

LOCAL NEWS

Mr. Wison has his new office on Main street about ready for occupation.

About two inches of snow fell last Sunday night.

The river closed at Omaha during last week.

The Niagara gives a lengthy article to the R. R. Bridge project.

Fickler has whitewashed and otherwise improved the appearance of his market.

Gov. Butler will issue his proclamation in a few days removing the seat of government for Nebraska to Lincoln.

We understand the contract for printing, etc., for the State, will be awarded soon.

The swampy land difficulty between the R. & M. R. Co. and Mills county has been amicably adjusted.

John R. Clark, of the firm of Clark & Plummer, left for the east last week. He will be absent about two weeks.

Doorn Bros. & Co. are selling their stock of Dry Goods, Boots, Shoes, Groceries, etc., very cheap. All you who have to buy, give them a call.

The Brethren of Plattsmouth Lodge No. 6, A. F. & A. M., are requested to meet at the Hall at 7 p. m. Monday next, 30th inst.

A mass-meeting was held in Falls City last week for the purpose of ascertaining what could be done towards inducing a R. R. up the Nemaha valley to Lincoln.

The Methodist society of Lincoln will lay the corner stone of its new house of worship in a few days. The building is to be in the gothic style, and constructed of brown sandstone.

New Mexico correspondence of the Washington Chronicle mentions Gen. H. H. Heath, formerly of Nebraska, and now Secretary of that Territory, as one of its prominent Republicans.

The statistics show that the mere value of the liquors consumed in the United States is fifteen hundred millions of dollars a year—or three fifths of our national debt. Horrible!

O. F. Johnson & Co. have our thanks for a bottle of "Billing's Maltine Ink." It flows freely, changes rapidly to a deep black, never fades, will not corrode, and copies perfectly. Try a bottle of it.

We would call the attention of those interested to the exhibit of the School fund in this issue, by the County Clerk. This report would have appeared last week had not unavoidable circumstances prevented.

All persons indebted to us, either by note or account, will please call and settle immediately, as we wish to close our accounts by Dec. 25th.

Mr. Blackburn's printing office, in New Orleans, has again been mobbed, and this time completely ruined. He declares he knows his rights, and knowing danger maintain them, even though it takes the force of the government to sustain him.

"Haver's Eukollon," a white liquid paste, is about to supersede the ordinary mangle. It possesses superior qualities, such as retaining its flexibility when dry, does not ferment, or form a crust around the mouth of the bottle.

Take Notice. All persons indebted to me by note or account will please call and settle immediately. All accounts not settled by December 25th, will be left for collection. Take notice and govern yourself accordingly, and save your cost.

Our old friend Jenks, of the firm of Horton & Jenks of Weeping Water, was in the city yesterday. He reports everything lovely at Weeping Water, and business lively. They are now occupying their new store, which will bear comparison with any interior building in the State.

Mr. Geo. A. Hall, traveling agent for the Nebraska Press, arrived in the city yesterday, and will remain during the week, looking after the interests of the paper. Mr. H. is stopping at the Platte Valley, and will probably call on some of our citizens during his stay, and give them an opportunity of patronizing the Press.

The Lincoln Commonwealth speaks of the "present survey" of the B. & M. R. R. as though there was a probability that a different line would be selected before the road was built. Will that paper please inform us upon what facts it bases such supposition? Or if it does not mean this, will it please tell us what it does mean? We dislike the mystery.

NOTICE.

To the people of Cass and adjoining counties, we now say pay up your accounts with us. We are needing money and must have it.

Doorn Bros. & Co.

Mr. Wm. S. Cornell, correspondent of the N. Y. Times, was in our city several days last week. Besides writing for the Times, Mr. Cornell is engaged in gathering material for a new book relative to the country west of the Missouri river. He is a gentleman of rare ability, and his book will be both interesting and instructive.

Strange phenomena are reported in the Sierra Nevada Mountains, at the head of Kern river. The earth is said to have been shaking for more than two weeks—almost a constant shake, rolling rocks down the mountain, and the earth waving like the sea. It is supposed that it is a volcano getting ready to burst out. The mountain is supposed to open like a hinge hence it is not felt at a great distance off. The atmosphere has been very thick there for weeks.

