

The Nebraska Herald.

LOCAL NEWS.

Rob. Morris, the great Masonic traveler and author, will lecture in this city on the evening of the 22d inst.

Mr. Ainsworth is in the city yesterday on Railroad business.

Lazenby is preparing to burn two large kilns of brick.

Gen. John S. Bowen delivered the oration at Blair on the 5th.

Superintendent Patterson is erecting a very nice residence in the north part of town.

The H. S. Turner passed down Monday, with a detachment of the Fourteenth Infantry about.

The recent rains have pretty thoroughly tested the capacity of the Main street culvert, and it is found ample.

The "iron horse" will whistle in Plattsmouth inside of ninety days from date. We have heard from him.

We learn that two or three houses were blown down yesterday morning between this city and Rock Bluffs.

There will be thirty different parties of men at work grading between this city and Lincoln next week.

See advertisement of "farm for sale," by H. R. Anderson. Here is a bargain for some person who wants a small farm.

It is estimated that over forty thousand acres of prairie were broken up in Cass county last season.

Over two hundred and fifty harvest machines have been sold and delivered in this city within the past month.

Parrels has been making improvements in front of the HERALD building in the shape of a nice new sidewalk.

Some person should advertise lightning rods for sale in this locality. They could sell well this season.

N. J. Bond was in the city last week looking after the interests of his house in this place.

A. Deyo, Esq., of Salt Creek, was in the city Saturday. He informs us that crops are excellent in his region of country.

The contract to furnish blank books for the State Auditor's office has been awarded to the office of the Iowa State Register.

Mr. Thos. Doane, Chief Engineer of the B. & M. R. R. in Nebraska, arrived last Friday and established his headquarters in this city.

Street sprinklers have been abundant this season. Every village has had one. They run day and night, and have a very free delivery at times.

Track laying on the B. & M. R. R. in Nebraska, will commence inside of sixty days, and trains will run to Ashland, if not to Lincoln, this fall.

Mr. Richard Vivian, of Portage City, Wisconsin, has leased the Platte Valley House of Capt. Murphy, and took possession last Monday.

There are four different parties of engineers laying out work for the Railroad contractors west from this city, and two or three more parties will be put on soon.

Heisl has his brick yard about ready to commence operations. He is just in time. The R. R. Co. will want several hundred thousand for the construction of depots and other buildings.

The Chronicle objects to the citizens of Nebraska City throwing the contents of their slop buckets on the sidewalk, and thinks the practice dangerous to "store clothes."

A portion of the goods for the B. & M. Railroad Store arrived by the Mary McDonald Monday evening. Among other things we noticed forty chests of tea.

L. G. Todd, Esq., was in the city Tuesday, purchasing machinery for harvesting. He informs us that crops are injured some in his locality, but not seriously.

Do you want to save 50 cents? If you do, call at the HERALD office and send up arrears and then advance \$2.00 for a year's subscription, instead of waiting and having to pay \$2.50.

Mr. L. G. Todd informs us that his section of country is filling up very rapidly, and that the prospects are that within another year nearly every acre of land not left for roads will be fenced up.

The railroad track, where it crosses Main street, will be on an even grade with the street, and on the extreme east line of Second street. This will give ample room for "buses," etc., and from the passenger depot.

The steamer Argonaut No. 2 had about fifteen feet blown off the top of one of her smoke stacks by the wind yesterday morning. She was at Rocky Point, just below the city, when the wind struck her.

We are in receipt of the Engineering and Mining Journal, a weekly publication devoted to the interests of the mechanic and miner. Price \$5. Address Western & Company, 37 Park Row, New York.

The 10th of July was fixed upon by the disciples of Miller, for "the wreck of matter and crash of worlds," but some mistake has been made in their calculations, for the thing has "not been done."

The Herald Bros. have their new building on Main street nearly ready to occupy. Their example should be followed by at least a hundred others—Plattsmouth must have more business houses immediately.

Alexander & Co. have opened their meat market at Fickler's old stand, corner Main and Second sts., where you can get all kinds of choice meats at the lowest prices. They pay the best prices for fat cattle. See advertisement next week.

See advertisement of N. J. Bond, Commission Merchant and Grain Dealer. Capt. Palmer, who is well known to most of the citizens of this county, has charge of the House in this city, and is carrying the highest market prices for grain.

A gentleman who came down from Ashland last Saturday informs us that he saw fifteen different parties of men at work on the Railroad between Ashland and this city. There will be a party on every mile of road before next Saturday.

