

LOCAL NEWS.

Sege's velocipede has been parading the streets during the past week.

Senator Thayer has secured an appropriation for a post office building at Omaha.

Why is a connoisseur like the U. S. Treasury Department?—Because he has got about well.

Senator Tipton has our thanks for a number of valuable books received during the past week.

For a fine "velocipede" or any other kind of hat, go to Wm. Stadelmann's.

"Dooms" have hauled down their old sign and hung out a new one since the railroad bonds have carried.

The river has raised several feet during the past week, and is in splendid boating stage now.

We understand the engineers of the B. & M. R. R. ran a line through the central portion of the county last week, but have learned nothing in relation to the character of the route.

With very few exceptions, we believe the recent campaign for bonds was carried on with the utmost good feeling on the part of opponents. That was as it should be. Argue your point without personalities.

Stadelmann has the original "Grecian Bend Neck Tie," warranted genuine.

A few years ago farmers scattered wheat from a sack fastened over one shoulder; now you see Broad Cast Seed Sowers at work on almost every farm.—This is certainly an age of improvement.

W. E. Harvey has attained the position of Actuary of the St. Louis Mutual Life Insurance Company. He must be one of the best business men and mathematicians of the country.

Work upon the B. & M. extension, in this county, is progressing as rapidly as possible, and so it is all along the line. It is estimated that the cars will run to Red Oak by August 1st, and to Glenwood by September. Hasten the day!

We have before us No. 1 of the Nebraska Intelligencer, published by that wide-awake real estate firm of Lincoln, Lantz & Guttridge. It is published monthly, at 50 cts. per annum. It is a neat six column paper, and is filled with matter relating to Nebraska.

The prospect for fine crops was never better in Nebraska at this season of year than at present. The season is favorable, ground in good condition for seeding, no grasshoppers, and everything looks bright for the industrious farmer. We look for an immense shipment of grain from Nebraska next fall.

We have heard several persons enquiring for lots in this city since the election, but there is no wild rush as there sometimes is over the probability or certainty of a railroad. People here are moderate in their movements, and are not inclined to mistake excitement for judgment.

The contract for building the railroad between Leavenworth and the terminus of the Central Branch of the Union Pacific Railroad at Atchison, was on Wednesday, awarded to A. Waterman, for \$250,000; this is exclusive of iron. The road is to be in running order by the first of September.

The spilling and bridging on the B. & M. R. R., is going ahead at a rapid rate, and it is estimated that it will all be completed as early as the middle of August. Mr. Mallory, the man who has this work in charge, is all business and don't stand for trifles.—Red Oak Express.

From accounts in Omaha papers, we infer that the various Christian Churches of that city are passing through the "refiners fire," and from present indications, there will be but little left, after the "dross" is consumed, demonstrating the truth of the Scripture, that "many are called, but few are chosen."

Wm. T. Parrel, Esq., is now ready to supply the trade with that excellent Horseshod. He would have been prepared for the demand long ago had he not been disappointed in getting his bottles from the manufacturer. Every family should use horseshod freely at this season of the year. It may save several dollars in doctor's bills.

Depositors Monthly is justly called the "Queen of the monthlies." It is the only real woman's magazine in America. It is full of good, sound sense, and practical information. It gives away money value in its valuable full sized patterns with every issue, and contains a mine of interest to every woman in its "Ladies' Club." Published at 338 Broadway, N. Y., \$3.00 per year. Send 15 cents for a specimen.

The recent campaign on the question of issuing bonds in this county was conducted with a will on both sides. Each party worked, we doubt not, for the side they believed to be right, and a majority has decided in favor of issuing the bonds. As this is a Republican government, where the majority rule, we suppose there is no question now as to which side was right, we presume the bonds will be issued and the road will be built.

The first ten miles of the U. P. R. R. lands have been deeded to the Company, and taxes have been assessed upon them. These lands are to be brought into market soon, and we hear it rumored that they will be opened for pre-emption.

Remember that next Monday is the day for our municipal election. Let every Republican be on hand and vote the straight ticket. There has not been any nominations made as yet, but we presume there will be, and then every Republican should support the straight ticket.

Horse thieves have commenced operations again in this locality. A fine mule belonging to the Dorringtons' and a horse belonging to Mr. Alley, were stolen from this city about ten days ago.—This is the first operation of the kind we have heard of since the band was exposed last summer. It might prove bad for the lungs of a horse thief to be caught by some of our Cass county boys.—And they are on the look out for them.

Last fall a gentleman came to this city and began business with fair prospects, so fair indeed, that he did not deem it necessary to advertise in order to be successful. We notice now that his stock has been removed and his business house is closed, while men with less capital and prospects far less flattering are doing well and prosperously. The cause is evident. There may be a few men in the country so rich, and who are so energetic that they can ignore the benefits of advertising and live, but they are few. And if they can live without, how much better they might do with it.—Press.

