Telegraphic News.

CUBA.

More About the Steamer Lillian—Deceit of the Cortes Establishing Unrestricted Liberty to Religion. NEW YORK, October 25.—The Cuban Junta vehemently assert that the letter relative to the return of the Lillian expedition was written in New York, and the information it contains was furnished by a refugee to General Criste. The Junta, who were unreasonably resentful of the statements regarding the seizure of their vessel, and the abandonment of the expedition. They admit the quarrel between Golestria and Criste, but claim that the Lillian has departed from the Bahamas with a full complement of men and provisions, with the authorities of Nassau allowed the vessel to remain in port for twenty-four hours, in compliance with the international custom, and to depart unmolested.

HAVANA, October 25.—The decree of the Constituent Cortes, establishing unrestricted liberty of religion in Cuba and Porto Rico, was today promulgated in this island and has excited great interest among the people. The document is exceedingly liberal in its terms. It declares that Spain cannot remain removed from the general movement of Europe and the world, and adds that this consideration is the most powerful one in the Antilles, because they will be near a Continent where liberty of religion is recognized by law. One clause of the decree provides that no person shall be persecuted for his religious opinions by the Government by reason of his religious belief. The decree is received with general satisfaction. A protestant church will probably soon be established here.

WASHINGTON.

An Armed Mob in Florida—Murder in Washington County. An armed mob in Florida—Murder in Washington County. General Kryganowski, superior of Georgia and Florida, reports, under date of October 12th, that Jackson and Washington counties, in Florida, are under control of an armed mob, which has risen to prevent the execution of revenue laws. The leader of this mob is one James P. Coker, who is represented to be a wealthy and influential man. He has threatened the assistant assessor, Low, of Marion county, with personal violence, and has challenged him to fight, and the officer writes to the supervisor that he can only canvass his district at the hazard of his life.

WASHINGTON.

Assessor Wilson writes corroborating his assistants' statements. The collector of customs at Jacksonville, Florida, J. A. Dockery, writes to the supervisor that the State tax collector and his wife had been brutally murdered in Washington county, adjoining Jackson. That there has been seven murders in Jackson county since the 1st of January, and the tax collector and assistant assessors of internal revenue are in imminent danger. The supervisor has called for troops. There was a scene of much interest and alarm in the supreme court room this afternoon. Hon. Thos. Ewing, Jr., was replying to a question of the opposing counsel, in a case in which he has been counsel for many years, spoke with unusual energy, having apparently been considerably excited by the speech of the opposing counsel. He exhibited signs of indignation, and obtained permission to set down while finishing his argument but, after attempting to proceed, fell from his chair in an unconscious state. Court immediately adjourned, and physicians and friends were summoned and Mr. Ewing was removed to a room in the capitol, where he still remains. His physician tonight pronounces him better, and says he will recover. His ailment is said to be exhaustion of the vigor of the heart.

ST. LOUIS.

Convention. ST. LOUIS, October 22.—The national capital convention met at the Southern Hotel this morning, and after passing some complimentary resolutions, and the appointment of the following sub-committee, by the president for the purpose of facilitating any business that it may be necessary to transact in the interest of the capital movement, adjourned sine die: Judge John D. Cason, of Illinois; Samuel B. Churchill, of Kentucky; L. U. Reeves, of Missouri; Mark E. Carr, of Illinois; John Coburn, of Indiana. It is probable that this committee will call another convention to be held in the city of Washington, soon. After the adjournment, the delegates and a large number of visitors embarked on a steamer and visited all points of interest between Bespoff's point, five miles above, and Carouddet, six miles below the city. The convention was a decided success.

NEW YORK.

Railroad Consolidation. NEW YORK, Oct. 22.—Mr. Dunley, of Chicago, now in this city, makes the public statement that in sixty days the New York Central, Hudson River, Lake Shore, Northwestern, St. Paul and Rock Island will be one line, a railroad consolidated on a basis of eight per cent. of the net earnings. This consolidated line will lease perpetually the Harlem and Erie roads, the Erie at seven per cent. or ten million dollars, and the Harlem at eight per cent. or fifteen million dollars. The Erie road will be narrowed at once to the gauge of other roads of her connection; also the Atlantic & Great Western and the Ohio & Mississippi. The New York Central will run into the consolidation at 240; the Hudson River at the Lake Shore at 125; the Erie at 175, and the Northwestern and St. Paul at par.