The weather so far this season has been very unfavorable for Railroad Contractors. It has rained so much that they can only work about half the time, and a portion of the time they do work is devoted to repairing damage to work already done.

We understand Mr. Holland proposes opening his house under the name of the City Hotel. He has been fixing things up on the inside of the building during the past week, and will have the outside appearance materially changed soon by a free application of paint.

Wm. Quick, Esq., Division Superintendent of the U. S. Express Co. from Chicago west, is in the city Friday.—He generally finds things in such shape here that he only stays an hour or two—there is no necessity for an extended examination of the books.

There is a great cry for houses to rent. We venture to say that five hundred new houses would be too small a number to supply the demand for the next twelve months. There are several new buildings going up, and others will be commenced soon, but they are only a drop in the bucketful that is needed. Who will build more houses?

We learn that a little son of Mr. Hohlsehul was severely burned by the explosion of a quantity of loose powder on the 10th. He and another boy obtained some powder, strewn it on the ground, and Mr. Hohlsehul's boy touched a burning match to it. His face was badly burned, but fortunately he will sustain no permanent injury.

Fitzgerald & Mallory, contractors, advertise for 250 teams and 1000 laborers, to work on the B. & M. R. R. in Nebraska west from Plattsmouth. They offer \$4 per day for teams and \$2 per day for laborers; board \$4 per week, and grain and hay furnished by the contractors at cost.

The Presbyterian Sabbath School of this city, was reorganized last Sabbath morning, by re-electing J. N. Wise Superintendent; Thos. Evans Librarian and Secretary; John R. Clark, Treasurer, and the appointment of a committee of three, consisting of J. N. Wise, Wm. Kershaw and Thos. Evans to draft a Constitution and By-Laws for the regulation of the School in future.

The storm yesterday morning was as severe as any we have had for some time. The wind carried away the entire east gable of Finisher's boarding house, and two or three more parties will be put on soon.

The Chronicle says "Gibbs"—the professor of the toll-bridge—has not contracted to build the Midland Pacific road but intends visiting Plattsmouth. Send him along Waters; the "freedom of the city" will be tendered him, and he shall receive all that attention and consideration due a representative man of Nebraska City. By the way, does the "Prof." deal very extensively in "beefsteak" now-a-days?

A small bit of a "serenade" occurred in front of the B. & M. Railroad Store Saturday evening, in which one party tried to kiss another, and the other party got slashed a little with a knife in the hands of the aforesaid first party. The man who handled the knife was fined before Recorder Wells and fined \$50. Not having the "stamps" he was sent to the lock up.

In accordance with the law enacted last winter, County Clerk Spurlock took possession of the books and papers pertaining to the office of the Clerk of the District Court, on the morning of the 5th. The commissioners have had a doorway cut through the partition separating the office rooms of the County Clerk and District Clerk, so that the two sets of papers and books are kept in separate rooms, but can be looked after by the same person.

It seems to us that some people in the vicinity of Nebraska City should be fined for "contempt of the Midland Company." In one column of a newspaper we saw where an Indiana man named Conroy advertises to receive proposals until the 25th of July for doing some grading, before it is determined whether it will be done at all, and in another column of the same paper we see a statement that men and teams are going out every day to work on said grade. Isn't it wicked for them to act so? Where's White?

We regret to notice that, in our capital city, some people manifest an unnecessary amount of hostility towards Fremont, and instead of working with us and in a manner to secure good for themselves, they are trying to wield a knife which will eventually disembowel themselves.—Fremont Tribune.

Fremont is not the only place that "some Lincoln people" are hostile towards. They appear to think the sun was made to shine for certain localities, and for the benefit of certain men; and they would do their own city an injury if they truly their special pets could be gratified.

"Thomas, my son," of the Lincoln Midland Journal, refers to what he terms "some trifling grammatical inaccuracies" in a recent number of the HERALD. He is supposed to be the same "Thomas" referred to in the following: "Tommy, my son, fetch a stick of wood." Ah! my dear mother, responded the youth. The grammatical portion of your education has been sadly neglected. You should have said—Thomas, my son, transport from that recent collection of combustible material upon the threshold of this edifice one of the curtailed excrescences of a defect log."