What is the matter with the Glenwood Opinion? Is it not aware that in the west, second importance to none in the west, is being constructed through Glenwood and Mills county? We have watched its columns eagerly for the past month to gather some items of interest relative to the progress of the work, but have failed to find anything there. What little we have learned in regard to the progress of the road, we gather from other sources. Our neighbor of the Opinion would do well to live up a little and give the public the current news of its locality.

See advertisement of the Florence Sewing Machine. It is said to be the best machine in use, making four separate and distinct stitches, all of them perfect. Its parts are all simple, durable and permanent. We have seen specimens of work done by it, where the same needle and thread and the same tension used to sew through a quarter inch board and then through one thickness of printing paper, the stitch being complete on each side. Dr. G. H. Black is agent here.

Apology.—Our columns have been short of the usual amount of reading matter for a day or two, owing to a difficulty with regard to our "help." The matter is settled, and we have engaged the services of an assistant for twenty-one years to come. The principle assistance we expect from him for the present, is to wake us up early in the morning.—Chronicle.

We would again remind parties sending correspondence for the columns of the Herald that we must have the real name of the author—not for publication unless desired, but as a guarantee of good faith and a knowledge of who is responsible for any statements a communication may contain. We received a communication upon the head law question this week which is laid aside for the reason that no name accompanied the document.

Mr. M. Stockman was in the city yesterday after lumber for his place in Wahoo valley. The Wahoo is one of the finest valleys in the State, and is being improved rapidly. Mr. Stockman has 100 acres now under cultivation, and intends fencing in a section and breaking as much as four farms can break next season. Mr. Bissel has 300 acres under cultivation, and will break another 100 next summer. Wahoo will soon be the richest farming region in the State.

Some of the "typo" on the B. N. V. parcel have made a "strike" because the editor published an article recommending tramp labor to seek employment in the Leavenworth Hallucin office. The Newspaper strikers failed to make their point—that of stopping publication—and Chapman informs them he has no further need of them. That looks a good deal like "cutting off ones nose to spite his chin."

J. P. Lantz, Esq., of Lincoln, was in the city Tuesday, on his way to Omaha. Mr. L. is one of the "live" men of Lincoln, and is doing much to bring that section of country properly before the public. He is one of the heaviest Real Estate dealers of the State, and those desiring a purchase can always find desirable localities by calling on Lantz.

Col. J. P. Sanford's Lectures.—We are truly gratified to be able to announce to our citizens that Col. Sanford, the distinguished Lecturer on Palestine or the "Holy Land," will deliver his lecture of highly interesting and instructive lectures in Plattsmouth on the evenings of Dec. 2nd and 3rd. And we can assure our readers, that it will not be extravagant to anticipate the richest treat of the season. It will be only necessary to refer you to the opinions of the press, where he has lectured, to convince all of the truth of his popularity and merits as a lecturer. The Col. will be prepared to exhibit a great variety of antique relics, which he collected while traveling through the old world, among which are old coins and precious stones, Egyptian Gods, brick and mortar from the great pyramid of Egypt, thousands of years old, pieces of stone from Solomon's Temple, Sandalwood beads which laid on the Tomb of Christ, a piece of bread which was baked in the city of Pompeii eighteen hundred years ago, and had been covered with the lava and ashes from the eruption of Mt. Vesuvius. Also a great many other ancient relics, curious on account of their antiquity.

We could give a column of favorable press notices, but space will not permit. Turn out and hear the Col., and you will never regret it.

Petition for Sale of Land. Jacob Valley, Jr., Administrator of the estate of Peter A. Sapp, deceased, vs. The Heirs and Others. It is remembered that on the 10th day of October, 1868, the application and petition of Jacob Valley, Jr., Administrator of the estate of Peter A. Sapp, deceased, for a license to sell the real estate belonging to the said estate, came on to be heard before his Honor, Geo. B. Clark, and that he, the said Geo. B. Clark, did give his order, directing fully as to the premises. It is hereby ordered that all persons interested in the said land, do appear at the office of the Clerk of the District Court for the City of Omaha, in the County of Platte, Nebraska, on the 24th day of December, A. D. 1868, at 10 o'clock a. m. of said day, at the office of the Clerk of the said District Court, to show cause why a license should not be granted to the Administrator of the said estate, to sell the same. And it is hereby further ordered that, copy of the above order be published in the Nebraska Herald, a weekly newspaper, published in the City of Omaha, Nebraska, for four successive weeks, the last insertion being complete at least five days before the 24th day of December, 1868.