We have some as fine farms in Cass now as one would desire. We had the pleasure last week of looking over the farm of Daniel Sweeney, Esq., of South Bend precinct, and must say that it is about as well fixed for living as any man we have seen in the west. He has a comfortable and commodious stone house, two stories, spring close to the door, and other conveniences for a first class farm house. He has 640 acres of land, a fine body of timber, and as fine a stone quarry as can be found in the State. There is one quarry on his land from which they procure a very fine article of Magnesian limestone, the same as that of which the State House at Lincoln is built. We believe this is the only quarry of this kind in the State, except the one at Beatrice. Mr. Sweeney has a fortune in this bed of stone so soon as he can get facilities for transportation.

Go to Stadelmann's for latest styles of Boots, Shoes, Clothing, etc.

One or two individuals, whom we could name if necessary, have been blowing off a heavy blast of vituperation against the Herald, during the past two weeks, and made the bond question the excuse for so doing. The Herald has endeavored to deal candidly and honestly at all times, as well with the recent bond question as with all others, and is ready to acknowledge its error; when shown to be in error but it cannot be muzzled by villainous and personal accusations, and would suggest that probably those parties who have been engaged in such denunciations have other and more personal reasons for not liking the Herald than its position on the bond question. We are glad to know, however, that most of those who opposed the issue of bonds endeavored to be fair in their arguments and in their conduct.—Such should always be the case.

An article appeared in the "Temperance Column" of the Herald last week which mentioned by name two or three saloons of this city in not very flattering terms. In allowing the temperance society the use of a column of the Herald, we do so with the expectation that nothing of a personal nature shall be inserted. We believe in the great principles of temperance, and are willing and anxious to aid in their promulgation, but must rigidly insist upon keeping the columns of the Herald clear from all personal references of the character of the article referred to. Without professing any personal knowledge of the inside workings of any saloon in the city (as we have seldom seen the inside of a Plattsmouth saloon), we feel safe in saying that the saloons of this city are as orderly as those of any city of this size in which we have lived. There has not been a "row" or fight in a saloon in this city within the past year, that we remember of. We mention these facts, not in justification of saloon keeping, but in order that no false impressions may arise from the article of last week.

Morton has gone to Omaha to lecture for the "orphans and widows," and "Dan" is running the News to suit himself. We advise him to play John Phoxis on Sterling, just a hule, and see if it would not be an improvement on Sterling's style.

The Chronicle says that the circular of which we spoke last week was printed in that office, but was paid for and written by persons living in Cass county. We did not intend to be understood as accusing the Chronicle of the authorship of the circular—in fact we knew that such was not the case—but we yet adhere to our position that parties in Otoe county were interested in defeating bonds in Cass, and we can, if necessary, name some individuals, residents of Otoe who took an active part in the campaign against bonds.

The M. E. Conference for Nebraska met at Nebraska City yesterday. Three or four steamers have passed during the past week.

There will not be less than 500,000 bushels of wheat raised in Cass county this season.

The proceeds of a donation to Rev. Lemon; at Omaha, last week, were \$150.

Stadelmann's Bakery is about to be removed to C. G. Herold's old stand, between Third and Fourth streets.

Our city authorities and the saloon keepers will bear in mind that we have a law prohibiting the sale of intoxicating liquors on days of election.

We learn that the people of Sarge county voted down the proposition to issue their county bonds to aid the Omaha & South Western Road. They voted last Saturday.

W. L. Tucker left a fine bunch of onions at the Herald office yesterday the first we have seen this season.—They were raised in the open air, without the aid of reflectors or other artificial helps. Tucker is ahead.

Real estate dealers will find it advantageous to use the columns of the Herald pretty freely just now. "The early bird," etc. The man who gets the start will be the man who makes the money.

Remember that there are only two days,—to-day and to-morrow—in which to register for the coming city election. See to it that your Republican neighbor is registered.

See advertisement of Home Insurance Company, of New Haven. This is a sound company, and has fulfilled the requirements of our statutes.

Sam. M. Chapman, Esq., went to Lincoln last Monday on business. He took with him the journals of the recent session of the State Senate, having had them here for the purpose of making copies for the printer.

The sales of the great Dry Goods house, FRENZ, LEISER & Co, for 1868 were \$40,419,260, exceeding that of any other house in Chicago, about \$3,000,000; a forcible illustration of what fair dealing, based on a cash system can accomplish.

We hear that fifty families—the advance guard of Capt. Murphy's Republican Valley Colony—have arrived at Lincoln. The prospects of the colony are very flattering, and every day adds new recruits to the army of occupation.