The Chicago Republican has been collecting and publishing reports from all sections of the Northwest, in regard to the condition and prospects of the crops. At this crisis in the growth of grain, this mass of information, which comes direct from the farmers themselves, is of great value and interest; and the enterprise displayed by the Republican in collecting it, is only another evidence of the interest it takes in all that pertains to the welfare of the great Northwest.—The Republican is always wide awake in providing a first-class paper in all respects, and we heartily commend it to our readers who desire a metropolitan journal.

Marshal Murphy is making it lively for those pugacious chaps who delight in bruising each others faces to the horror of other people who chance to be in the vicinity. He is starting out right with this class of men, and "brings them up standing" before the Recorder every time they commence a row. The Recorder piles on a liberal fine, and if the culprit has no money he is allowed the privilege of working out the fine and costs on the highway. They will soon learn that our city authorities mean to have peace within their jurisdiction, or make the disturbers thereof pay for their "sport."

We have stated through the HERALD on several different occasions that no correspondence would be allowed a place in our columns that came to us unaccompanied by the real name and address of the author. More, this is a well established rule with most newspapers and should be understood by all persons writing articles for publication. The necessity of a strict adherence to this rule will be readily understood when we say that the editor of a newspaper is held responsible for all articles which he refuses or is unable to give the name of the real author when it is demanded by those who have a right to know. "Taxpayer" will understand why his or her article did not appear in to-day's paper. We hope to see a series of questions asked by a gentleman from Indiana.

1st. The health of Nebraska is, for a new country, remarkably fine; and there being no local cause for disease, must continue to be excellent.

2d. Our water is splendid and distributed in quantities to suit the wants of the people now here and the millions to come hereafter.

3d. Our soil may be equalled but cannot be surpassed, for richness and depth. It produces in abundance corn, wheat, oats, barley, rye, and almost every kind of vegetable that can be raised out of the ground in this country in the world.

4th and 5th. There is no government land unclaimed within seventy-five miles of this point. Beyond this there is any quantity of fine lands that can be entered at one dollar and twenty-five cents per acre, or may be purchased for less.

Nearer the Missouri river the best of unimproved lands can be bought at from \$3 to \$15 per acre.

We have a sufficient supply of timber of a good quality for all practical purposes, though not any too much to interfere with rapidity and ease of opening up farms.

7th. Our climate is usually more mild and pleasant than States further east. Most of new-comers express rapturous delights at our beautiful seasons.

8th. We have but little low or flat land, all of a most excellently rolling formation, adapted to wet or dry weather.

9th. It is not a level nor a mountainous country, only slightly undulating, with here and there valleys of incomparable loveliness.

10th. The climate being mild, water in abundance and grasses luxuriant and nutritious, renders Nebraska the stock raisers' paradise. Stock of all kinds find ready market and at a good price.

11th. Produce, and everything that can be raised by the farmer, sells for a good round price for the cash.

12th. The laborer is well paid for his work.

13th. The St. Joseph & Council Bluffs railroad runs within three miles of our city; also, we will soon have in running order the Quincy, Missouri & Pacific railroad, which crosses the Missouri river at this point. The St. Louis & Nebraska Trunk, and the Rock Island & Nishnabaway valley railroad, which also crosses the Missouri river at this point.

14th and 15th. Wild animals and Indians are not to be found, except far out towards the outer confines of the settlements, both of which are perfectly harmless provided they are kept at a respectable distance.

We hope our answers may not only induce a few, but seem to find homes on the rich soil of Nebraska.

The dispatch of Judge Caton, Horace White and others denouncing the report of I. N. Morris on the Union Pacific Railroad, has brought out a reply by Mr. Morris which he directs to Judge Caton in person, to give the concluding paragraph of Mr. Morris' letter which is decidedly spicy: "You are a millionaire now. Judge, you made your money out of telegraphs and railroads, and your ownership in no shrive but Mammon. When on the bench of our State, it was notorious that no individual stood an equal chance of obtaining justice at your hands opposed by a railroad or telegraph company. You are an interested witness, Judge, and testified very willingly. I advise you to cease exchanging your evidence for a free ride, a good dinner, and a few bottles of champagne—to talk about that which you know something. Try and see if you cannot make yourself less ridiculous, by attending to your own business—go home—get a bible and prayerfully study the 9th commandment."

Just as we go to press Doom Bro. & Co. have another large lot of goods on the landing. A stranger coming west would be astonished at the amount of goods sold by our merchants.

If you want to get some A No. 1 Sugar Cured Hams, go to DOOM, BRO. & CO.