CHICAGO.

Gen. Butterfield. CHICAGO, Oct. 25.—New York special says that Gen. Butterfield resigned on the ground that he wanted the charges against him investigated, which could be done better when he was not in office. A message is said to have been ordered from Washington, with the request for A. T. Stewart to recommend a successor to Butterfield.

CHICAGO.

A sentimental editor says: "It is comforting to know that one eye catches fondly for our coming, and looks brighter when we come." A cotemporary is grieved to learn that his "brother of the quill" has a wife with one eye. A company has been formed in Lynchburg, Va. for the purpose of establishing works for the extraction of flaxine and other compounds from oak bark. They expect to begin operations very soon.

AN EAGLE ATTACKS A MAN.

ST. LOUIS CONVENTION.

Resolutions relative to the removal of the National Capital. The following are the resolutions reported to the Capital Convention by Joseph Medill, chairman of the Committee on Resolutions, and adopted unanimously: WHEREAS, The present site of the National Capital was selected as the most central point when the people of this Republic, only a few millions in number, inhabit only a narrow strip of country along the Atlantic coast; and WHEREAS, The population of this Republic has increased thirteen fold since then, and spread over a vast continent; and WHEREAS, The present location of the National Capital is notoriously inconvenient in times of peace, and as the darkest pages of our national history demonstrate in times of war or domestic turbulence, is so injurious to the progress of the vast armaments and untold millions of money for its special defense; and WHEREAS, All the reasons which caused the location of the seat of government, where it now is, by the enormous development of the country and a corresponding change in the wants of the people, become utterly obsolete, therefore,

RECOGNITION.

Resolved, That it is absurd to suppose that the habits of inhabitants in 1793, just emerging from colonial vassalage, before steamboats, railways, telegraphs or power presses were dreamed of, or a mile of turnpike or canal constructed, possessed the authority or desired to exercise the power of fixing the site of the capital forever on the banks of the Potomac against the will and interest of the hundreds of millions who might come after them.

RECOGNITION.

Resolved, That the people have endured the present badly located Capital for three quarters of a century, patiently waiting for the vast territory of the Union to be peopled and organized into States, and until the center of population, and the center of the nation, when a permanent place of residence for the Government could be selected. That time has come; and all sectional issues are settled, are disposed of, and a new era has been entered upon, and a new departure taken.

RECOGNITION.

Resolved, That in urging the removal of the National Capital from its present location, out-of-the-way and exposed to all sorts of inconveniences, the Union are in earnest, and that we shall not cease in our efforts until the absolute necessity of the removal will become more apparent every day. That the major portion of the people will not permit their interests and convenience to be disregarded.

RECOGNITION.

Resolved, That the removal of the National Capital being only a question of time we emphatically oppose and condemn all resolutions and proposals for the enlargement of the old government buildings, and the erection of new ones at the present seat of the National Government as a useless and wanton waste of the property of the people.

RECOGNITION.

Resolved, That the removal of the National Capital being only a question of time we emphatically oppose and condemn all resolutions and proposals for the enlargement of the old government buildings, and the erection of new ones at the present seat of the National Government as a useless and wanton waste of the property of the people.

A HOME LETTER.

A Short Ramble in Cass County, and What Our Correspondent Saw.