On Saturday evening, March 27th, some of the friends of Rev. C. A. Miller, of Ashland, met for the purpose of making a donation, they accordingly contributed to that purpose, had a good social time, a supper, and retired leaving him the grateful possessor of \$43 in money, and other valuable tokens of their regard.

FARMERS

Don't you buy the Wier, Deer or any other Cultivator, until you go to Foggy's shop and examine E. Newlon's Celebrated Patent Walking Cultivator. It is the champion. C. E. Foggy is manufacturing them, and is making the shores out of the best refined cast steel, and the wood work of the best timber that can be had. This Plow is distinguished wherever exhibited with others. This Plow took the premium over the Wier Plow in his own county. See testimonials.

This is to certify that I attended the Iowa State Fair, held at Clinton, October 1, 2, 3 and 4, 1888, and my Improved Cultivator was examined and found to be one of two of the best out of some thirty different Cultivators. Premiums withheld. Ed. NEWLON, Illinois State Fair, Quincy, September, 1888.—Newlon's Cultivator was examined and found to be one of four of the best on the ground. Premium withheld. J. RIDER, Agent Pickaway county, Ohio, Sep., 1888.—Newlon's Cultivator was awarded the first premium over all others.

I certify that my Cultivator was awarded the first premium in Warren county, Illinois, over all others in 1888. (Take notice, this is in Wier's own county.) Wier's Plow was at all of these Fairs, except in Ohio, and I beat him every time. Ed. NEWLON, Dan Latta, Agent. Levi Todd, Esq., Mt. Pleasant precinct, Cass county, Neb., is the only man that has ever used this plow in Nebraska, except some of his neighbors, and after giving it a thorough trial with several other Plows, including the Wier Plow, is decidedly in favor of the Newlon's Improved Champion Cultivator. PLOWING MARCUES.

I attended a match at Col. Hutchison's. There were 15 different Cultivators present. Every plow in the match had either diamond or twisted shovels, except mine. I was one out of five of the best 15. Premium withheld. Ed. NEWLON, Chicago Ill.—Newlon's Plow Victories over all others, at a plowing match here. KINGMAN & Co., Agents North Henderson, Ill.—Newlon's Plow victorious over all others at a plowing match here. J. C. MESSENGER.

This is to certify that I attended the State Fair of Nebraska, with E. Newlon's Improved Cultivator, and it was found to be one of the best of two out of seven. Premium withheld. C. E. Foggy. Reasons why you should buy for \$7: 1st. The shovels are of the best cast steel, which no other shovels Plow can beat successfully. 2d. My Plow is easier handled. 3d. It is much lighter on your team. 4th. They are made at home and the money you pay for the plow stays here; and you can get it in the fall with the corn you raise. 5th. If your plow breaks, you know where to go with it. If you break a casting in an Eastern made plow, you have to try out of the use of it until you can send East and get a new one. 6th. The Plow is nicely arranged to raise or lower, to suit high or low corn. 7th. They are the best in use. 8th. They are all warranted to give the best of satisfaction after three days fair trial. Send in your orders early. January 23rd.

"VANDIVER." The King of Corn Planters. The best and most reliable in use, it has advantages over all others which we guarantee most positively: It is lighter of draft, having ganz wheels forward allowing the tongue to play in the neck-yoke, causing no weight on the horses neck, though the heaviest man ride as operator, it works free on the hinges so as to accommodate itself to all unevenness of the ground, has a wide opening at the heel of the runners allowing the corn to scatter in the hill, with small plow attachment, actually covering the corn, it is supplied with a flexible cut off which performs the work without injuring the grain, also drill and soil attachment extra. It is undoubtedly the most perfect Corn Planter in use, we fully warrant it in every particular. Farmers call and see the machine, and we also refer you to those who used them in this vicinity last season. CLARK & PLEMMER, Agts. March 18th.

DISCOUNT. The partnership heretofore existing between J. D. Simpson & W. Mickelwait and E. Battery under the firm name of Simpson, Mickelwait & Co., is this day dissolved by Mr. E. Battery retiring from said firm. Simpson & Mickelwait assume all liabilities of the late firm and collect all debts due same, and will continue the Lumber business at the old stand. SIMPSON, MICKELWAIT & Co. Plattsmouth, Neb. Feb 25th.

NOTICE. Having bought out the interest of E. Battery in the late firm of Simpson, Mickelwait & Co. it is absolutely necessary that the business of the late firm should be settled up. Therefore we shall expect all persons owing us to call and pay up, as we cannot give longer time. SIMPSON & MICKELWAIT. Plattsmouth, Neb. Feb 25th.
