

LOCAL NEWS.

The Ferry boat at Stephens has been raised and is being repaired as fast as possible.

Skatists are doing it on the glare ice opposite here, at a rate that is fast engendering the scratches on the father of waters.

Messrs. Hyatt & Dorrington have bought out Mr. Cal. Parmele's interest in the Plattsmouth, Ashland and Lincoln Stage Line.

Old Muddy has at last succumbed to Jacob Frost, Esq.—Hyperborean bridge builder of these parts—and the crossing here is now all that can be desired, smooth and safe.

The South Western Stage Line is doing a splendid business between here and Lincoln. Fine foot stores, good buffalo robes, and accommodating drivers are making this line one of the most popular in the State.

Wood is rolling into this "barge" at surprising rates from Iowa. Now that the ice bridge is completed, prices have come down, and fires are cheap enough to be kept up all night.

The Grape Vine Telegrams from Lincoln are keeping up the heat of the Senatorial contest. Odds are offered on Marquette, and no takers hereabouts.—Some of the "operators" will get their fingers burned by the "lightning" they are playing with next Tuesday.

Mr. Stadler, of this place, has invented a fuel saving drum, for wood and coal stoves, that is not only ingenious, but works to a charm. The pipe above the drum being kept cool enough to permit the bare hand to touch it, while the drum is hot as fire can make it.

Frozen Eggs.—Frozen eggs should be kept in that state until wanted for use, then put in a dish of cold water, and set on the fire to thaw gradually. When the water will just bear the finger they may be broken, and will be found as fresh as when first laid.

The Nebraska Journal comes to us under the editorial management of Bro. W. D. Blackburn, and is now published at Falls City, Richardson county. It is well printed, and is going to prove itself an important aid to the development of that splendid county. We wish it all manner of success in its new field.

The Southern Nebraska has a salutatory from its new editor—Bro C. L. Mather—he is going to run his sheet on the broad gauge and ignores all things—but for Mather, we hope he'll stick to that motto. He advocates the Trunk or North and South road. All right again, Bro. Mather, we join hands with you there.

The Nonpareil says that preparations for the erection of the bridge over the river are gradually assuming a definite shape. Engines and part of the machinery to be used in sinking the pneumatic columns, are on the ground, on this side, and the other preparations are going forward with despatch.

We are in receipt of the "Illustrated Catalogue of Seeds and Flora. Guide for 1893, issued by James Vick, Rochester, New York. It is well printed and illustrated with beautiful engravings. It is an invaluable work for all those who delight in flowers and wish to secure a good selection of seeds. The book is forwarded to all those who desire it for ten cents See advertisement in another column.

We have on our table N. P. Boyer & Co.'s "American Stock Journal." We commend it to the citizens of Cass.—Where is the Farmer that does not admire fine Blooded Stock or take pride in caring for it. Every farmer has now an opportunity of obtaining some choice Cattle, Sheep, Hogs or Poultry free, by getting up a club for this JOURNAL.—Specimen Copies, Show Bills, &c., sent free. Address N. P. Boyer & Co., Publishers, Parkersburg, Chester Co., Pa.

Judge Miller, of the United States Circuit Court, has made a decision that will have an important effect upon ferry companies. He decides that no State has the power to grant the exclusive right of operating ferries on our rivers. This rule demolishes the theory that an individual or company may obtain a charter to the exclusive use of a given number of miles of river crossing, and then do as they please, and prevent any other person from interfering with them. It will put ferry companies upon their good behavior.

Capt. Mayo Reid, sends us his new Monthly "Onward." This magazine is devoted to the cause of Progressive Freedom, and commends itself to the young men and women of America.—The editor has devoted much time to the study of European politics, and will especially aim to sustain a conviction thereby acquired, that a Republic is the only true agent of civilization. The Magazine is handsomely illustrated, and is intended particularly for the youth of America. Price, \$3.50 a year; 5 copies, \$15; 10 copies \$28. G. W. Carleton, Publisher, 407 Broadway, New York.