Ed. Herald.—Passing through Rock Bluffs a short time since, I was impressed with the location as being favorable to a town. There are two or three very good stores there, and a Steam Saw & Flouring Mill. On the Rock Creek bottom, west of town I saw some very good corn. A short distance west of town is the substantial residence of Dr. W. S. Latta, situated in a pleasant and sheltered position; the doctor has a fine farm which he is rapidly improving. A short distance from his residence on Rock Creek, is the flouring mill of J. & W. S. Latta. On the farm of Mr. Holmes, on Rock Creek bottom, west of the mill some distance, is one of the best pieces of corn that I have seen. Passing south on the old telegraph line, we pass the farms of Mr. Young, Messrs. Holmes, Mr. Jordan, and Hon. Demit Cole, who owns the fine farm formerly owned by J. L. Cozad, but considerably enlarged and improved. We then pass the residence of Mr. Oldham, pleasantly situated in a grove of cottonwoods set out some twelve years since. A few rods west from his house is a substantial brick school house that is a credit to the district. We then pass the residence, spoken of in the HERALD recently, erected by our worthy County Commissioner Joseph B. Moore. We then pass the residence and farm of our old friend, John H. Allison, on the right; on the left, passing westward, is the farm and residence of Dr. W. W. Wiley, one of the best farms in Cass County. The Dr. has set out a fine grove of several acres that speaks well for his taste and foresight. We pass the farm of our friend E. E. Wooley, whose farm seems to be well arranged for convenience and utility. We then pass the residence of Capt. A. J. Klepser, who we were sorry to hear has sold out, and was about to remove to Salt Creek. We then visited the residence of Hon. L. G. Todd. Mr. Todd is extensively engaged in the manufacture of cheese, and has the reputation of making a superior article. His dairy consists entirely of native stock, of which he has some fine animals. He is a wide-awake, active man, and has our best wishes for his success. On our return we pass the farm of Robert Latta, and on the right the farm of Hon. Geo. L. Seybolt. We then pass the best brick house of E. Berger, one of the finest residences in the county. There has been a large amount of land broken up near there, which will be fenced in during the coming season. Mr. Rhoden has improved a large farm near the head of Rock Creek. We had not time to call upon friend Hesser. Hon. B. Cole has a pleasant situation near the head of Rock Creek, and has broken up, we understand, more than 100 acres of prairie the past season. LEMUEL.

Mr. Todd is extensively engaged in the manufacture of cheese, and has the reputation of making a superior article. His dairy consists entirely of native stock, of which he has some fine animals. He is a wide-awake, active man, and has our best wishes for his success. On our return we pass the farm of Robert Latta, and on the right the farm of Hon. Geo. L. Seybolt. We then pass the best brick house of E. Berger, one of the finest residences in the county. There has been a large amount of land broken up near there, which will be fenced in during the coming season. Mr. Rhoden has improved a large farm near the head of Rock Creek. We had not time to call upon friend Hesser. Hon. B. Cole has a pleasant situation near the head of Rock Creek, and has broken up, we understand, more than 100 acres of prairie the past season. LEMUEL.

A HOME LETTER.

Ed. Herald.—Passing through Rock Bluffs a short time since, I was impressed with the location as being favorable to a town. There are two or three very good stores there, and a Steam Saw & Flouring Mill. On the Rock Creek bottom, west of town I saw some very good corn. A short distance west of town is the substantial residence of Dr. W. S. Latta, situated in a pleasant and sheltered position; the doctor has a fine farm which he is rapidly improving. A short distance from his residence on Rock Creek, is the flouring mill of J. & W. S. Latta. On the farm of Mr. Holmes, on Rock Creek bottom, west of the mill some distance, is one of the best pieces of corn that I have seen. Passing south on the old telegraph line, we pass the farms of Mr. Young, Messrs. Holmes, Mr. Jordan, and Hon. Demit Cole, who owns the fine farm formerly owned by J. L. Cozad, but considerably enlarged and improved. We then pass the residence of Mr. Oldham, pleasantly situated in a grove of cottonwoods set out some twelve years since. A few rods west from his house is a substantial brick school house that is a credit to the district. We then pass the residence, spoken of in the HERALD recently, erected by our worthy County Commissioner Joseph B. Moore. We then pass the residence and farm of our old friend, John H. Allison, on the right; on the left, passing westward, is the farm and residence of Dr. W. W. Wiley, one of the best farms in Cass County. The Dr. has set out a fine grove of several acres that speaks well for his taste and foresight. We pass the farm of our friend E. E. Wooley, whose farm seems to be well arranged for convenience and utility. We then pass the residence of Capt. A. J. Klepser, who we were sorry to hear has sold out, and was about to remove to Salt Creek. We then visited the residence of Hon. L. G. Todd. Mr. Todd is extensively engaged in the manufacture of cheese, and has the reputation of making a superior article. His dairy consists entirely of native stock, of which he has some fine animals. He is a wide-awake, active man, and has our best wishes for his success. On our return we pass the farm of Robert Latta, and on the right the farm of Hon. Geo. L. Seybolt.
