paper. We clip the following item from it:

About 10 days since a corps of engineers started from this place going eastward surveying the route for the B. & M. R. On Wednesday last another corps arrived here and started from this point westward, making Red Oak Junction in both instances, their base of operation. If anything was wanting to indicate fully the intention of that company to make Red Oak Junction a point, that want is now supplied. Without doubt the whole line of road to the river will be under contract before midsummer and pushed forward rapidly to completion.

Andy asks for another forty days time. At the time of the deluge it rained forty days, but that rain was no such affliction upon the people as a forty day reign by Andy. His reign should be cut short; and the clouds of war and disunion which he has attempted to gather about him should be dispersed as speedily as possible.

NOTICE.

J. J. Woodrow, of Ashland, is closing out his stock of goods at cost. He is selling boots, shoes, leather, harnessware, laces, and everything and anything he has at very low figures. He also offers his house and lot in Ashland very cheap. All persons knowing themselves indebted to him are requested to call and settle immediately. m 26f.

Try it Once.—The manufacturers of the Best Chemical Saleratus, Messrs. D. B. Do Land & Co., show their readiness to have the merits of the article tested, for they authorize all who sell it at retail to refund the money when by fair trial it does not prove to be as recommended. This is fair and shows their confidence in the article. It is better than Soda.

The Turner came up last Sunday, and landed about thirty immigrant passengers at this city, all of whom will settle in and about the city. The captain of the Turner says he has passage for over three hundred families more already engaged. What think you of the immigration to Nebraska for 1888, when one steamboat alone has advanced passage engaged for over three hundred families. Hold your breath and think.

See advertisement of "Weeping Water Mills" by Reed & Clinton. These mills have gained a reputation that reaches far beyond Nebraska, and they will deserve it. The proprietors have expended nearly or quite \$20,000 in their erection, and they are managed by men who know exactly how to make good flour. The brand of "Weeping Water Mills" on a sack of flour always reminds one of delicious biscuits and nice white bread.

Building has commenced early and in earnest this spring. Several foundations for brick and frame structures have been commenced, and we notice one commodious brick residence in the west part of town with the walls already up to the second story. The people of Plattsmouth have waited long enough for an excitement to crowd them along to build, and they find that the country is getting so far ahead of them, and the demand for houses becoming so strong in the city that they are compelled to build without an excitement.

The Local of the Omaha Republic can have shown a tooth supposed to be one of a grizzly bear, which was found sixty feet below the surface of the earth at Cheyenne, where, in digging a well a large deposit of the bones of various animals were found. This deposit is one foot in thickness, but its extent otherwise has not of course, been ascertained. The place of this deposit is supposed to be the bed of an extinct river which deposited them there, and since the vast plain has accumulated above to the depth of sixty feet.

We find some of our business men who suppose all the local notices that appear in the Herald are free gifts by the editor. We will say for their benefit that such is not the case, but this is the method chosen by some to advertise—and a first rate one it is. We make this statement because some of our patrons have thought we were profuse with "puffs" for some houses, while others were not mentioned. We serve all alike—always giving a free notice when an advertisement is first inserted, and charging for all others.

We learn that some persons are engaged in the rascally occupation of telling passengers on the C. B. & St. Joe. R. R. that they cannot get across the river at this point, and that there are no stages connecting between Pacific City, Plattsmouth and Lincoln. We have no objections to people using all fair and honest means they can to induce people to go to the localities of their choice, but wholesale lying should be dispensed with. It is a fact known, or at least should be, by every man in Nebraska or along the line of the C. B. & St. Joe. R. R. that stages make regular trips between Pacific City and Plattsmouth, and between Plattsmouth and Lincoln City, via Ashland, and that we have as good a steam ferry boat in operation at this place as there is on the Missouri river. We shall take steps to ascertain who it is that is engaged in this very laudable(?) work, and will be very happy to give him or them a gratuitous notice, stating names and places of business.

PLATTSMOUTH March 10th 1868.
We would say to those about to purchase a Family Sewing Machine to examine the Willcox & Gibbs before buying. We have used it in our families from three to eighteen months and would say that it meets every expectation! Would not exchange for any other Machine.