RATHER IGNORANT.—The following rich rare and racy item we clip from the Council Bluffs Nonpareil:

"Finn," the very intelligent correspondent of the St. Louis Democrat, perpetrated the following "bull." Tipton, of Colorado, and Stewart, of Nevada, are presumed to be sure of re-election. "A Washington correspondent that don't know that Colorado is not a State, and that Tipton is of Nebraska, should take his first lessons in primary geography, and his political information, by buying a copy of the Tribune Almanac, and soak his pen until he learns the facts he writes about. A few days ago, the same writer stated that "David Wilmot, of Pennsylvania, is one of the judges of the Court of Claims," whereas Wilmot has been dead more than six months. If all our information from Washington is as reliable as the above, we had better do without it.

NIGHT SCENES IN THE BIBLE.—Many of the most affecting and most important scenes in the Bible, transpired under the splendors of oriental night. Sodom and Egypt, Boerha and Babylon, Carmel and Gilboa, Olivet and Emmaus, Jerusalem and the sea of Galilee, have each, by night, been witnesses of the power and glory of the omnipotent Jehovah.

The author of "Night Scenes in the Bible," has followed the shadow of night across the landscape of divine revelation, and grouped together the sacred scenes which are made awful or impressive by the mantle of darkness.

He has succeeded in bringing to light "new and beautiful gems from the mine of bible truth," and has produced a delightful volume. The leading clergymen of the country have given it their most cordial approval as a "charming" and "instructive" work.

The style in which it is published excels anything it has been our privilege to examine. The steel engravings by the first artists of the country are perfect "gems of art." We have space to describe but two of them. The first is "The Night Watch in Mount Sier." Beside one of the mountain passes, with grand peak towering, crag upon crag, on either side, stands the watch-tower, with its solitary watchman. Just through the pass can be seen the first bright streaks of approaching dawn. At the foot of the pass, wholly shrouded by the overhanging crags, a party of travelers are encamped. They cry out to the watchman: "Watchman, what of the night," and down the through the pass comes reverberating that cheering cry, "The morning cometh!"

Again we pass on down the ages to the time when the long looked-for morning had come, and the Son of righteousness had arisen with healing in His beams." Before us is a lone mountain side, and a prostrate form kneeling on its onyx-shrouded rock. The pale moon beams creep among the crags, just revealing their barrenness, the stars shine dimly overhead; but glory surrounds the lowly form—it is Jesus, for "it came to pass in those days that He went out into a mountain to pray, and continued all night in prayer to God." It was a sublime scene, and the representation before us tends to awaken the most devout reflections.

We love to dwell upon the scenes portrayed in these illustrations; and we feel that no one can fail to be benefited, both by these truthful and impressive pictures, and by the earnest words of the writer. Let parents, who wish to have their children love the Word of God, and understand its lessons of wisdom and love, secure this volume, and give them free access to its pages.

"Night Scenes in the Bible, by Rev. Daniel March, D. D., Zeigler, McCurdy & Co., Publishers, Philadelphia, Pa. Cincinnati, O.; Chicago, Ill.; St. Louis, Mo. See advertisement AGENTS WANTED.

About five years ago Mr. Thos. Thomas, of this county, picked a few kernels of wheat from some canary seed in black & Buttery's store, and concluded to try the experiment of cultivating them. The first year the crop was destroyed by vermin, except a few stalks from which he obtained 90 grains; the product of these 90 grains, up to this year, is 42 bushels, notwithstanding the grasshoppers done serious damage to it during the past two years. Mr. Thomas thinks from what experience he has had with this new kind of wheat (which, from the method of obtaining it he calls Canary Wheat) that it will yield about 50 bushels to the acre with a fair opportunity. It makes good flour, of a yellowish cast, raises well and makes as good biscuit as our best spring wheat flour. In order that the seed may be preserved, and others may have a chance to try this wheat, Mr. Thomas proposes to dispose of a small quantity at \$3.00 per bushel.

He also has a small quantity of the famous "Surprise Oats," from which he raised 2 1/2 bushels from 2 quarts the first season; and this year 4 1/2 bushels from the 2 1/2, notwithstanding they were seriously damaged by grasshoppers both seasons, after they were headed out. The Oats will be disposed of, in small quantities, at \$3.00 per bushel. Specimens of the Wheat and Oats can be seen by calling on Mr. Thomas, or at the Herald office. nov26m4
